SUBJECT: 2020 Tax Exemption Study

The 2020 Tax Exemption Study was originally submitted to you on January 10, 2020, pursuant to RCW 43.06.400. The attached is an update to correct a wording error within the Business and Occupation Tax Chapter, specifically for the description of the architectural paint assessment fee exemption found in RCW 82.04.765. This change has no impact on the analysis, revenue impacts, charts or summary of findings provided in the study. We have updated the study on our agency website and we are providing this pdf version to you for updating on the legislative website.

Study covers 748 tax exemptions

There are currently 748 tax exemptions for major Washington state and local tax sources. The estimated savings in state and local taxes for taxpayers resulting from these exemptions total \$138.8 billion for the 2019-21 Biennium. For each exemption, the following is provided:

- A brief description,
- The purpose of the exemption,
- Taxpayer savings,
- Potential revenue gains from a full repeal of the exemption, and
- Additional information such as the year of enactment and the primary beneficiaries.

Study provided electronically

In an effort to reduce the cost of producing this study, we are providing it to you electronically. The report is also available on our website at: <https://dor.wa.gov/about/statistics-reports/tax-exemptions-2020>.

Chapter One - Introduction and Summary of Findings

INTRODUCTION

The Tax Exemption Study lists exemptions for the major state and local taxes in Washington and is authorized by the Revised Code of Washington (RCW) 43.06.400 [Appendix A].

Tax exemptions:

The term *tax exemption* includes a variety of preferences that reduce tax liability for taxpayers. Tax exemptions include:

- Exclusions;
- Deductions;
- Credits;
- Deferrals;
- Preferential tax rates; and,
- Exemptions.

Department of Revenue (Department) staff estimated the impact of each exemption. Sales and use tax exemptions for the same product or activity are included as a single estimate. In other cases, there are multiple estimates for a single statute to better illustrate the impacts.

The summary of each exemption includes:

- A brief description;
- The purpose of the exemption;
- Taxpayer savings;
- Potential revenue gains from a full repeal of the exemption; and,
- Additional information.

Taxpayer savings versus potential revenue gain:

| Number of Incentives | STATE Taxpayer Savings (FY 2021) | STATE Revenues Realized from Repeal (FY 2021) |
|----------------------|-------------------------------------|--|
| 748 | 35,073,807,000 | 21,729,547,000 |

Savings to taxpayers do not indicate the potential revenue that governmental jurisdictions would accrue if the exemption did not exist. For example, some exemptions will not increase state revenues by the same amount as the taxpayer savings due to:

- Constitutional prohibitions against taxing certain activities;
- Possible changes in taxpayer reporting behavior; or,
- Actual cash receipts lower because of compliance factors.

In all cases, estimates assume a full repeal is effective July 1, 2020, resulting in no revenue gain in Fiscal Year 2020 and typically 11 months of revenue gain for Fiscal Year 2021.

Chapter One - Introduction and Summary of Findings

The Tax Exemption Study *does not* include:

- Locally administered taxes such as the municipal business taxes;
- Discussion regarding tax policy related to the exemption; or,
- Recommendations to keep or terminate existing exemptions.

Forecast:

All estimates use the March 2019 Economic and Revenue Forecast Council forecast unless otherwise noted.

Revised Code of Washington (RCW) Citation:

The full RCW citation is included if it was available at the time that the exemption was analyzed.

SUMMARY OF FINDINGS

The current study analyzes 748 tax exemptions. The state and local impacts of these tax exemptions combine for an estimated taxpayer savings of \$138.9 billion for the 2019-21 Biennium. Approximately 49 percent of the total, or \$68.3 billion, are exemptions from state taxes. Exemptions from local government taxes amount to \$70.6 billion.

Table 1 summarizes the number of exemptions and the distribution of state and local impacts for the various types of taxes considered in this study.

| Total | 748 | \$68,296.451 | \$70,550.166 | \$138,846.617 |

Chapter One - Introduction and Summary of Findings

Chart 1 shows tax savings by tax source as a percent of the total. Nearly 37 percent of the state impact is from retail sales and use tax exemptions, while more than 82 percent of local tax impact is from property tax exemptions.

Chart 1
Taxpayer Savings by Tax Source

Taxpayer savings versus potential revenue gains from a full repeal:

Savings to taxpayers do not indicate the potential revenue that governmental jurisdictions would accrue if the exemption did not exist. For this reason, each exemption provides the estimated taxpayer savings plus the potential revenue gain from a full repeal of the exemption.

- For many excise taxes there is a one-to-one relationship between the amount that taxpayers save and the amount that government gives up in potential revenues.
- Other exemptions may cause possible changes in taxpayer reporting behavior, which could restrict the potential revenues realized.
- Several exemptions exist because of constitutional reasons, and are not a reliable source of potential new governmental revenue.
- Depending on the year a property tax exemption is repealed, it may increase state revenues or shift property taxes back to currently exempt taxpayers.

Chapter One - Introduction and Summary of Findings

Table 2a shows the taxpayer savings for the 2019-21 Biennium, and the amount of potential revenue gains with a full repeal of the exemptions as of July 1, 2020. The potential gains reflect no collections in Fiscal Year 2020 and eleven months of collections in Fiscal Year 2021, the second year of the biennium.

Taxpayer savings versus forecasted revenue collections:

Table 3 and Chart 2 compare the estimated taxpayer savings from exemptions for selected state taxes with the Economic and Revenue Forecast Council forecasted revenues for those same tax sources.

Chapter One - Introduction and Summary of Findings

The total taxpayer savings for these state taxes is nearly \$59 billion for the 2019-21 Biennium, which is nearly \$14 billion more than the forecasted revenues of \$45 billion.

Chapter One - Introduction and Summary of Findings

Categorical Analysis:

Tax exemptions are established for a variety of reasons. In an attempt to present more meaningful data for the various types of exemptions, eight categories were developed. Each exemption is assigned to the category that most closely represents its general purpose or type of beneficiary (recognizing that many exemptions serve multiple purposes).

A brief description of the exemption categories appears below:

| Category | Number of Exemptions | Brief Description of Category |
|----------------------------|----------------------|--|
| Agriculture | 60 | There are a variety of property, B&O and sales tax, and other exemptions for agricultural businesses. |
| Business | 263 | These exemptions generally benefit business entities. |
| Government | 88 | Governmental jurisdictions include the federal government, the state of Washington, local governments and foreign countries. |
| Individuals | 70 | These exemptions generally benefit people, as opposed to businesses or other entities. |
| Interstate Commerce | 21 | The United States Constitution prohibits direct taxation of interstate commerce. The Legislature has enacted exemptions to assure that Washington does not violate this requirement. |
| Nonprofit | 91 | There are a variety of property, B&O and sales tax exemptions allowed for nonprofit organizations. |
| Tax Base | 77 | This category includes activities the Legislature purposefully excluded in the original tax base. For example, there is an exemption to assure employees are not subject to B&O tax, even though it was never the intent for tax to apply to salaries and wages. |
| Other | 78 | Some exemptions do not fit easily into one category. These are included in the "Other" category. As an example, the exemption for intangibles benefits the agricultural industry, businesses, and individuals. |

Chapter One - Introduction and Summary of Findings

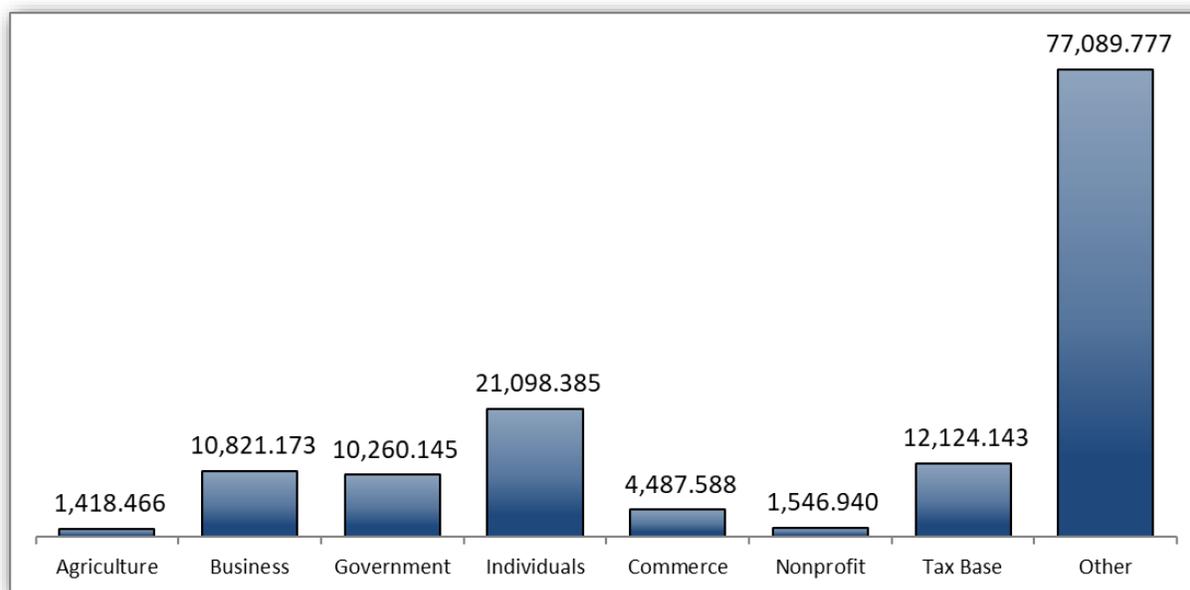

Table 4 summarizes the results of the categorical analysis. The other category represents over 55 percent of the total taxpayer savings, the majority of which are local tax savings. Of the \$77.1 million taxpayer savings in the other category, \$75.0 million comes from the following two exemptions:

- Property tax exemption on intangibles (\$62.0 million); and,
- Sales and use tax exemption on personal and professional services (\$13.0 million).

Exemption History

Tax exemptions enacted by year:

Until 1935, no more than a half dozen new exemptions appeared in any single year. With the adoption of the Revenue Act of 1935 came many new exemptions; 43 of which are still in statute today. These were associated with:

- Retail sales and use taxes;
- B&O tax; and,
- Various other new state excise taxes.

