# Executive Summary

[RCW 18.130.310](#) of the Uniform Disciplinary Act (UDA) requires the Department of Health (department) to submit a biennial report to the legislature on disciplinary proceedings during the biennium that includes data on complaints, investigations, adjudications, and manner of disposition; background check activities; attorney and investigator case distribution; and optional health profession board and commission supplemental reports.

This biennial report includes data for the 2023-2025 biennium.

## Complaints, investigations, and adjudications

During the biennium, there were a total of 32,441 complaints.<sup>1</sup> The department completed investigations on 8,229, or 25 percent, of these complaints. The investigations resulted in disciplinary action on five percent of the complaints.

## Background check activities

The department:

- Conducted background checks on 178,594 applicants,
- Received WATCH reports (Washington State Patrol records of criminal convictions in Washington) on 4,217 applicants, and
- Denied a license or granted a license with conditions on 159 applicants based on the results of a background check.

Of the 4,217 applicants for which the department received WATCH reports, only 1,968 (47%) disclosed the criminal history on their applications. As this data shows, background checks are key to identifying applicants who may not be able to practice safely based on criminal or disciplinary history.

## Attorney and investigator case distribution

The number of cases for each investigator and staff attorney varies greatly due to several factors, including the nature and complexity of the complaint and the professions' regulations. Some cases require significant investigative and legal work. Because of this, numbers ranged from 1 to 262 cases per attorney and 1 to 308 investigations per investigator during the biennium.

---

<sup>1</sup> This number includes those carried over from the last biennium.

# Background

## Reporting requirement

The Uniform Disciplinary Act (UDA) provides a legal and policy framework for the regulation and oversight of health care providers in Washington, including disciplinary activities.

[RCW 18.130.310](#) requires the Department of Health (department) to submit a biennial report to the legislature on its proceedings during the biennium, including:

- The number of complaints made, investigated, and adjudicated, and manner of disposition.
- Data on the department's background check activities conducted under [RCW 18.130.064](#) and the effectiveness of those activities in identifying potential license holders who may not be qualified to practice safely.
- A summary of the distribution of the number of cases assigned to each attorney and investigator for each profession, keeping the identities of the attorneys and investigators anonymous.
- May include recommendations for improving the disciplinary process, including proposed legislation.
- May include health professions board and commission supplemental reports that cover disciplinary activities, rulemaking and policy activities, and receipts and expenditures for the individual disciplining authority.

## Disciplining authority

The department regulates individual health care providers and health care facilities to protect patients in Washington state. All health care providers under the department's authority are under the UDA.<sup>2</sup> Most facilities are regulated by the secretary of health under separate regulatory authorities and are not included in this report. However, a few fall under the UDA, including pharmacies, other pharmaceutical firms, and humane societies, and are included in this report.

The department shares licensing and disciplining authority with 17 boards and commissions and twelve advisory committees. Of these, the Washington Medical Commission (WMC), Washington State Board of Nursing (WABON), and Chiropractic Quality Assurance Commission (CQAC) have greater authority over their credentialing, investigative, and disciplinary functions. The Board of Massage shares authority with the department over massage therapist regulation, with the secretary of health having authority over licensing and discipline and the board

---

<sup>2</sup> The only exception is medical cannabis consultants, who are regulated under chapter 69.51A RCW, Medical Cannabis.

overseeing licensure examinations, continuing education, and substantial equivalency standards with other states.

The UDA grants authority to the secretary of health, boards, and commissions to implement the law, including the development of rules to set professional standards for the profession. It also grants the department, boards, and commissions the authority to enforce laws that assure the public of the professional competence and conduct of the health care providers and ensure they can practice with reasonable skill and safety. See Appendix A for definitions of regulatory terms used in this report.

## Licensee Data and Updates

The department has made some adjustments to how we count the official number of health professions to address newly added professions and historical inconsistencies. For example, staff pulled pharmacies/other pharmaceutical firms and humane societies out of the profession count since they are not health professionals, though they are regulated under the UDA and are included in this report. We also separated out some professions that had been historically counted together, like dietitians and nutritionists, and the multiple categories of medical assistants.<sup>3</sup>

The department regulates more than 590,000 health care professionals in 101 professions.<sup>4</sup> In addition, 10,000 pharmacies and other pharmaceutical firms, and 31 humane societies hold licenses to practice under the UDA.

There were several legislative changes to health profession credentials and disciplinary authority over the last biennium. These were:

- Implementation of eight new professions: certified peer specialist and peer specialist trainee,<sup>5</sup> behavioral health support specialist, birth doula, music therapists, medical assistant-EMT, and two new categories of agency affiliated counselor (certified and licensed).
- [Chapter 94, laws of 2024](#) created a new radiologic technologist specialty, magnetic resonance imaging technologist. The department implemented rules for this credential, which went into effect July 24, 2025.

