** When an offender is indigent or has insufficient funds at the specific time a copayment is assessed, a debt is established. This debt is either for the total amount of \$3.00, or for the balance after partial payment is collected. The amount due is to be paid at a later time when/if a deposit is made into the offender's account. Inmate banking does not have the capability to determine which part of debt repayment over a period of time is specifically applied to copayment debt.