Table 5 shows the number of current tax exemption statutes over time, starting in Washington's territorial days.

48.32.130 - Insurance guarantee association

Description The Washington Insurance Guarantee Association (Association) is exempt from all fees and taxes levied by the state or its political subdivisions, except taxes levied on real or personal property. The estimates shown in this section reflect the exemption from state B&O tax for income derived by the Association.

The Association protects policyholders from insolvent insurers. Insurance companies pay an assessment to the Association to provide funding for payments to any policy holders, whose insurance company is unable to provide compensation under the terms of their policies.

Purpose To protect insurance policy holders and reflect the fact that the receipt of assessments from insurance companies by Association does not represent engaging in business.

Taxpayer savings (\$ in millions):

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |
|-------------|---------|---------|---------|---------|
| State Taxes | \$0.060 | \$0.060 | \$0.060 | \$0.060 |
| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Repeal of exemption Repealing this exemption would increase revenue if the receipt of these assessments were to be considered as engaging in business by the Association.

Potential revenue gains from full repeal

(\$ in millions):

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions Association revenue will be at least \$4.0 million a year.

82.04.040(1)(b) - Tow truck operator vehicle sales

Description

The following are exempt from the definition of a retail sale:

- The sale of an abandoned vehicle sold by a registered tow truck operator to a successful bidder at public auction; and,
- The sale of an abandoned vehicle sold by a registered tow truck operator to a licensed vehicle wrecker, hulk hauler, or scrap processor, as provided in RCW 46.55.130, if there is no successful bidder as described above.

This exemption expires January 1, 2030.

Purpose

To make administration of the sales and use tax easier for tow truck operators.

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions

- The revenue impact as a result of repealing this exemption may result in a minimal increase in total sales and use tax collections.
- Vehicle use tax will only be paid if the consumer registered the vehicle in Washington. If the vehicle is parted out, no use tax would be collected.

82.04.062 - Precious metals and bullion

Description Sales of precious metals and monetized bullion are exempt from B&O tax. However, dealers of such metals and bullion are subject to B&O tax under the service classification on commissions they receive for buying and selling precious metals on behalf of their customers. The sales tax portion of the exemption is discussed under the sales tax portion of this report.

Purpose To provide relief to dealers that are in competition with precious metals dealers in other states who are often not subject to tax and to recognize the frequency of such purchases which are made via mail order or over the internet which are not subject to tax in this state.

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions

- Tax base that serves as the foundation of this estimate based on retail sales deductions reported on the excise tax return for the sales of precious metals and bullion.
- Taxpayers using this exemption are properly reporting the retail sales deduction on their excise tax returns and not just excluding from gross income.
- Growth rates used in this estimate are the same as for all retail sales. Price of precious metals is extremely volatile and no source reliably predicts the price six years into the future.
- July 1, 2020, effective date, with 11 months of collections in Fiscal Year 2021.

82.04.110(2)(b) - Aluminum master alloy producers

Description Producers of aluminum master alloys are processors for hire rather than manufacturers regardless of the portion of aluminum provided by their customers. As a result, producers pay tax on the amount they charge their customers for processing. Manufacturers pay tax on the total value of the finished product.

Purpose Provides tax relief to producers of aluminum master alloys as they are subject to B&O tax on the amount charged to their customers and not the total value of the finished product.

82.04.120(2)(a) - Hay cubing

Description "To manufacture" excludes cubing hay or alfalfa (compacting hay into small cubes for shipping, mainly to foreign markets) for B&O tax purposes. As a result, farmers who compact their own hay or alfalfa into cubes for sale at wholesale, are not subject to B&O tax.

Persons who cube hay or alfalfa for others are subject to the service or wholesaling B&O tax depending on where the activity takes place. Activity taking place on the grower's land is a service, while activity performed elsewhere is a wholesale transaction.

Purpose Improves competitive position of Washington firms that cube hay for export.

82.04.120(2)(a) - Seed conditioning

Description "To manufacture" excludes seed conditioning for B&O tax purposes. In addition, wholesale sales to farmers of seed conditioned for use in planting, or conditioning seed owned by others for their planting is exempt from the wholesale B&O tax per RCW 82.04.331. See separate estimate.

Purpose Encourages seed conditioning businesses to relocate in Washington.

Assumptions

- Taxpayer manufactures seeds in Washington before selling as a wholesale product.
- Manufacturing of seeds means seeds that will be used for planting.
- Seed conditioners only owe wholesaling B&O on in-state sales so the out of state deduction is one part of the manufacturing exclusion.
- Ninety-five percent of conditioned seeds are from in-state sellers.
- Five percent growth rate reflects the growth of seeds used for planting.

82.04.120(2)(d) - Packing agricultural products

Description Manufacturing B&O excludes the process of packing agricultural products. This includes: sorting, washing, rinsing, grading, waxing, treating with fungicide, packaging, chilling or placing in a controlled atmospheric storage.

Purpose Clarifies that packing of agricultural products is not a manufacturing activity, and is not eligible for manufacturing tax incentive programs.

82.04.120(2)(e,f) - Computer software and digital goods

Description Manufacturing B&O tax applies to the production of computer software when the producer transfers the software by means of tangible storage media, but not to software transferred electronically, or to digital goods. Instead, retailing or wholesaling B&O tax applies to electronically delivered goods, depending upon the nature of the transaction.

Purpose To reduce confusion and complications concerning the B&O tax liability incurred by the production and sale of software and digital goods.

82.04.240(2) - Semiconductor materials manufacturing after \$1 billion investment

Description Businesses manufacturing semiconductor materials are subject to the B&O tax at a rate of 0.275 percent, instead of the general manufacturing rate of 0.484 percent. The lower tax rate is contingent upon the commercial operation of a new semiconductor microchip fabrication facility with an investment in new buildings and equipment amounting to at least \$1 billion dollars.

To qualify, a manufacturer must begin operations before January 1, 2024. If this does not occur, the reduced rate expires on this date.

Purpose To encourage retention of existing semiconductor firms in Washington, while attracting similar businesses to this state.

Assumptions

- Cleaning saltwater fish is not included in this calculation as manufacturing seafood is exempt from B&O tax under 82.04.4269.
- Actual taxpayer savings and potential revenue gains may be lower due to multiple activities tax credit and small business credit.
- July 1, 2020, effective date, with 11 months of collections in Fiscal Year 2021.

82.04.2404 - Semiconductor materials manufacturing - Preferential rate

Description Washington provides a preferential B&O manufacturing rate of 0.275 percent on the manufacture or process for hire of semiconductor materials. The exemption is set to expire December 1, 2028. Any person claiming the preferential tax rate must reimburse the Department of Revenue (DOR) for 50 percent of the amount of the preference if:

- The number of persons employed by a person claiming the tax preference is less than 90 percent of the three-year average; or
- A review of a Clark County project has not generated at least 2500 jobs paying at least \$25 per hour; 80 percent of these jobs must pay at least \$35 per hour.

Manufacturers with no tax preference pay tax at a rate of 0.484 percent.

Purpose To encourage the retention of existing semiconductor firms and attract similar businesses to Washington.

82.04.250(3) - Certified aircraft repair firms

Description Until July 1, 2040, qualified aircraft repair facilities certified by the Federal Aviation Administration as a “FAR part 145” repair facility receive a reduced B&O tax rate of 0.2904 percent on retail sales and repairs made to airplanes exempt from tax under RCW 82.08.0261, 82.08.0262, or 82.08.0263. Businesses reporting under this tax rate must file a complete annual report with the Department of Revenue. If the incentive is repealed the activities would be subject to the 0.484 percent.

82.04.260(1)(b) - Seafood products manufacturing

Description

A preferential B&O tax rate of 0.138 percent is provided to:

- Manufactures of seafood products that remain in a raw, raw frozen or raw salted state at the completion of the manufacturing process; and,
- Sellers of manufactured seafood products that remain in a raw, raw frozen or raw salted state at the completion of the manufacturing to purchasers who transport the seafood products out of this state.

The general tax rate for manufacturing is 0.484 percent.

Purpose

To provide tax relief to firms, create and retain quality jobs, and consistent tax treatment with other fresh food processors.

Assumptions

- In 82.04.260(1)(c), the default manufacturing and wholesale rate of 0.484% applies through June 30, 2025.
- Manufacturing or wholesaling of dairy product activities to purchasers who either transport out of state or who use dairy products as ingredients or component in the manufacturing of a dairy product are currently exempt from the B&O tax under RCW 82.04.4268. This exemption expires July 1, 2025.
- The preferential rate of 0.138% will not begin until July 1, 2025.
- An effective date of repealing the incentive of July 1, 2020, will not have any effect because there are no current taxpayer savings.

82.04.260(12) – Timber and wood products extracting or manufacturing

Description Persons extracting or manufacturing timber and selling timber and wood products at wholesale receive a preferential B&O tax rate of 0.2904 percent (.3424 after including .052 surcharge to finance riparian habitat). Previously these activities were subject to a B&O tax rate of 0.484 percent.

Persons selling standing timber, if severed within 30 months of the sale agreement, receive a Real Estate Excise Tax (REET) exemption under this preference and pays B&O tax at 0.2904 percent (.3424 percent effective rate after including .052 percent surcharge to finance riparian habitat). Without the preference, these activities are subject to REET at an average of 1.67% (1.28% state and 0.39% local portion) instead of B&O tax.

This preferential tax rate expires July 1, 2024. The surcharge of 0.052 percent (82.04.261) also expires on July 1, 2024.

Purpose Encourage firms in the timber industry to continue to conduct business in the State of Washington.

82.04.260(14)(a) – Printing and publishing newspapers

Description Businesses in the newspaper industry receive a preferential B&O tax rate for engaging in the business of printing a newspaper, publishing a newspaper, or both. This B&O tax rate is 0.35 percent until July 1, 2024, at which time the rate increases to 0.484 percent.

The definition of “newspaper” for B&O tax purposes includes electronic versions of a printed newspaper. Advertising and subscription revenues generated from the online version of a printed newspaper are also taxed at the preferential rate.