---

<sup>3</sup> Please note that these adjustments were not made to the data tables in this iteration of the report as the data is backward looking, but will be made in future iterations. See Appendix B for the official list of 101 health professions.

<sup>4</sup> A net increase of eight professions after making the adjustments described above.

<sup>5</sup> Chapter 360, laws of 2025 renamed these credentials to certified peer support specialist and trainee and this name change is being implemented through department rulemaking. These professions are not included in Appendix B Licensee Counts because the rulemaking for these professions was effective July 1, 2025, which is outside this UDA reporting period.

- [Chapter 371, laws of 2024](#) created a licensed psychological associate credential, effective October 1, 2025. The rulemaking to implement this credential is currently in progress.
- [Chapter 239, laws of 2024](#), at the request of WABON, changes the title “advanced registered nurse practitioner” to “advanced practice registered nurse” effective June 30, 2027.

## Complaints, Investigations, Adjudication, and Disposition

### Complaints

Most disciplinary activity starts with a complaint from the public, practitioners, or facilities. The department, boards, and commissions may also open complaints based on media accounts or information from law enforcement.

**Figure 1: Total complaints for the 2023-25 Biennium**

Carried Over from FY23	New Complaints Filed	Total Complaints
4,074	28,367	32,441

### Investigations

When the department, boards, or commissions receive a complaint regarding a healthcare provider, they review it to decide if the incident or event, if substantiated, would violate the law and if they have the legal authority to act. If these two conditions are not met, the file is closed below the threshold and no further action is taken. If they determine the allegation might be a violation, and there is legal authority to act, staff begin an investigation.

Complaints can also include those for unlicensed practice. These are complaints that an unlicensed person is providing health care that requires a license to practice. The secretary is responsible for investigating these cases.

**Figure 2: Investigations completed during the 2023-25 Biennium**

Licensed Investigations Completed	Unlicensed Investigations Completed	Total Investigations Completed
7,690	539	8,229

The department, boards, and commissions manage each case throughout the disciplinary process, working with investigators, staff attorneys, and the Office of the Attorney General to identify violations and evaluate evidence. If the evidence does not support the complaint, it is

closed. If violations are found, the case is presented to a panel of members from the department, board, or commission for approval to take disciplinary action.

## Disciplinary Actions

### Informal Actions

Disciplinary action can be formal or informal, with informal actions taken in cases that involve minimal risk of patient harm. Informal action begins with a statement of allegations (SOA), which sets forth the factual allegations against the healthcare professional and the potential violations of the UDA. A SOA is resolved through a stipulation to informal disposition (STID). A SOA and STID may be offered prior to serving a formal statement of charges if the case involves minimal risk of potential or actual patient harm and no pattern of violations.

If the license holder agrees to the STID, they do not admit unprofessional conduct but do agree to corrective action. Additional training is an example of corrective action.

### Formal Actions

Formal disciplinary action begins with a statement of charges (SOC). The respondent must answer the charges in writing within 20 days or the board, commission, or department enters a default order.

An SOC is resolved through the adjudicative process, which can result in one of the following:

- **Agreed order:** A document agreed upon by the license holder (and their attorney, if represented) and representatives from the department, which includes any sanctions or conditions regarding practice. The agreed order becomes final if the disciplining authority approves it. This is called a stipulated findings of facts, conclusion of law, and agreed order.
- **Final order:** A document issued as a result of a formal hearing. This is called a findings of fact, conclusions of law, and final order.
- **Default order:** A final order issued when the disciplining authority has notified a license holder of allegations and the license holder failed to answer or participate in the adjudicative process.

In addition, the department can issue a cease and desist order for unlicensed practice of a health profession. This order requires the person to stop the unlicensed activity and may include a fine. Continued unlicensed practice may result in court enforcement of the cease and desist order or criminal prosecution.

The department, boards, and commissions took disciplinary action on four percent (1,213) of the total 32,450 complaints on all professions.<sup>6</sup> Figure 3 provides a breakdown of disciplinary actions by the manner of disposition.

**Figure 3: Summary of Case Disposition – 2023-25 Biennium**

---

<sup>6</sup> Chart does not include notices of decision, issued when the disciplining authority denies an application for licensure or grants the license with conditions based on disciplinary actions or criminal conviction activity identified. These are discussed under Background Checks (page 14).

## Data Tables

The following tables include detailed data by profession.

- Table 1 - Numbers of complaints and investigations by profession or facility
- Table 2 - Disciplinary actions for secretary professions
- Table 3 - Disciplinary actions for board and commission professions or facilities
- Table 4 - Manner of disposition by profession and program

Please note: The adjustments in how we count health professions discussed on page 3 will be made to the data tables in future iterations of the report.

# Background Checks

[RCW 18.130.310](#) requires the department to provide data on background check activities conducted under RCW 18.130.064 and the effectiveness of those activities in identifying potential license holders who may not be qualified to practice safely.

