Subject: List of Aerial Contractors Pursuant to 2ESHB 2376 Sec. 308.14

Dear Chief Clerk Baker and Secretary Goodman:

In 2016, the Legislature passed and the Governor signed into law 2ESHB 2376 making supplemental operating budget appropriations. Section 308 subsection 14 of this act required the Department of Natural Resources (DNR) to develop a pre-certified list of aerial contractors that may be available for fire suppression in fire-prone areas and report the list to the appropriate committee of the legislature by December 1, 2016.

Attached is a list of single engine air tankers, air attack and helicopter call when needed aerial contractors that meet national interagency inspection and carding standards. This list allows Wildfire Division to expedite resource orders needed in wildfire suppression operations.

Questions may be referred to John Kaikkonen at 360-902-1300.

Sincerely,

Bob Johnson
Wildfire Division Manager