Proposal:

The preference expires on July 1, 2024. The B&O tax rates would be:

- 0.484 percent for print advertising revenues;
- 1.5 percent for digital advertising revenues; and
- 0.484 percent for print and/or digital subscription revenues.

Purpose Assist the newspaper industry by providing relief to sustain business activity in the state of Washington.

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions

- Washington's newspaper subscription and advertisement revenues follow national trends.
- Newspaper income taxed under preferential rate during Fiscal Year 2018 equals \$445.7 million.
- Newspaper revenue from subscription and advertisement is decreasing at the annual rate of 3.4 percent, based on Washington's past 4-year average excise tax return data.
- July 1, 2020, effective date will result in 11 months of cash collections in Fiscal Year 2021.

82.04.260(14)(a) – Printing and publishing newspapers

- Roughly 59 percent of revenues are from advertisement in newspapers (20 percent of revenues are from online digital advertising and 39 percent of revenues are from print advertising).
 - Approximately 41 percent of revenues are from either digital, print, or print/digital bundled subscriptions.

82.04.272 - Prescription drug resellers

Description Businesses registered with the Federal Drug Enforcement Administration and licensed by the Pharmacy Quality Assurance Commission that warehouse and resell prescription drugs receive a preferential B&O tax rate of 0.138 percent, rather than the general wholesaling tax rate of 0.484 percent.

Purpose To provide tax relief to firms that experience low profit margins and to encourage resellers of prescription drugs to relocate to Washington State.

82.04.280 - Rental of real estate

Description

In 1935 RCW 82.04.390 included the prohibition against taxing income from the rental of real estate. In 1959 RCW 82.04.280 was amended to subject the rental of real estate to B&O tax at a rate of 0.25 percent. The following year the State Supreme Court ruled the tax to be unconstitutional in *Apartment Operators Association of Seattle v. Schumacher*, 56 Wn. 2d 46 (1960). The Washington Supreme Court later questioned the validity of *Schumacher*, but never specifically overturned the holding. RCW 82.04.280 does not explicitly provide an exemption, but it does not include the activity in the list of those subject to tax.

Purpose

The Court held that the B&O tax on rental income constituted a tax on property. The State Constitution requires that property taxes be levied uniformly and the B&O tax, in addition to property taxes, would result in non-uniform taxation.

Taxpayer savings

(\$ in millions):

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |
|-------------|----------|----------|----------|----------|
| State Taxes | \$63.007 | \$64.000 | \$65.029 | \$66.088 |
| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Repeal of exemption

Taxing real estate rental income would directly challenge Washington Supreme Court precedent and likely lead to another court challenge. Based on subsequent decisions by the court, the court may overturn *Schumacher* leading to an increase in revenue, but it is just as likely for the court to uphold *Schumacher* leading to no increase in revenue.

Potential revenue gains from full repeal

(\$ in millions):

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |
|-------------|---------|---------|----------|----------|
| State Taxes | \$0.000 | \$7.627 | \$16.908 | \$25.774 |
| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions

- Residential real estate includes non-apartment dwellings and manufactured / mobile homes. The small business credit available for service activities will be greater than or equal to the tax due for the residential rental income for these taxpayers. No revenue will be gained by repealing the exemption on residential real estate, but many of these taxpayers may still be required to register with the Department.
- Commercial real estate includes buildings and dwellings that have not been defined as residential real estate, this includes apartment buildings. All revenue reflected in this estimate is associated with commercial real estate income.

82.04.280 - Rental of real estate

- Growth rate for revenue generated from repealing this exemption mirrors a combination of personal income growth from the Economic and Revenue Forecast Council's March 2019 forecast and the change in the number of multi-family, manufacturing, and commercial parcels in Washington State.
 - Significant litigation risk associated with this proposal which is reflected in the compliance rates.
 - Compliance:
 - 13 percent revenue collections in Fiscal Year 2020;
 - 26 percent revenue collections in Fiscal Year 2021;
 - 39 percent revenue collections in Fiscal Year 2022; and,
 - 52 percent revenue collections in Fiscal Year 2023 and thereafter.
 - 11 months of cash collections in Fiscal Year 2021 with July 1, 2020, effective date.

82.04.280(1)(f) - Radio and TV broadcasting

Description For B&O tax purposes, radio and television broadcasters may exclude revenues from network, national, and regional advertising computed using:

- A standard deduction that is published by the Department; or,
- An itemization calculation to exclude the portion of revenue representing their out-of-state audience.

Purpose The deduction reflects a perception that broadcasts which cross the state's boundaries and advertising income derived from outside the state may constitute interstate commerce.

82.04.290(1) - International investment management services

Description Qualifying businesses engaged in providing international investment management services (IIMS) are allowed a preferential B&O tax rate of 0.275 percent, compared with the general service rate of 1.5 percent.

A qualifying international investment management services business:

- Is primarily engaged in investment management services;
- Has at least ten percent of its gross income coming from providing investment management services to:
 - Collective investment funds commercially domiciled outside the U.S.; or,
 - Collective investment funds with at least ten percent of their investments located outside the U.S.
- Has more than 25 percent of its employees located in Washington;
- Is a member of an affiliated group having:
 - Ten or more offices located in at least eight foreign countries;
 - At least 500 full-time employees worldwide;
 - Worldwide gross revenue of more than \$400 million during the current or preceding calendar year; and,
 - Average assets under management of more than \$200 billion during the current or preceding calendar year.

Purpose To retain international investment management services within the state. Such firms could easily move to a location outside of Washington.

82.04.2905 - Child care

Description Firms engaged in providing child care receive a preferential B&O tax rate of 0.484 percent, compared with the general services tax rate of 1.5 percent.

Notes:

- Churches that provide child care for periods of less than 24 hours are exempt from B&O tax under RCW 82.04.339;
- The care of children up to the age of eight is exempt from B&O tax under RCW 82.04.4282; and,
- The impacts of these exemptions are in separate estimates.

Purpose Reduces the cost of child care for families and reduces the tax burden for an industry with low profit margins.

82.04.2906 - Chemical dependency treatment

Description Taxpayers who provide intensive in-patient or residential recovery treatment services for chemical dependency are subject to B&O tax at a rate of 0.484 percent, rather than the rate of 1.5 percent. The lower tax rate applies only to receipts from governmental sources. To qualify, the firm must be certified by the Department of Social and Health Services.

82.04.2908 - Assisted living facilities

Description Licensed assisted living facilities providing room and domiciliary care to residents receive a reduced B&O tax rate of 0.275 on business income. The standard service rate is 1.5 percent.

Domiciliary care means assistance with activities of daily living provided by the assisted living facility either directly or indirectly; or health support services, if provided directly or indirectly by the assisted living facility; or intermittent nursing services, if provided directly or indirectly by the assisted living facility.

Purpose Makes the taxation of assisted living facilities similar to the treatment of nursing homes.

82.04.310(3) - Natural gas surplus sales

Description Sales of natural or manufactured gas are exempt from B&O tax if the person sells within the United States a total amount of natural or manufactured gas that is no more than twenty percent of the amount of natural or manufactured gas they consumed within the United States within the same calendar year.

Purpose Allows large industrial users who are not in the business of selling natural gas to sell back unused gas without incurring B&O tax liability.

82.04.311 - Tobacco Settlement Authority

Description Income received by the Tobacco Settlement Authority (“Authority”) under chapter 43.340 RCW is exempt from B&O tax. The Authority has certain financing powers under chapter 43.340 RCW, including the issuance of bonds to pay for purchasing a portion of the amounts due to the state under the Master Settlement Agreement. The interest and gain on those bonds would otherwise be subject to B&O tax but for this exemption.

Purpose Recognizing that the Authority is a public instrumentality of the state and is not engaged in conducting an enterprise activity.

82.04.330 - Agricultural producers

Description Farmers who grow, raise, or produce agricultural products for sale at wholesale are exempt from B&O tax. Agricultural products, as defined in RCW 82.04.213, includes any product of plant cultivation or animal husbandry, plantation Christmas trees, animals, birds, insects and fish, as well as the products obtained from animals, such as eggs, milk and honey. It does not include marijuana, useable marijuana, or marijuana-infused products.

Purpose To aid an industry that was severely depressed in 1935 when the exemption was enacted. The exemption recognizes the low profit margins and high transportation costs faced by most farmers. Furthermore, farmers in Washington have little ability to affect the prices for their products which are determined by national markets, so they cannot pass on the tax to their customers.

- Assumptions**
- Apiarists who own or keep one or more bee colonies, and grow or produce honey products for wholesale, will register their hives with Washington State Department of Agriculture.
 - Fiscal Year 2018 apiarists reported over \$4 million gross revenues on the B&O Tax service line, of which over \$1 million was taxable.
 - Fiscal Year 2017 apiarists reported over \$3 million gross revenues on the B&O Tax service line, of which about \$965,000 was taxable.

82.04.337 - Hops processed and exported

Description The sale of hops that are processed into extract, pellets or powder in this state and then shipped outside the state for first use are exempt from B&O tax. Income received for processing or warehousing hops is not exempt from the tax.

Purpose Recognizes that processing of hops into extract, pellets or powder is merely to facilitate shipment of the product and eliminates it from manufacturing B&O tax.

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions

- In 2018, approximately 77.7 million pounds of hops were produced in Washington. There is consistent hop production per year, so no annual growth.
- Over 95 percent of hops are processed into extract or pellets.
- About 98 percent of processed hops are exported outside of Washington.
- Farm-gate value of Washington hops in 2018 was \$5.5 per pound.
- Value of processed hops is approximately 150 percent of farm gate value.
- Processed value of exported hops is about \$422.3 million per year.

82.04.340 - Boxing and wrestling matches

Description Income received from conducting boxing, kickboxing, martial arts or wrestling matches requiring a license from the Department of Licensing are exempt from B&O tax.

Purpose In 2009, the tax was changed to a fee. The fee is 6% of gross receipts and \$1 per ticket sale. The purpose of the exemption was to avoid double taxation; however, funds are deposited into the Business and Professions Account to cover the costs of licensing and regulating these professions.

82.04.350 - Horse racing

Description Persons who conduct horse racing events that are licensed by the State Horse Racing Commission are exempt from B&O tax, except for the special surtax attributable to RCW 82.04.286(1). The surtax, enacted in 2005, applies an additional B&O tax of 0.13 percent to the income derived from pari-mutuel wagering.