[RCW 18.130.064](#) authorizes the department to receive criminal history record information and non-conviction data for determining the eligibility of applicants for licensure or renewal, or to determine whether to proceed with an investigation of a complaint against a license holder. It requires the department to conduct a state background check through the Washington State Patrol on all new applicants and conduct an annual review of a representative sample of all license holders.

The statute allows the department to include a fingerprint-based check where the state patrol background check is inadequate, such as out-of-state applicants or applicants with a criminal record in Washington.

## Types of Background Checks

The department works with three databases to obtain criminal and disciplinary data on applicants. For all new applications, the background check process involves checking two separate databases:

- The Washington Access to Criminal History (WATCH) database is operated by the Washington State Patrol (WSP) and provides records of criminal convictions in the state of Washington.
- The National Practitioner Data Bank (NPDB) is administered by the U.S. Department of Health and Human Services to obtain disciplinary data from other states on all applicants. This national databank contains disciplinary information, including adverse actions, about health professionals.

For out-of-state applicants or applicants with a criminal history, the process includes an FBI fingerprint-based national background check through the FBI and WSP.

The FBI fingerprint process can be lengthy, especially when prints are unreadable and need to be re-collected. As a result, the department, boards, and commissions may grant temporary practice permits to applicants who satisfy all licensing requirements but are still awaiting FBI results to help improve access to care by avoiding delays. The temporary practice permit expires if criminal history is identified, and a notice of decision (NOD) is issued (see next page for more information on NODs).

## Figure 4: DOH Background Check Activity Summary – 2023-25 Biennium

Total Applicants	178,594
Applicants with returned background reports	4,217
Cases opened on applicants with returned background reports	557
Applicants who disclosed criminal or disciplinary history (% of cases)	1,968 (43%)
Applicants not disclosing criminal or disciplinary history (% of cases)	2,249 (54%)
Actions taken to restrict or deny a license application	159

### Disciplinary Action for Applicants

The department issues a NOD when the disciplining authority denies an application for licensure, or grants the license with conditions, pursuant to [RCW 18.130.055](#). Common application issues include discipline in another state or criminal conviction activity identified on an application or found in a background check. The notice has detailed instructions for the applicant, which explains what to do if they want to contest the decision. This includes notice of the right to request a hearing on the decision to prove they are qualified and can practice safely. The department issued 405 NODs during the 2023-25 biennium.

### Effectiveness of Background Check Activities

As the above table demonstrates, more than half of the applicants with returned background check reports did not disclose their criminal history on the application. We are unsure how many of these omissions were intentional. However, had we not conducted background checks, we would not have identified this history, and the applicants may have been fully licensed without conditions. This demonstrates that background checks were effective in identifying 159 potential license holders who may not be qualified to practice safely, and we were able to deny a license or grant a license with conditions to protect the public.

Table 5 shows details of background check activity by profession.

## Case Distribution to Investigators and Staff Attorneys

[RCW 18.130.310](#) requires the department to “summarize the distribution of the number of cases assigned to each attorney and investigator for each profession.” The law also requires that the identities of staff attorneys and investigators remain anonymous.

The number of cases for each investigator and staff attorney varies greatly due to several factors that may impact the amount of investigative and legal resources for a case (and how work is distributed). These factors include:

- The nature and complexity of the complaint,
- The complexity of the profession,
- Availability of records and other information,
- If there are companion cases with other professions,
- How many months the staff worked during the biennium, and
- Involvement of other entities, such as law enforcement.

Tables 6 and 7 provide case distributions by staff attorney and investigator. Numbers ranged from 1 to 262 cases per attorney and 1 to 308 investigations per investigator. Breakdowns by profession are not included in this biennium’s report because we are evaluating our methods for producing this information accurately.

Please note on the following tables:

- To preserve anonymity, individual staff members are indicated by a number.
- The number of cases shown includes any case worked during the biennium.
- The number of cases shown differs from the number of cases received or closed since it includes cases at any point in the investigative or legal process.

**Table 6: Distribution of Staff Attorney Caseload

<sup>1</sup> New credential

<sup>2</sup> Count includes new categories of certified and licensed agency affiliated counselor.

<sup>3</sup> Count includes MA-registered, MA-certified, MA-hemodialysis technician, MA-phlebotomist, and MA-forensic phlebotomist. It does not include the new category, MA-EMT, because the credential was implemented June 16, 2025 and none had been issued before the reporting period ended June 30, 2025.

<sup>4</sup> Beginning in the 21-23 biennium, all physician assistants are now under the Washington Medical Commission.