Purpose To exempt gross income from B&O tax that is already taxable under the pari-mutuel tax (RCW 67.16.105).

Taxpayer savings (\$ in millions):

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |
|-------------|---------|---------|---------|---------|
| State Taxes | D | D | D | D |
| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Repeal of exemption Repealing this exemption would increase revenues, although the income is also subject to pari-mutuel tax. Pari-mutuel wagering receipts are subject to both pari-mutuel tax and the 0.13 percent B&O surtax. They are not currently subject to the regular B&O tax under the service classification.

82.04.355 - Ride-sharing and special needs transportation

Description Public social service agencies, private nonprofit transportation providers, van pools and car pools that provide transportation services for commuters and persons with special transportation needs are from exempt B&O tax on income received.

Purpose Reduces motor vehicle fuel consumption and traffic congestion by promoting commuter ride sharing and supports certain organizations that provide group transportation services.

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions

- Income received in the course of commuter ride sharing or ride sharing for persons with special transportation needs would be subject to public utility tax under the motor or urban transportation classification absent the exemption in RCW 82.16.047.
- There is minimal, if any, taxpayer savings from this exemption.

82.04.360 - Income of employees

Description Employees and servants are exempt from the B&O tax for their income.

The exemption does not extend to corporate board directors, or to RCW 18.16 licensed cosmetologists, barbers, estheticians, and manicurists who pay a fee to use part of a salon, but do not receive compensation from the owner. They must pay B&O tax.

Purpose Provides a B&O tax exemption for those not engaged in business as independent contractors. Washington's Constitution does not allow a personal income tax. B&O tax applied to employee income may be considered a personal income tax.

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions

- Taxes are first imposed on compensation earned in July 2020.
- Employers must withhold wages and remit the tax to Department of Revenue; the Department receives quarterly payments, first due in October 2020.
- Firms must withhold wages for each taxpayer required to file.
- All wages earned by employees are subject to this tax.
- Small business tax credit applies, using the Service and Other Activities classifications; individuals with wages below the phase-out threshold are assumed to have no taxable wages, but are included in counts of those registering and filing.
- Compliance is 90 percent in the first year and 95 percent thereafter.
- Taxpayers using this preference are subject to the Higher Education Surcharge.

82.04.360(1) - Life insurance sales employees

Description Full-time life insurance sales agents are exempt from B&O tax on their income.

Purpose The federal government treats life insurance sales agents as independent contractors. Washington treats them as employees. Other employees are exempt from B&O tax, so this exemption treats life insurance agents the same as other employees.

82.04.363 - Nonprofit camps and conference centers

Description Nonprofit organizations are exempt from B&O tax on amounts received for providing certain items at a camp or conference center conducted on property that is exempt from property tax. This includes charges for:

- Camping and lodging facilities, the use of meeting rooms, parking;
- Furnishing food and meals;
- Books, tapes and other products available to participants of the camp or conference but not to the general public.

Purpose To reduce the cost of operating camps and conference centers.

82.04.3651 - Nonprofit organization fund-raising

Description Nonprofit organizations that do fund-raising activities are exempt from the B&O tax. Fund-raising activity is for the purpose of furthering the goals of the nonprofit organization, and includes:

- Soliciting or accepting contributions; and,
- Selling goods or services.

For purposes of this exemption, fund-raising does not include the operation of a regular place of business such as a bookstore, thrift shop or restaurant.

Purpose To support the activities of nonprofit organizations by reducing operating costs and provide a limited excise tax exemption for fund-raising activities.

Taxpayer savings (\$ in millions):

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Repeal of exemption Repealing this exemption would increase state revenues. Income received from fundraising activities would be subject to B&O tax.

Potential revenue gains from full repeal (\$ in millions):

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions

- Washington nonprofits reported over \$64.6 billion in total revenue in FY 2016.
- 21 percent of income came from contributions, gifts and government grants.
- Fundraising is assumed to be 25 percent of that income.
- Annual growth of 3 percent.

82.04.367 - Nonprofit student loan organizations

Description A B&O tax exemption is provided for the gross income of nonprofit organizations exempt from federal income tax under section 501(c)(3) of the internal revenue code that:

- Are guarantee agencies under the federal guaranteed student loan program;
- Issue debt for student loans; or,
- Provide guarantees for student loans.

Purpose Promotes the availability of student loans.

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions

- The Federal Family Education Loan (FFEL) Program was terminated; now all education assistance is provided directly by the federal government rather than through a nonprofit organization.
- Due to the restructuring of the federal government's education loan process, there will likely be no revenue impact for this statute.

82.04.370 - Fraternal insurance

Description Insurance premium income received by fraternal benefit societies and fraternal fire insurance associations is exempt from B&O tax. Fraternal societies pay death and disabilities benefits and insure property for their members. These premiums are also exempt from insurance premiums tax under RCW 48.36A.240.

Purpose To support the programs and activities of these organizations.

82.04.390 - Real estate sales

Description Proceeds from selling real estate are exempt from B&O tax. However, commissions, fees, interest and similar financial charges from selling real estate are subject to B&O taxes.

Purpose From the B&O tax's inception, sales of real estate have been exempt. Although the purpose is unclear, it could be because:

- The B&O tax was intended to tax only sales of tangible personal property and certain services; or,
- Exempting such sales would benefit the real estate industry, as such sales would be subject to real estate excise tax but not B&O tax (note sales of tangible personal property are subject to both retail sales tax and retailing B&O tax).

Taxpayer savings (\$ in millions):

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |
|-------------|-----------|-----------|-----------|-----------|
| State Taxes | \$350.367 | \$355.512 | \$360.021 | \$368.847 |
| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Repeal of exemption

Repealing this exemption would likely not increase revenues. In 1960, the Washington Supreme Court determined that taxing real estate rental income is unconstitutional. Although the Supreme Court has questioned the validity of this decision in later court decisions, the case is still good law. Applying the analysis of the decision to sale of real estate, it is likely the Washington Supreme Court would determine that taxing sales of real estate is unconstitutional as well. Barring the court overturning or distinguishing its precedent on the rental of real estate issue, it is likely repealing the exemption would not be upheld by the court.

Potential revenue gains from full repeal (\$ in millions):

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |
|-------------|---------|---------|---------|---------|

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions

- No revenue will be realized by repealing this exemption.
- Taxpayer savings grow at the same rate as real estate excise tax in Economic and Revenue Forecast Council's March 2019 forecast.
- Taxpayer count is the same as total yearly affidavits for real estate excise tax.

82.04.392 - Trust account amounts received by mortgage brokers

Description Amounts received by mortgage brokers from a borrower for paying third-party provided services are exempt from B&O tax.

Purpose Recognizes the funds passing-through to third parties are not income for the mortgage broker.

Taxpayer savings (\$ in millions):

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |
|-------------|---------|---------|---------|---------|

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Repeal of exemption Repealing this deduction could increase revenues; however, mortgage brokers may be able to qualify certain third-party costs as advances or reimbursements under WAC 458-20-111. Those amounts would not be subject to B&O tax.

Potential revenue gains from full repeal (\$ in millions):

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |
|-------------|---------|---------|---------|---------|

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions

- Buyers will use a mortgage broker for a home loan 15 percent of the time.
- Certain third-party fees would not qualify as pass-through (under WAC 458-20-111) and the broker would owe tax on those amounts.
- Eighty percent of the third-party fees paid by brokers qualify as pass-through (under WAC 458-20-111).
- July 1, 2020, effective date, with 11 months of collections in Fiscal Year 2021.

82.04.399 - Academic transcripts

Description Educational institutions are exempt from B&O tax on income from sales of academic transcripts.

Purpose Educational institutions which are considered departments and institutions of the state of Washington (e.g., The University of Washington) are not subject to B&O tax and would not be subject to sales of transcripts regardless of this exemption. Private institutions, however, would be subject to B&O tax on such sales. This exemption provides that all educational institutions, public or private, are exempt from B&O tax on amounts received for sales of transcripts, and thus levels playing field for public and private educational institutions with respect to these sales.

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions

- State would not pay B&O tax on income providing transcripts for students at public colleges and universities, is not a taxable "person" under RCW 82.04.030.
- Political subdivisions are potentially subject to business tax and thus public K-12 schools are assumed to be otherwise taxable for purposes of this estimate.
- 50% of college graduates order and pay for 5 transcripts @ \$10 each.
- 80% of high school students order 4 transcripts @ \$2 each.

82.04.405 - Credit unions - Federal chartered

Description Credit unions organized under federal law are exempt from B&O tax.

Purpose The Federal Credit Union Act prohibits state taxation of federally chartered credit unions. Accordingly, the exemption was established when the B&O tax was extended to financial institutions.

Taxpayer savings (\$ in millions):

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |
|-------------|---------|---------|---------|---------|
| State Taxes | \$3.184 | \$3.800 | \$3.901 | \$4.209 |
| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Repeal of exemption Repealing this exemption would not increase revenue because federal law prohibits state taxation of federal credit unions.

Potential revenue gains from full repeal (\$ in millions):

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |
|-------------|---------|---------|---------|---------|

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions

- No credit union meets the criteria to pay the additional 1.2 percent additional tax created in SHB 2167 during the 2019 Legislative session.
- Taxpayer savings includes the service and other activities B&O tax plus the higher education surcharge (E2SHB 2158 from the 2019 Legislative session).
- Included credit union taxpayer savings from loans since revenue is not included in the first mortgage deduction.
- Growth rate based on the compound annual growth rate for federally chartered credit union gross income from 2014 to 2018.

82.04.405 - Credit unions - State chartered

Description Credit unions organized pursuant to state law are exempt from B&O tax.

Purpose To provide comparable tax treatment with federally-chartered credit unions.

Taxpayer savings *(\$ in millions):*

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |
|-------------|----------|----------|----------|----------|

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Repeal of exemption Repealing this exemption would increase revenue, but state-chartered credit unions could simply apply for federal charters. There are benefits to being organized as a state-chartered credit union which might exceed the potential B&O tax liability.