## Appendix B: Updated Official List of Health Professions

1.	Acupuncture & Eastern Medicine Practitioner
2.	Advanced Emergency Medical Technician
3.	Advanced Registered Nurse Practitioner
4.	Animal Massage Practitioner
5.	Athletic Trainer
6.	Audiologist
7.	Behavioral Health Support Specialist
8.	Birth Doula
9.	Cardiovascular Invasive Specialist
10.	Certified Behavior Technician
11.	Certified Peer Support Specialist
12.	Certified Peer Support Specialist Trainee
13.	Chiropractic X-Ray Technician
14.	Chiropractor
15.	Colon Hydrotherapist
16.	Co-occurring Disorder Specialist
17.	Counselor, Agency Affiliated-registered
18.	Counselor, Agency Affiliated-certified
19.	Counselor, Agency Affiliated-licensed
20.	Counselor, Certified
21.	Counselor, Certified Advisor
22.	Dental Anesthesia Assistant
23.	Dental Assistant
24.	Dental Hygienist
25.	Dentist
26.	Denturist
27.	Dietitian
28.	Nutritionist
29.	Dispensing Optician
30.	Dispensing Optician Apprentice
31.	Emergency Medical Responder
32.	Emergency Medical Technician
33.	Expanded Function Dental Auxiliary
34.	Genetic Counselor
35.	Hearing Aid Specialist
36.	Home Care Aide
37.	Hypnotherapist
38.	Licensed Assistant Behavior Analyst
39.	Licensed Behavior Analyst
40.	Licensed Practical Nurse
41.	Marriage & Family Therapist
42.	Marriage & Family Therapist Associate
43.	Massage Therapist
44.	Medical Assistant-registered

45.	Medical Assistant-certified
46.	Medical Assistant-hemodialysis technician
47.	Medical Assistant-phlebotomist
48.	Medical Assistant-forensic phlebotomist
49.	Medical Assistant-EMT
50.	Medication assistant
51.	Medical Program Director
52.	Medical Program Director Delegate
53.	Mental Health Counselor
54.	Mental Health Counselor Associate
55.	Midwife
56.	Music Therapist
57.	Naturopathic Physician
58.	Nursing Assistant-registered
59.	Nursing Assistant-certified
60.	Nursing Home Administrator
61.	Nursing Pool Operator
62.	Nursing Technician
63.	Occupational Therapist
64.	Occupational Therapy Assistant
65.	Ocularist
66.	Optometrist
67.	Orthotist
68.	Prosthetist
69.	Osteopathic Physician
70.	Paramedic
71.	Pharmacist
72.	Pharmacy Assistant
73.	Pharmacy Technician
74.	Physical Therapist
75.	Physical Therapist Assistant
76.	Physician
77.	Physician Assistant
78.	Podiatric Physician
79.	Psychologist
80.	Radiological Technologist
81.	Radiologist Assistant
82.	Recreational Therapist
83.	Registered Nurse
84.	Reflexologist
85.	Respiratory Care Practitioner
86.	Retired Volunteer Medical Worker
87.	Sex Offender Treatment Provider
88.	Sex Offender Treatment Provider Affiliate
89.	Social Worker Advanced

90.	Social Worker Associate Advanced
91.	Social Worker Associate Independent Clinical
92.	Social Worker Independent Clinical
93.	Speech Language Pathologist
94.	Speech Language Pathology Assistant
95.	Substance Use Disorder Professional
96.	Substance Use Disorder Professional Trainee
97.	Surgical Technologist
98.	Veterinarian
99.	Veterinary Medication Clerk
100.	Veterinary Technician
101.	X-Ray Technician

# Board and Commission Supplemental Reports

[RCW 18.130.310\(2\)](#) allows health profession boards and commissions to prepare a biennial report to complement the UDA report completed by the department. These reports may provide additional information about disciplinary activities, rulemaking and policy activities, and receipts and expenditures.

In Washington, there are two commissions and one board with regulatory authority independent of the Secretary of Health including the Washington Medical Commission, the Washington Board of Nursing, and the Chiropractic Quality Assurance Commission. These independent regulatory entities, called partner commissions, prepared the following reports.

## Reviewing the Disciplinary Graphs

The report for each partner commission includes two graphs:

- 1) The first summarizes the number of complaints received and investigations completed over the last four biennia.
- 2) The second depicts the types of disciplinary case outcomes for each board or commission over the past four biennia.