Potential revenue gains from full repeal *(\$ in millions):*

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |
|-------------|---------|---------|---------|---------|

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions

- Based on the interest and non-interest revenue sources for credit unions, this estimate grows total revenues by 11.5 percent.
- Credit unions tax savings includes savings from the interest income on first mortgages and if this exemption was repealed, first mortgage interest income would become taxable.
- Tax rate for credit union savings and potential revenues is 1.5 percent service and other B&O rate plus the higher education surcharge.
- No credit unions would meet the criteria for additional financial institutions tax.
- If this exemption was repealed, large and medium sized credit unions would become federally chartered resulting in only 5 percent of the taxpayer savings becoming taxable.

Assumptions

- Baby chicks currently cost about 65 cents for a day-old chick; an 18-week old pullet costs about \$9. Washington farmers spent \$2.5 million on chicks and eggs.
- No hatcheries in Washington produce genetically improved chicks on a large scale basis for commercial producers. Most of Washington's commercial egg producers purchase their replacement chicks from out-of-state hatcheries that deliver the chicks to them.
- 20 percent purchased in state.
- No annual growth.

82.04.416 - 2nd Narrows bridge

Description Income from the operation of state route 16 corridor transportation systems and facilities constructed and operated under Chapter 47.46 RCW is exempt from B&O tax. This statute addresses the second bridge across the Tacoma Narrows. The state contracts with a private firm to operate the toll booths. The income the state pays the operator of the bridge tolling systems is exempt from B&O tax under this statute. The toll receipts are income of the state and not subject to state B&O tax.

Purpose Lower the overall cost of operation of the bridge and encourage a private firm to enter into a contract with the state to operate the facility.

82.04.419 - Local government business income

Description Counties, cities, towns, school districts and fire districts receive a B&O tax exemption.

Public utilities and enterprise activities do not receive a B&O tax exemption. Enterprise activities include activities financed and operated similar to a private business.

Purpose Excludes government activities, except utility and enterprise activities, from tax.

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions

- Certain types of county, city, town, school district, and fire district income is exempt under other statutes (for example: RCW 82.04.4281, RCW 82.04.4291, and RCW 82.04.4297).
- County, city, town and fire district growth rate is based on the Economic and Revenue Forecast Council's March 2019 forecast for taxable service and other activities B&O.
- Growth rate for school district income is based on ten year average growth rate of school district income.
- For business and occupation taxes, the income under this exemption would be classified as service and other income and the tax rate would be 1.5 percent.
- Taxpayers using this exemption would not be subject to the higher education surcharge.
- July 1, 2020, effective date, with 11 months of collections in Fiscal Year 2021.

82.04.4201 - Regional transit authority sales and leasebacks

Description Lease payments received under a sale and leaseback arrangement involving a regional transportation authority (RTA) are exempt from B&O tax.

Purpose This is a financing mechanism used by the RTA to acquire trains, buses, and transportation facilities. This exemption provides tax relief to the RTA.

Taxpayer savings (\$ in millions):

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |
|-------------|---------|---------|---------|---------|

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Repeal of exemption Repealing this exemption would not increase revenues. Internal Revenue Service changed its policy and no longer allows investors to write-off depreciation for federal taxes for sale and leaseback arrangements, so the RTA no longer uses this financing mechanism.

Potential revenue gains from full repeal (\$ in millions):

82.04.422(2) - Dealer trades of automobiles

Description New car dealers are exempt from the wholesaling B&O tax for wholesale sales of new vehicles to other new car dealers of the same make of vehicle.

Purpose Recognizes these sales are for the convenience of dealers to enable them to meet customer demand and do not represent profit for the seller.

Assumptions

- July 1, 2020, effective date, with 11 months of collections in Fiscal Year 2021.
- This estimate may be overstated as the repeal of the Dealer Trades deduction may result in additional taxpayers taking a deduction for "Accommodation Sales" (many of these transactions may qualify as both).

82.04.425 - Accommodation sales

Description Wholesale sales between businesses regularly selling the same type of property are exempt from the wholesaling B&O tax where the sale:

- Is at cost to a buyer with an existing order for the product from a customer; or,
- Occurs within 14 days as a reimbursement in-kind for a previous accommodation sale.

Additionally, sales by a wholly-owned subsidiary to its parent company are exempt from the wholesaling B&O tax when the parent:

- Sells the goods in a transaction that is exempt under RCW 82.08.0262; and,
- Pays the B&O tax.

Purpose Exempts wholesale sales made between businesses solely for the purpose of adjusting inventories in order to satisfy customer demand.

Taxpayer savings (\$ in millions):

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Repeal of exemption Repealing this exemption would increase revenues. However, it is likely that businesses will make fewer accommodation sales to other sellers if they are required to pay B&O tax on such sales.

Potential revenue gains from full repeal (\$ in millions):

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions

- 11 months of collections in fiscal year 2021.
- Growth rate assumed is average growth rate for the last five years.
- Data used only includes casual/accommodation sales deductions from businesses with motor vehicle dealer NAICS codes assigned; this could include amounts due to casual sales and could exclude accommodation sales from other industries.
- Estimate may be overstated as the repeal of the Accommodation Sales deduction may result in additional taxpayers taking a deduction for "Dealer Trades" (many of these transactions may qualify as both).

82.04.426 - Semiconductor microchip manufacturing after \$1 billion investment

Description Firms that semiconductor microchips are exempt from B&O tax on their manufacturing activity. The exemption is contingent on commencement of commercial operations by a new semiconductor material fabrication facility with an investment in new buildings and equipment amounting to at least \$1 billion.

To-date the investment criterion has not been met, and is unlikely to occur during the forecast period of this study. If the exemption does become effective, it will expire January 1, 2024.

82.04.4264 - Nonprofit assisted living facilities

Description Licensed nonprofit assisted living facilities licensed under chapter 18.20 RCW providing room and domiciliary care to residents are exempt from B&O tax on amounts received. A nonprofit assisted living facility is one operated as a religious or charitable organization, is exempt from federal income tax under 26 U.S.C. Sec. 501(c)(3), incorporated under chapter 24.03 RCW, operated as part of a nonprofit hospital, or is operated as part of a public hospital district.

"Domiciliary care" means assistance with activities of daily living provided by the assisted living facility either directly or indirectly; or health support services, if provided directly or indirectly by the assisted living facility; or intermittent nursing services, if provided directly or indirectly by the assisted living facility.

Purpose Reduces the tax liability of nonprofit assisted living facilities.

82.04.4266 - Fruit and vegetable manufacturing or processing

Description Businesses that manufacture or process fresh fruits or vegetables are exempt from the business and occupation (B&O) tax. Eligible activities include canning, preserving, freezing, processing or dehydrating of these agricultural products.

The exemption also applies to the activities of wholesaling products manufactured to a buyer that transports the products outside Washington.

"Fruits" and "vegetables" do not include marijuana, useable marijuana, or marijuana-infused products.

The exemption require an annual survey with the department.

The exemption currently expires on July 1, 2025, at which time these activities will be taxable at a rate of 0.138 percent.

Purpose To assist agriculture.

Taxpayer savings (\$ in millions):

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |
|-------------|----------|----------|----------|----------|
| State Taxes | \$17.300 | \$17.300 | \$17.300 | \$17.300 |
| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Repeal of exemption Repealing this exemption would increase revenues.

Potential revenue gains from full repeal (\$ in millions):

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |
|-------------|---------|----------|----------|----------|
| State Taxes | \$0.000 | \$15.800 | \$17.300 | \$17.300 |
| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions

- When the incentive expires, the amount of B&O tax due to be collected at 0.138 percent from manufacturing fresh fruits and vegetables will be minimal because manufacturers are allowed to apply the multiple activities tax credit (MATC) against wholesaling (0.484 percent) and retailing (0.471 percent).
- Revenue impact includes the amount from the exempt wholesale B&O when manufactured goods are sold to a buyer who transports the goods out-of-state.
- July 1, 2020, effective date, with 11 months of collections in Fiscal Year 2021.
- No growth factor assumed because the amounts of tax savings in recent past have been consistent.

82.04.4272 - Direct mail delivery charges

Description Sellers may deduct delivery charges made for direct mailings from the B&O tax, provided the purchaser billing lists the charges separately. Direct mail refers to printed material delivered without charge to a mass audience or to a mailing list provided by the purchaser.

Purpose To clarify the taxation of delivery charges for direct mail costs (e.g., postage).

82.04.4274 - Nonprofit property management

Description A B&O deduction is permitted for amounts that:

- A nonprofit property management company receives for compensating on-site employees from the owner of property;
- A property management company receives for compensating on-site employees from a housing authority; or,
- A property management company receives for compensating on-site employees from a limited liability company or limited partnership of which the sole managing member or sole general partner is a housing authority.

Purpose To treat these amounts as a tax-exempt pass-through. The management company supervises the on-site personnel, but the wages are ultimately the obligation of the owner.

82.04.4281(1)(a) - Investments by nonfinancial firms

Description Businesses qualify for a B&O deduction for investment income provided they are not engaged in banking, lending or security businesses.

Purpose Recognizes that investment income for nonfinancial businesses does not constitute business income.

Taxpayer savings (\$ in millions):

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |
|-------------|-----------|-----------|-----------|-----------|
| State Taxes | \$269.900 | \$298.400 | \$300.100 | \$311.600 |
| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Repeal of exemption Repealing this exemption would increase revenues; however, most investment income could move out of Washington. Also, locating all taxpayers with taxable income may be difficult.

Potential revenue gains from full repeal

(\$ in millions):

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |
|-------------|---------|-----------|-----------|-----------|
| State Taxes | \$0.000 | \$246.100 | \$285.100 | \$296.100 |
| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions

- Non-financial businesses include estates, trusts, non-profits, and businesses not engaged in banking, lending or securities.
- The investment income of individuals would be taxed in Washington even if a person created a business outside of Washington to manage the investment income.
- Investment income includes interest, dividends, and net capital gains.
- Non-financial businesses, trusts, and non-profits owing tax of \$10,000 or more on investment income will restructure immediately to manage investment income outside of Washington and recoup the cost of restructuring within three years.
- Estates cannot restructure to manage investment income outside of Washington.
- Estates, trusts, and non-profits owing tax on investment income will utilize the small business credit to reduce the tax they owe. Non-financial businesses eligible for the small business credit use the credit against income taxable under current law.
- Interest income and dividend income grow at the national rate of growth for these types of income as forecasted by the Global Insights Division of IHS, Inc.
- Capital gains income grows at the rate used in the capital gains model - either 2.4 percent or a formula based on growth in the 10-year average for equities.