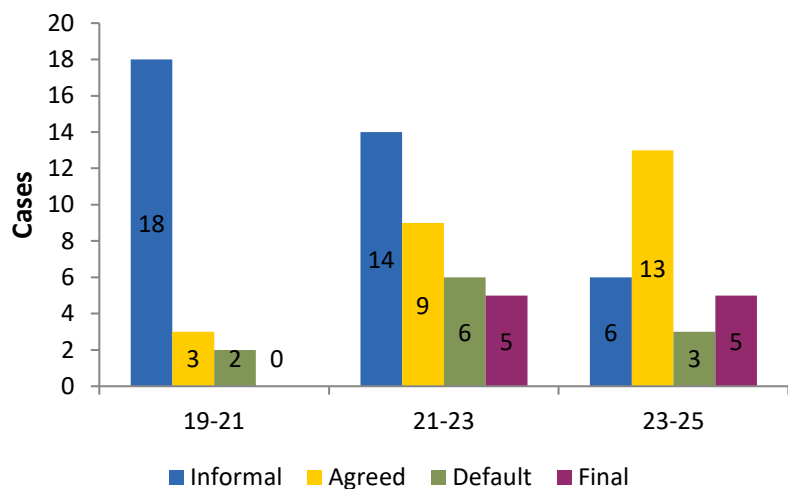

## Chiropractic Quality Assurance Commission

The Chiropractic Quality Assurance Commission (CQAC) protects the public by credentialing and disciplining chiropractors and chiropractic x-ray technicians. The commission regulates the professions by developing rules, policies, and guidelines. CQAC is made up of 14 commission members (11 chiropractors and 3 public members) appointed by the governor. Chiropractic members must be licensed to practice in Washington for five years prior to appointment.

Complaints in FY 23-25 are trending downwards. CQAC experienced a significant decrease in COVID-related cases since the end of the pandemic. In this biennium, CQAC received and presented 148 complaints for assessment, 111 investigations during this period.

*CQAC doesn't include sexual misconduct or unlicensed practice cases in these counts since those are referred to the secretary of health for investigation and action.*

During this biennium, CQAC issued 6 Stipulation to Informal Dispositions (STIDs), which do not require admission of wrongdoing by the licensee. Ninety-nine percent of the orders issued (formal discipline) complied with the sanction schedule guidelines, which makes for clearer and more consistent regulatory outcomes.

Cases closed informally do not include remediation plans, NOCs or cease and desist orders.

## **Rulemaking and Policy Activity**

### **Rulemaking Activity**

#### **Rulemaking Activity in Process**

- Classification of Chiropractic Procedures and Instrumentation
- Chiropractic Credentialing Requirements

#### **Rulemaking Activity Completed**

- Chiropractic health equity continuing education.
- Chiropractic X-ray technician course requirements, continuing education (including health equity), and expired status.
- The Department of Health (department) in collaboration with the Chiropractic Quality Assurance Commission (commission) adopted amendments to WAC 246-808-990 to update chiropractic and x-ray technician licensure, registration, renewal, and other fees including clarifying language.

### **Policies**

- Telehealth Policy
- Licensure by Endorsement – Substantially Equivalent Qualifications
- Chiropractic License Applicants or Inactive License Holders
- Initial and Re-Approval of Chiropractic X-Ray Technician Courses

### **Legislation**

2SHB 1009 (2023) Military Spouses -Professional Licensing and Employment: This bill reduces barriers to licensure for military spouses by requiring a temporary license to practice be issued in Washington within 30 days of receiving a completed application and allows the license to be in place for up to 180 days. The bill also requires each disciplining authority to provide training to board or commission members on topics related to military spouses, review licensing fees for possible ways to reduce costs for military spouses and create a webpage with specific military assistance information.

ESHB 1503 (2023) Collecting health care professionals' information at the time of license application and license renewal: This bill requires the Department of Health to collect demographic data from health care providers upon license application or renewal. This data will help the department better understand the health care workforce and address health care equity issues.

2SHB 1724 (2023) Increasing the trained behavioral health workforce: This bill requires a disciplining authority to waive education, training, experience, and exam requirements for applicants who have been credentialed in another state or states with substantially equivalent standards for at least two years immediately preceding their application with no interruption in licensure lasting longer than 90 days. A disciplining authority may also waive education,

training, experience, or exam requirements for applicants who have achieved a national certification for the profession as determined by the disciplining authority in rule.

## Washington State Board of Nursing

The Washington State Board of Nursing (WABON) protects the public’s health and safety by regulating the competency and quality of licensed practical nurses, registered nurses, advanced registered nurse practitioners, and nursing technicians. The purpose of WABON includes establishing, monitoring, and enforcing licensing regulations, consistent standards of practice, continuing competency mechanisms, and discipline. The governor appoints 15 board members to four-year terms: three licensed practical nurses, seven registered nurses, two advanced registered nurse practitioners, and three public members. These members represent nursing education, long term care, nurse administrators, staff nurses, and consumers of health care.

Complaints in the 23-25 biennium are trending up. This is due, in part, to continued cases associated with the FBI’s Operation Nightingale, which involves nurses who purchased substandard education from fraudulent schools located primarily in Florida. The increase in cases completed is partly attributed to standardizing the investigative strategy of the Operation Nightingale cases by using a portfolio-style report that contains all necessary school data and a specialized section on each individual nurse associated with the respective school.

In the 23-25 biennium, fewer cases were attached to disciplinary action, as many cases related to Operation Nightingale were settled with administrative action. Hearings Examiners also devoted time to supporting all units within WABON, implementing the Nurse Licensure Compact, and HELMS.