82.04.4281(1)(a) - Investments by nonfinancial firms

- Washington's portion of national investment income by industry approximates the percentage of employment in Washington in that industry versus the industry's national employment.
 - The Department of Revenue can easily notify non-financial firms, non-profits, estates, and trusts of the removal of this deduction.
 - The Higher Education Surcharge is applied, using the effective rate across all NAICS codes.
 - Non-financial firms are not subject to the additional B&O tax on specified financial institutions (SHB 2167 of 2019).
 - Compliance: 90 percent in Year 1; 95 percent thereafter.

82.04.4281(1)(b,c) - Investment of businesses in related entities

Description Taxpayers qualify for a B&O tax deduction for amounts derived as dividends or distributions from the capital account by a parent entity from its subsidiaries.

Taxpayers also qualify for a B&O tax deduction on amounts derived on loans between a subsidiary and a parent or subsidiaries of a common parent if the total investment and loan income is less than five percent of the business' gross income.

Purpose Encourages capital investment in Washington and provides equal treatment to similarly situated taxpayers.

- Assumptions**
- July 1, 2020, effective date, with 11 months of collections in Fiscal Year 2021.
 - Only fees and dues paid in which no goods or services received, are included.
 - Labor unions report all membership dues and initiation fees to the U.S. Department of Labor.
 - Entities whose primary business activity is retailing will report membership dues and initiation fees under retailing B&O tax and collect retail sales tax.
 - Growth rate will mirror the B&O and Retail Sales tax growth rate reflected in the March 2019 economic forecast.
 - A medium compliance factor is used because there would be both in state and out-of-state taxpayers that would be new to our system. Identifying those taxpayers through enforcement activities is likely to take several years.
 - Compliance assumptions for businesses not currently registered and/or reporting:
 - 50 percent revenue collections in Fiscal Year 2017;
 - 60 percent revenue collections in Fiscal Year 2018;
 - 70 percent revenue collections in Fiscal Year 2019; and,
 - 80 percent revenue collections in Fiscal Year 2020 and thereafter.
 - This proposal does not affect:

82.04.4283 - Cash discounts

Description Businesses may take a B&O tax deduction for cash discounts taken by purchasers as long as the discount taken was included in the amount of gross revenue reported by the seller.

Purpose Recognize that cash discounts allowed do not represent income to the seller.

Taxpayer savings (\$ in millions):

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |
|-------------|---------|---------|---------|---------|
| State Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions

- Although taxpayers who use accrual-based accounting report this deduction and thus, experience savings, the state would not achieve revenue gains if the deduction is repealed. Taxpayers using cash basis accounting do not need to use the deduction; they report the actual amount received at the time of sale.
- Taxpayers who use accrual-based accounting would likely switch to cash basis accounting if the deduction is repealed.

82.04.4284 - Bad debts

Description Businesses may deduct bad debts from B&O tax.

Bad debts do not include:

- Property that remains with the seller until the full price is paid;
- Debt collection expenses;
- Sales or use tax paid to a seller; or,
- Repossessed property.

Purpose Provides equal treatment to taxpayers using cash basis accounting and accrual basis accounting.

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions

- There will be no immediate or significant shift from accrual based accounting to cash based accounting.
- July 1, 2020, effective date, with 11 months of collections in Fiscal Year 2021.
- The higher education surcharge applies to some of the taxpayers taking this deduction from service and other activities B&O tax.

82.04.4285 - Motor fuel taxes

Description Motor vehicle fuel wholesalers and retailers may deduct from their B&O tax the amount of state and federal taxes included in the sales price of fuel. These taxes are imposed on distributors and passed on to consumers in the retail price.

The state levies a tax of 49.4 cents per gallon of fuel. The federal government imposes a tax of 18.4 cents per gallon on gasoline and 24.4 cents per gallon on diesel.

Purpose To eliminate double taxation.

82.04.4286 - Constitutional deductions

Description Taxpayers may deduct amounts the state cannot tax under Washington’s Constitution or the U.S. Constitution. For example Washington cannot tax:

- Sales of firms delivering to other states (including imported goods);
- Sales of firms without nexus in Washington;
- Exported products of retailers and wholesalers; or,
- Indian tribes’ or tribal members’ business activities in Indian country;

Purpose Avoids violating state and federal laws.

82.04.4292 - Interest on real estate loans

Description Banking, lending, security and other financial businesses located in ten states or less may deduct interest income earned on loans primarily secured by first mortgages or trust deeds on non-transient residential properties.

Interest includes the portion of fees charged to borrowers, including points and loan origination fees, recognized over the life of the loan as an adjustment in the taxpayer's accounting records according to generally accepted accounting principles.

Purpose Reduces the cost of purchasing a home in Washington relative to other states.

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions

- Certain banks make mortgage loans, but do not report detailed deduction data related to the first mortgage interest deduction (usually because they apportion their income between states). These banks use the deduction at the same rate as banks reporting the deduction detail.
- The ratio between the banks interest income from government obligations and from the first mortgage interest income reported to the Federal Financial Institutions Examination Council approximates the relationship between the deduction for government obligations and the deduction for first mortgages reported in Washington.
- Interest income growth mimics the growth in service and other activities as forecasted by the Economic and Revenue Forecast Council in the March 2019 forecast.
- Financial institutions deducting interest income earned on loans primarily secured by first mortgages deduct this income from the service and other activities B&O tax and the higher education surcharge (E2SHB 2158 from the 2019 Legislative session).

82.04.4292 - Interest on real estate loans

- Certain financial institutions deducting interest income earned on loans primarily secured by first mortgages deduct this income from the additional 1.2 percent additional tax (SHB 2167 during the 2019 Legislative session).
 - July 1, 2020, effective date, with 11 months of collections in Fiscal Year 2021.

82.04.4294 - Interest on agricultural loans

Description From B&O taxable amounts, qualifying banks may deduct interest income on loans made to:

- Farmers;
- Ranchers;
- Aquatic product producers/harvesters; or,
- Their cooperatives.

Qualifying banks must be owned exclusively by its members or borrowers and only make loans or provide financial-related services to:

- Farmers;
- Ranchers;
- Aquatic product producers/harvesters;
- Their cooperatives;
- Rural residents for housing; or,
- People furnishing farm-related or aquatic-related services to these individuals or entities.

Purpose Reduce the cost of loans supporting the agricultural industry.

Assumptions

- Qualifying banks with loans in Washington totaling more than \$57,000 to farmers, ranchers, aquatic product producers/harvesters or their cooperatives would have nexus and owe tax.
- Growth in the producer price index fluctuates greatly in the short term; long term the forecasted growth is minimal. Interest income from qualifying loans will not grow.
- Interest on real estate loans made by qualifying banks would be exempt under RCW 82.04.4292 when the bank has branches or employees in ten or less states.
- July 1, 2020, effective date, with 11 months of collections in Fiscal Year 2021.

82.04.4295 - Minor final assembly completed in Washington

Description The value of a product initially manufactured outside the state may be deducted from the gross amount reported under the manufacturing B&O tax, by manufacturers in Washington, when the following criteria are met:

- Any additional processing in this state consist of minor final assembly;
- Minor final assembly does not exceed two percent of the sales value; and,
- The product is sold and shipped outside of Washington.

The amount of the deduction is equal to the value of the product prior to being brought into Washington.

Purpose Stimulates trade and imports of products through Washington ports.

82.04.4296 - Funeral home reimbursement

Description Funeral homes may claim a B&O deduction for amounts received as a reimbursement for expenditures made by the funeral home as an accommodation to persons paying for a funeral. The expenditures must be:

- For goods and services provided by a person not affiliated or associated with the funeral home;
- Billed to the person paying for the funeral at the cost charged to the funeral home; and,
- Itemized separately on the billing statement.

Purpose To reduce the cost of funerals and simplify the billing of various components of funerals.

82.04.4297 - Nonprofit organization government grants

Description Nonprofit organizations or local government entities may take a B&O tax deduction for amounts received by health or social welfare organizations as compensation from federal, state or local governments for the support of health or social welfare programs. Examples of programs covered by the deduction include:

- Health care;
- Family and drug counseling;
- Services for the sick, elderly and handicapped;
- Day care;
- Vocational training and employment services;
- Legal services for the indigent; and,
- Services for low-income homeowners or renters.

Medicare and Medicaid receipts of nonprofit and public hospitals are also deductible.

Purpose To provide government with greater purchasing power when government provides financial support for the provision of health or social welfare services.

Assumptions

- Washington nonprofits reported almost \$64.6 billion in total revenue in Fiscal Year 2016.
- Nationwide, 21 percent of income came from contributions, gifts and government grants.
- Government grants are assumed to be half of these sources, or 11.5 percent.
- 3 percent growth per year.

82.04.4311 - Medicare payments to public and nonprofit hospitals

Description Public and nonprofit hospitals and community health centers receive a B&O tax deduction for health care services received from the federal Medicare program, state health programs under Chapter 74.09 RCW, or the state's basic health program under Chapter 70.47. The deduction applies whether the revenues are received directly from these programs or through managed health care organizations. The deduction is limited to payments from these governmental programs and does not extend to patient copayments or deductibles.

Purpose To recognize that the provision of health services to people who receive federal or state subsidized health benefits by reason of age, disability or income level is a necessary and vital governmental function.

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions

- Tax base (revenue from government programs) growth of 11.6 percent a year.
- 95 percent of government payments to hospitals are to public/non-profit hospitals.
- 80 percent of government payments to hospitals are through managed care.
- Community health centers receive 81 percent of revenue from government.
- Without this preference, the revenues above would be taxed at 1.5 percent.

82.04.432 - Municipal sewer service payments

Description City sewer utilities may deduct payments to other cities or other governmental agencies for interception, treatment or disposal of sewerage from income subject to B&O tax.