## Washington Health Professional Services

Washington Health Professional Services (WHPS) is a non-public program for nurses whose practice may be affected by substance use. Participation allows nurses to protect their licenses while receiving the help needed to recover from substance use disorder. WHPS protects the public by providing early intervention, referral to treatment, and structured monitoring services. Nurse monitoring has positive outcomes with success rates upwards of 70%. Most nurses in monitoring achieve long-term recovery and continue to practice in their profession.

For the 2023-2025 Biennium, the details for WHPS are below:

WHPS Participant License Categories	Nurses Participating in the WHPS Program due to Discipline or Action Against Their License	Nurses Voluntarily Participating in the WHPS Program	Nurses Achieving Successful Program Completion	Total WHPS Enrollment During the Biennium
Registered Nurse (RN)	269	38	81	307
Licensed Practical Nurse (LPN)	33	2	4	35
Advanced Registered Nurse Practitioner (ARNP)	10	3	3	13
Certified Registered Nurse Anesthetist (CRNA)	6	5	5	11
Nurse Technician (NT)	0	0	0	0

## Nursing Education

WABON approves and reviews all nursing education programs in the state of Washington and out-of-state distance learning programs that have clinical practice experiences within Washington. This includes nursing assistant training programs, alternative nursing assistant training programs, refresher courses, professional vocational relationship courses, undergraduate and graduate nursing education programs.

The total number of nursing education programs is 1,226 and includes:

In State Programs/Tracks
8 LPN
10 LPN-ADN
25 ADN Programs
13 BSN Programs
17 RN-BSN
125 Post-BSN Programs
8 Refresher Programs (2 LPN, 6 RN)
5 LPN-BSN
6 PVR
10 LPN-ADN

Out-of-State Programs/Tracks
1 LPN
4 ADN
2 LPN-BSN
13 NTECH
7 BSN
30 RN-BSN
348 MSN
228 DNP
80 Post Graduate Certificates
88 Post Masters Certificates
2 PhD Programs

Nursing Assistant Programs
157 Traditional Nursing Assistant (NA) programs
25 Home Care Aide to NA Programs (HCA)
9 Medical Assistant to NA Programs (MA)
5 Medical Assistant-Certified Training Programs (MACE)

## Rulemaking and Policy Activity

The legislature passed several bills during the 2024 and 2025 legislative sessions that directly impacted the nursing profession. Among the most significant are SHB 2416 (chapter 239, Laws of 2024) and SB 5051 (chapter 5, Laws of 2025).

- HB 2416 changed the legal title of Advanced Registered Nurse Practitioners (ARNPs) to Advanced Practice Registered Nurses (APRNs) in Washington, aligning the title with national standards and improving consistency across state and federal documentation.
- SB 5051 consolidated regulatory authority for nursing assistants under WABON, streamlined oversight, and aligned the regulation of all nursing professions under a single agency.

WABON, in collaboration with DOH, has begun developing a comprehensive transition plan to support the full implementation of SB 5051 by its effective date of July 1, 2026. Planning efforts have included coordination across multiple operational areas to ensure a smooth and timely transition. Key components of the transition plan include: revising and aligning WAC chapters with new statutory authority; addressing collective bargaining considerations for affected staff; transferring staff and roles from DOH to WABON; reallocating budget allotments to support expanded responsibilities; refining credentialing and disciplinary processes to fit WABON’s existing framework; identifying and providing necessary staff training; and developing guidance and support resources. This collaborative planning process is ongoing and is designed to ensure that WABON is fully prepared to assume responsibility for nursing assistant regulation while minimizing disruptions to credentialing, enforcement, and workforce support.

In 2024, WABON fully implemented the Nurse Licensure Compact (NLC), following the passage of SSB 5499 (Chapter 123, Laws of 2023). WABON launched Phase 1 of NLC implementation within three months of the bill's signing, allowing nurses with multistate licenses from other compact states to practice in Washington. Phase 2, which involved issuing multistate licenses to qualified Washington residents, was completed in January 2024. The timeline includes necessary updates to the state’s licensing system and the completion of the rulemaking process.

## Legislation

Following are the 2023-2025 bills with implications for WABON.