Purpose Collection of sewage is taxable under the state public utility tax. Interception, treatment and disposal of sewerage are subject to the state B&O tax under the service and other activities classification. This deduction eliminates pyramiding of the tax when multiple utilities provide sewage services. Because of the deduction provided by RCW 82.04.4291 (charges for services between political subdivisions of the state), this income is not subject to tax.

82.04.433 - Fuel used in commercial vessels

Description Businesses selling fuel to commercial vessels may take a B&O tax deduction for sales of fuel for consumption outside of U.S. territorial waters by vessels used primarily in foreign commerce. This fuel is commonly referred to as bunker fuel. This deduction applies only to B&O taxes on wholesaling and retailing activities, not to manufacturing activities.

Purpose Treats income from marine fuel sales delivered in Washington for use in vessels conducting foreign commerce the same as income from sales of goods delivered out-of-state, and keeps marine fuel sellers from moving out of Washington.

82.04.43391 - Commercial aircraft loan interest and fees

Description This preference provides a business and occupation tax deduction to out-of-state financial institutions when they make loans to a Washington-based commercial airlines, who use the loan to purchase commercial airplanes. The out-of-state lenders may deduct business and occupational tax on the interest and fees they earn from the loans they provide from the measure of tax. The deduction authorized under this section is not available to any person who is physically present in this state.

Purpose To ensure the economic nexus provisions of 2010 legislation do not inadvertently apply to this activity and to retain the previous tax exempt provisions of such interest and loan fees.

Taxpayer savings (\$ in millions):

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions

- 50% of the funds loaned to the Washington-based air carrier is supplied by large "specified" taxpayers who are subject to the additional 1.2 percent business and occupation tax under SHB 2167, which will become effective on January 1, 2020.
- The carrier may purchase additional airplanes in the future; assuming new loan will be offset by retiring the old loan, loan interest earning stays relatively stable.

82.04.43392 - Dispute resolution services

Description A qualified dispute resolution center may take a B&O tax deduction for amounts received as a contribution from federal, state, or local governments and nonprofit organizations for providing dispute resolution services. Nonprofit organizations may also take this deduction for amounts received from federal, state, or local governments for distribution to a qualified dispute resolution center.

Purpose To provide relief to taxpayers using governmental or nonprofit funding to engage in dispute resolution services.

82.04.43393 - Paymaster services for affiliates

Description Employers providing paymaster services to an affiliate may deduct from B&O tax amounts received to cover employee costs for a qualified employee. Employee costs from a contractual obligation to provide services do not qualify for the deduction. A qualified employee is an employee with whom the affiliate has a functional employment relationship.

Purpose Ensures affiliated businesses do not incur additional tax burden when streamlining the payroll process.

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions

- Certain paymasters would restructure and use the PEO exemption (RCW 82.04.540(2)) or WAC 458-20-111. This estimate assumes 1 out of 3 paymasters restructure before July 1, 2020 and use the PEO exemption or WAC 458-20-111.
- All paymasters report on the combined excise tax return and use a deduction to report employee costs.
- Employee costs will grow at the same rate as wages forecasted by the Economic and Revenue Forecast Council.
- Taxpayers using this preference are subject to the Higher Education Surcharge.
- July 1, 2020, effective date, with 11 months of collections in Fiscal Year 2021.

82.04.4461 - Aerospace pre-production expenditures

Description Businesses engaged in aerospace product development are eligible for a B&O tax credit equal to 1.5 percent of qualified expenditures. Qualified expenditures include research, design and engineering costs incurred in the development of aerospace products but do not include actual production-related costs. Commercial airplane and component manufacturers are eligible for the credit on expenditures incurred after December 1, 2003. Other persons are eligible for the credit on expenditures incurred after June 30, 2008. This credit expires July 1, 2040.

A person reporting under the tax rate must file a complete annual tax performance report with the department.

Purpose To create jobs and promote the presence of the aerospace industry in Washington.

82.04.4463 - Commercial airplane manufacturing - Credit for taxes paid

Description Manufacturers of commercial airplanes or commercial airplane components qualify for a B&O tax credit for state and local property taxes paid on land and buildings constructed after December 1, 2003, used exclusively to manufacture commercial airplanes or components. The credit is also available for leasehold excise taxes paid on land and buildings constructed after January 1, 2006, used exclusively for the same purposes.

Eligible property taxes include taxes paid on:

- New structures and the land beneath them;
- Increased value due to facility renovation or expansion; and,
- Manufacturing machinery and equipment.

Manufacturers of tooling specifically designed for use in manufacturing commercial airplanes, persons providing aerospace product development, and persons providing aerospace services qualify for a B&O tax credit for state and local property or leasehold excise taxes paid on land and buildings constructed after June 30, 2008.

Eligible property taxes include taxes paid on:

- New structures and the land beneath them;
- Increased value due to facility renovation or expansion;
- Manufacturing machinery and equipment; and,
- Computer hardware, peripherals and software.

This credit expires July 1, 2040.

A person reporting under the tax rate must file a complete annual tax performance report with the department.

Purpose Encourages a new assembly plant for a super-efficient aircraft to locate in Washington.

82.04.447 - Natural gas sold to direct service industry (DSI)

Description Direct Service Industry (DSI) customers (persons who purchase electric power directly from the Bonneville Power Administration) may take a B&O tax credit for the amount of public utility tax due on purchases of natural or manufactured gas used to generate electric power consumed by the DSI customer at its own gas turbine electrical generation facility. The tax credit may be used for 60 months following the first qualifying gas purchase and the DSI customer must maintain its existing level of employment to take the credit.

Purpose To encourage DSI customers to continue manufacturing in Washington by constructing their own natural gas powered turbines after their BPA power contracts expire.

82.04.448 - Semiconductor materials manufacturing after \$1 billion investment - New jobs credit

Description Businesses may take a credit of \$3,000 for each new manufacturing job created in new structures that manufacture semiconductor materials. Businesses may take the credit in the calendar year the position is filled and up to eight consecutive years if the position is maintained. The credit is contingent on commencement of commercial operations by a new semiconductor materials fabrication facility with an investment in new buildings and equipment amounting to at least \$1 billion.

To date, the investment criterion has not been met and is unlikely to occur during the forecast period of this study. If the credit were to become effective, it would expire January 1, 2024.

Purpose To retain and attract semiconductor firms in Washington.

82.04.4482 - Aluminum smelter purchases of electricity or natural gas

Description Businesses selling electricity, natural gas, or manufactured gas are exempt from B&O tax on sales made to an aluminum smelter when the contract requires the seller to pass the tax savings on to the buyer in the form of reduced power prices. The seller takes the exemption in the form of a tax credit. Because most sellers of power are subject to public utility tax and not B&O, this tax incentive applies principally to sellers of brokered natural gas

Purpose Preserve family-wage jobs in rural communities where unemployment rates are high, and sustain the aluminum industry.

82.04.4486 - Tax paid on carbonated beverage syrup

Description Persons that pay the syrup tax when buying carbonated beverage syrup may claim a B&O tax credit if the person:

- Uses the syrup to make carbonated drinks; or,
- Sells the carbonated drinks.

The carbonated beverage syrup tax is \$1.00 per gallon. The tax applies to syrup used in producing carbonated beverages that are not trademarked canned or bottled beverages.

82.04.4496(1) - Alternative fuel commercial vehicle tax credit

Description

A credit is allowed against either B&O tax or PUT for the purchase or lease of new or qualifying used commercial vehicles powered by a clean alternative fuel, or the conversion of vehicles to be powered by a clean alternative fuel.

The credit is equal to 75 percent of the incremental cost amount, which is the difference in price between the qualified vehicle's purchase price and a comparable conventionally-fueled vehicle, or the maximum credit amount for that vehicle, whichever is smaller. For leased vehicles, the credit is equal to fifty percent of the incremental cost amount multiplied by a lease reduction factor. For converted vehicles, the credit is \$25,000 or 50 percent of the conversion costs, whichever is smaller. The maximum credit amount per vehicle is \$25,000, \$50,000, or \$100,000, depending on the gross weight of the vehicle.

"Qualifying used commercial vehicle" means a vehicle with an odometer reading of less than 450,000 miles; is less than ten years past the original manufacturing date; is modified after the initial purchase with a United States environmental protection agency certified conversion that would allow the propulsion units to be principally powered by a clean alternative fuel; is being sold for the first time after modification. Only vehicles used for commercial services or to transport commodities, merchandise, produce, refuse, freight, animals, or passengers and display a Washington State license plate qualify for the credit. All commercial vehicles that provide transportation to passengers must be operated by an auto transportation company. The definition of auto transportation company is amended to include private, nonprofit transportation providers, charter party carriers, and paratransit service providers who primarily provide special needs transportation to individuals with disabilities and the elderly.

A credit is allowed for up to 50 percent of the cost to purchase alternative fuel vehicle infrastructure which includes tangible personal property that will become a component and installation and construction of alternative fuel vehicle infrastructure. The credit for infrastructure is limited to \$2 million dollars annually.

On September 1 of each year, any unused credits from any category must be made available to applicants applying for credits under any other category, subject to the maximum annual credit of \$6 million dollars. The maximum total credit taken since July 15, 2015, cannot exceed \$32.5 million.

Purpose

Alternative fuel commercial vehicles cost more than comparable conventional fuel vehicles. The credit provides businesses an incentive to purchase alternative fuel commercial vehicles or convert conventional fuel vehicles to be powered by cleaner alternative fuels, as well as install alternative fuel infrastructure which is in line with the state's climate and environmental goals.

82.04.4498 - Hiring veterans

Description This preference provides employers a B&O tax credit for hiring unemployed veterans. No business may claim a credit against both B&O tax and PUT for the same employee.

The credit equals 20 percent of wages and benefits paid up to a maximum of \$1,500 for each qualified employee hired on or after October 1, 2016. No credit may be claimed until a qualified employee has been employed for at least two consecutive full calendar quarters.

The total statewide credit cap is \$500,000 per fiscal year. Credits can be earned through June 30, 2022. No credits can be claimed after June 30, 2023.