Profession	WAC Sections	Purpose	Status
Registered Nurses, Licensed Practical Nurses, Advanced Registered Nurse Practitioners, Nurse Technicians	Amendments to: WAC 264-840-095	<a href="#">1009-S2.SL.pdf (wa.gov)</a> <b>Military spouses—professional licensing and employment</b>	Completed CR-103P WSR: <a href="#">24-03-055</a> Filed: 1/11/2024

**Rules (Completed)**

Profession/Title	WAC Sections	Purpose	Status
Nursing Assistants and NAC Training Program Standards	Repealed Chapter 246-841 WAC Chapter 246-842 WAC Established: Chapter 246-841A WAC	Created new Chapter 246-841A WAC; and repealed chapters 246-841 and 246-842 WAC. The new chapter represents a collaboration between the board and the department of health to address necessary changes in the nursing assistant	CR-103P WSR: <a href="#">23-20-117</a> Filed: 10/3/2023

	Chapter 246-842 WAC (repealed)	rules. The board and department identified that chapter 246-841 WAC needed updating to reflect best practices, and chapters 246-841 and 246-842 WAC needed to be repealed to eliminate redundancy.	
Nursing Temporary Practice Permits	Amendments to: WAC 264-840-095	The board adopted amendments to WAC 264-840-095 to reduce the duration of a temporary practice permit from 180 days to 60 days, aligning the rule with the board’s current practice and encouraging timely completion of the licensure process. The amendments also shortened the extension period for the temporary practice permit from 180 days to 30 days.	CR-103P WSR: <a href="#">24-03-055</a> Filed: 1/11/2024
Blood Glucose Delegation	Amendments to: WAC 246-840-010 WAC 246-840-700 WAC 246-840-910 WAC 246-840-920 WAC 246-840-930 WAC 246-840-940 WAC 246-840-950 WAC 246-840-960 WAC 246-840-970	The board permanently adopted amendments to revise the required amount of time for RN supervision and evaluation of delegated insulin injection tasks. In response to Substitute House Bill (SHB) 1124 (Chapter 14, Laws of 2022),	CR-103P WSR: <a href="#">24-13-079</a> Filed: 6/17/2024

Health Equity Continuing Education	Amendments to: WAC 246-840-220	the board also established new rule sections regarding nurse delegation of blood glucose monitoring and testing.	CR-103P
	New Section: WAC 246-840-222	<a href="#">5229-S.SL.pdf</a> <a href="#">(wa.gov)</a>	WSR: <a href="#">23-23-166</a>
		In compliance with RCW 43.70.613, the board adopted permanent rules requiring licensees to complete two hours of health equity education annually, as part of their existing CE requirements. This exceeds the minimum requirement in the model rules, which mandate two hours every four years. No additional topics beyond those outlined in the model rules are being added.	Filed: 11/21/2023
Initial Out-of-State Exam and Endorsement Licensing For Registered Nurses & Licensed Practical Nurses	Amendments to: WAC 246-840-030 WAC 246-840-090	The board adopted emergency rule language into permanent rule, amending specific provisions to clarify licensure requirements for RN and LPN applicants seeking initial licensure through an out-of-state traditional nursing education program	CR-103P
			WSR: <a href="#">24-10-063</a>

New Section:

WAC 246-840-790

The board established new definitions and terminology changes related to its SUD monitoring program in response to SHB 1255 (Chapter 141, Laws of 2023).

The board also created a new rule section establishing application requirements for a stipend program to offset treatment costs. The new rule mirrors the statutory eligibility requirements, further defines the board's process for covering out-of-pocket expenses through the stipend program, and clarifies the approved SUD program as established in existing rules.

### Rules (In Progress)

Profession/Title	WAC Sections	Purpose	Status
Integration of Skills Testing into Nursing Assistant Training Programs and Updates to Specialty Curricula Requirements	Amendments to: Chapter 246-841A WAC	The board is considering amendments to nursing assistant rules to implement skills testing within training programs, revise requirements for specialty curricula, and make other related	CR-101 WSR: <a href="#">25-05-087</a> Filed: 2/18/2025  The board is in the process of developing rule language. Proposed rule language will be

		changes as appropriate. The board is also considering additional updates to this chapter to implement SB 5051 (Chapter 5, Laws of 2025).	considered by the board during its January 9, 2026 Business Meeting.
Registered Nurse and Licensed Practical Nurse Licensing and Continuing Competency	Amendments to: WAC 246-840-015 WAC 246-840-020 WAC 246-840-025 WAC 246-840-030 WAC 246-840-045 WAC 246-840-048 WAC 246-840-050 WAC 246-840-060 WAC 246-840-090 WAC 246-840-095 WAC 246-840-105 WAC 246-840-111 WAC 246-840-120 WAC 246-840-125 WAC 246-840-200 WAC 246-840-210 WAC 246-840-220 WAC 246-840-222 WAC 246-840-230 WAC 246-840-250 WAC 246-840-260	The board is considering amendments to WAC 246-840-015 through 246-840-260 to modernize outdated language, reorganize and reformat rules to align with current best practices, and restructure sections as needed. Additional topics under consideration include reducing barriers and simplifying regulations for multistate licensure applicants and internationally educated applicants, and exploring limits on NCLEX attempts before requiring remediation.	CR-101 WSR: <a href="#">24-24-011</a> Filed: 11/21/2024  Proposed rule language was approved by the board during its May 9, 2025 Business Meeting.  The CR-102 rule hearing is scheduled for the November 7, 2025 Business Meeting.
		This rulemaking is Phase 1 of the board's formal review of chapter 246-840 WAC, conducted as part of its five-year rule review under RCW 43.70.041.	

Advanced Practice  
and Pain  
Management

Amendments to:  
WAC 246-840-010  
WAC 246-840-300  
through  
WAC 246-840-4990

The board is considering amendments to WAC 246-840-010 and 246-840-300 through 246-840-4990 to clarify advanced practice licensure requirements, align standards with national best practices, update prescriptive authority provisions, and address related objectives.

This rulemaking is Phase 2 of the board's formal review of chapter 246-840 WAC, conducted as part of its five-year rule review under RCW 43.70.041. The goal is to update outdated language, reorganize and reformat rules, and ensure consistency with current best practices.

CR-101

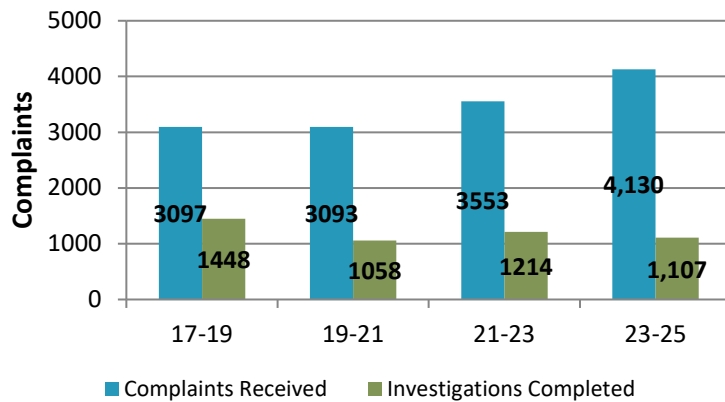

WSR: [25-15-033](#)

Filed: 7/8/2025

The board is in the process of developing rule language. Proposed rule language will be considered by the board during its March 13, 2026 Business Meeting.

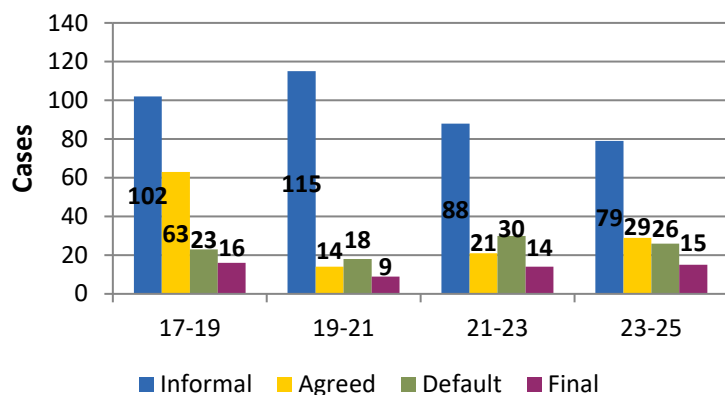

## Washington Medical Commission

The Washington Medical Commission (WMC) promotes patient safety and enhances the integrity of the profession through licensing, discipline, rulemaking, and education. The governor appoints 21 commission members to four-year terms: 13 physicians, 2 physician assistants, and 6 public members to pursue work furthering the governor’s goal of healthy and safe communities. Complaints come from a variety of sources. These sources include: the public, mandatory medical malpractice reports from insurance companies, and adverse action reports from medical societies, hospitals, medical service bureaus, professional standards review organizations, federal, state, and local agencies.

In this biennium, the WMC received and presented 4,130 complaints for assessment, which is 16.2 percent higher than the prior biennium. Twenty-nine percent of the complaints presented were authorized for investigation. The WMC completed 1,107 investigations during this period.

*WMC doesn't include sexual misconduct or unlicensed practice cases in these counts since those are referred to the secretary of health for investigation.<sup>7</sup>*

During this biennium, the WMC issued 79 Stipulation to Informal Dispositions (STIDs), which do not require admission of wrongdoing by the licensee. Ninety-nine point five percent of the orders issued (formal discipline) complied with the sanction schedule guidelines, which makes for clearer and more consistent regulatory outcomes.

<sup>7</sup> Additional discrepancies in case and investigation counts compared to UDA tables were present due to slight differences in data collection methodology.

## **Rulemaking Activity Completed**

- SB 5229 - Health Equity CE
- Emergency rulemaking - WAC 246-919-330 – Post Graduate Training requirements
- WAC 246-919-330 Postgraduate Medical Training – finalizing emergency rulemaking (file permanent rules)
- HB 1009 Military Spouse amendments to comply with updated law
- SB 5184 - Anesthesia Assistants - New Profession
- HB 2041 – PA Collaborative Practice amendments to comply with updated law
- Technical edits to WAC 246-919-945 and WAC 246-918-895 – removing references to Osteopathic physician assistants as that license type was eliminated and all physician assistants are now under the authority of the WMC.