Purpose Encourage businesses to hire veterans.

|-------------|---------|---------|---------|---------|
| State Taxes | \$0.163 | \$0.252 | \$0.390 | \$0.083 |
| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Repeal of exemption Repealing this exemption would increase revenues.

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

- Assumptions**
- Taxpayers continue to learn about the credit and this increase the credit approved by 38 percent each year through Fiscal Year 2022.
 - Taxpayers continue to take approximately 55 percent more credit each year through Fiscal Year 2022 and take the remaining credit in Fiscal Year 2023.

82.04.540(2) - Professional employer organization wages

Description A professional employer organization (PEO) may deduct the actual cost of wages and salaries, benefits, workers' compensation, payroll taxes, withholding, and similar items paid to or on behalf of certain employees who are co-employed by the PEO and a client of the PEO.

Purpose Excludes pass-through payroll expenses from B&O tax.

Taxpayer savings (\$ in millions):

|-------------|---------|---------|---------|---------|
| State Taxes | \$0.549 | \$0.564 | \$0.579 | \$0.595 |
| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Repeal of exemption Repealing this deduction could increase revenues; however, if the PEO can show wages and benefits are advances or reimbursements under WAC 458-20-111 then those amounts would not be subject to B&O tax.

Potential revenue gains from full repeal (\$ in millions):

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions

- Deduction notes on excise tax returns referencing employee costs, wages, pass-through, or PEOs actually mean the taxpayer intends to take the PEO deduction.
- Certain types of PEOs would restructure and use the paymaster deduction (RCW 82.04.43393) or WAC 458-20-111. This estimate assumes 2 out of 3 PEOs restructure and use the paymaster deduction or WAC 458-20-111.
- Taxpayers using this preference are not subject to the Higher Education Surcharge.
- July 1, 2020, effective date, with 11 months of collections in Fiscal Year 2021.

82.04.545 - Electricity or gas sold to silicon smelters

Description Persons subject to B&O tax are eligible to take a credit against the tax on the gross income from sales of electricity, natural gas or manufactured gas made to a silicon smelter. The credit is equal to the gross income from the sale multiplied by the corresponding tax rate in effect at the time of the sale. The person taking the credit must specify in the contract of sale of electricity or gas to the silicon smelter that the price charged will be reduced by the credit amount. Resale or remarketing of the electricity or gas originally obtained by contract for the smelting process is not eligible for the credit. The Department must provide a separate tax reporting line for the B&O tax credit.

This tax preference expires on July 1, 2027. If smelters do not meet the employment requirements, the tax preference will expire on January 1, 2024.

Purpose To promote the manufacturing of silicon for use in production of photovoltaic cells for solar energy systems.

82.04.610 - Interstate commerce - Import and export shipments

Description The sale of tangible personal property in import commerce does not receive an exemption from B&O tax. An exception is provided for wholesale sales of personal property in import commerce when:

- The wholesale sale is of unroasted coffee beans; or,
- The wholesale sale is between a parent company and a wholly-owned subsidiary.

The sale of tangible personal property in export commerce receives an exemption from B&O tax. The export exemption applies to items the seller delivers to a:

- Buyer in a foreign country;
- Carrier consigned to transport the item to a foreign country;
- Buyer at shipside if it is clear that the export process has commenced; or,
- Buyer in this state if the seller files an export declaration and the buyer immediately transports the item to a foreign country (except for motor vehicles).

Purpose Codifies the Department's interpretation of imports and exports in the stream of commerce, as reflected in WAC 458-20-193C.

Taxpayer savings (\$ in millions):

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |
|-------------|----------|----------|----------|----------|
| State Taxes | \$29.224 | \$38.269 | \$47.932 | \$58.033 |
| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Repeal of exemption Repealing this exemption would increase revenues. However, a repeal of this exemption and WAC 458-20-193C would likely result in litigation.

Potential revenue gains from full repeal (\$ in millions):

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |
|-------------|---------|----------|----------|----------|
| State Taxes | \$0.000 | \$16.831 | \$29.681 | \$41.583 |
| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions

- Wholesalers in selected NAICS codes that have a greater chance of exporting were selected as a proxy for this analysis.
- Selected NAICS includes wholesalers of lumber products, and fish or seafood.
- Census data was used to estimate the exempted importing activity.
- Due to the volatility found from year to year, this estimate assumes three percent growth into the future.
- This estimate assumes taxpayers, when able, will move their delivery destination to keep their products in the federal stream of commerce. Therefore a low level of compliance is assumed.

82.04.610 - Interstate commerce - Import and export shipments

- Compliance:
 - 13 percent revenue collections in Fiscal Year 2021;
 - 26 percent revenue collections in Fiscal Year 2022;
 - 39 percent revenue collections in Fiscal Year 2023; and,
 - 52 percent revenue collections in Fiscal Year 2024 and thereafter.
 - An effective date of July 1, 2020, results in 11 months of cash collections for Fiscal Year 2021.

82.04.615 - Public development authorities

Description Public corporations, commissions and authorities receive an exemption from B&O tax for income from services provided to:

- Limited liability companies in which the public entity is the managing member;
- Limited partnerships in which the public entity is the general partner; or,
- Single-asset entities required by a federal, state or local housing assistance program which is directly or indirectly controlled by the public entity.

Purpose Assists housing authorities that receive federal grants for low-income housing.

82.04.620 - Prescription drug administration

Description Physicians or clinics may deduct amounts received for the infusion or injection of drugs for human use pursuant to a prescription from the B&O tax. The deduction may not exceed the current federal reimbursement rate under Medicare. The injection must be covered or required under a health care program subsidized by the federal or state government.

Purpose To improve patient care by encouraging physicians to administer drugs in their own facilities, rather than referring their patients to a hospital where the wait time and cost of care may be greater.

82.04.627 - Commercial airplane parts

Description The sale of parts to the manufacturer of a commercial airplane is deemed to take place at the site of final testing or inspection under federal aviation regulation part 21 subpart F or G.

The practical effect of this statute is that parts sold by Washington sellers for delivery to out of state locales are exempt from the state B&O tax so long as these criteria are met.

82.04.635 - Legal services to low-income persons

Description Income received by nonprofit organizations for providing legal services to low-income persons is exempt from B&O tax. The nonprofit must primarily be engaged in the provision of legal services to low-income individuals. Nonprofits are persons exempt from federal income tax under Title 26 U.S.C. Sec. 501(c) of the federal internal revenue code.

Purpose Testimony on this exemption indicates funding levels had decreased and the exemption would allow nonprofits to increase their level of service with little impact to state funds in light of increasing demand for services

82.62.030; 82.62.045 - Rural county and Community Empowerment Zone (CEZ) new jobs

Description A B&O tax credit is available for each new employment position created by a business located in a rural county engaged in the following activities:

- Manufacturing;
- Computer-related programming and services performed by a manufacturer;
- Research and development; or,
- Commercial testing laboratories.

A rural county has an average population density of fewer than 100 persons per square mile or is smaller than 225 square miles. The credit is equal to:

- \$2,000 for each new qualified employment position with wages and benefits below \$40,000; or,
- \$4,000 for each new qualified employment position with wages and benefits above \$40,000.

The total statewide credit cap is \$7.5 million per fiscal year.

82.70.020 - Commute trip reduction credit

Description Employers who provide financial incentives for their own or other employees to participate in commute trip reduction programs may take a credit against B&O or public utility tax. The credit for an employer is:

- Equal to one-half of the employer's expenditure;
- Limited to \$60 per employee per year; and,
- Limited to \$100,000 each fiscal year.

The program has an annual cap of \$2.75 million for both B&O and public utility tax credits, and currently expires January 1, 2024. No person may claim tax credits after June 30, 2024.

Purpose An incentive for employers to make financial incentives available to their employees to encourage car-pooling and reduction of air pollution, traffic congestion, and fuel consumption.

82.12.022(4) - Natural gas subject to public utility tax

Description Gas is not subject to the brokered natural gas use tax if the seller previously paid public utility tax with respect to the same gas.

Purpose This exemption eliminates double taxation of the same fuel. Gas purchased via brokers is generally not subject to public utility tax, and is the reason that the brokered natural gas tax is in place.

82.12.022(8) - Taxes paid in other states for natural gas

Description There is a credit against the natural gas use tax equal to any tax paid by:

- The seller, if the tax paid by the seller to another state is similar to Washington's public utility tax; or
- The consumer, if the tax paid by the consumer to another state is similar to Washington's natural gas use tax.

82.12.024 - Deferral for direct service industries (DSIs)

Description This statute allows a deferral of brokered natural gas tax for a direct service industry firm (DSI's) that constructs a new power plant. DSIs are firms that purchase power directly from the Bonneville Power Administration. The amount of deferred brokered natural gas use tax is not repaid if the firm continues production and their employment levels do not drop below base period levels.

Purpose To encourage direct service industry firms to continue manufacturing in Washington after existing power contracts with Bonneville Power Administration expire by building their own natural gas powered electric generating facilities.

Cigarette, Tobacco and Vapor Products

43.06.510, 43.06.515 - Vapor products covered by tribal contracts

Description RCW 43.06.450 authorizes the governor to enter into contracts with Indian tribes concerning the sale of vapor products. The state vapor products tax does not apply to vapor products sold by an Indian retailer during the effective period of a vapor products tax contract.

Purpose To provide a means to promote economic development, provide needed revenues for tribal governments, and enhance enforcement of the state's vapor products tax.

82.24.260(1)(b); 82.24.290 - Cigarettes for military personnel

Description The cigarette tax does not apply to cigarettes sold to branches of the U.S. armed forces at exchanges, commissaries or ships stores or to sales by authorized purchasers at these facilities. Also exempt are sales to and by the U.S. Veterans Administration.

Purpose Federal legislation, the Buck Act (4 U.S.C. § 107), implicitly prohibits states from imposing a cigarette tax upon members of the military and their dependents

82.24.260(1)(c) - Cigarette allotment for Tribes

Description Certain quantities of untaxed cigarettes are allowed tax-free for consumption by tribal members on the reservations in Washington. The number of untaxed cigarettes is based on the number of enrolled tribal members living on the reservation and the national average per capita consumption rate. Note: the application of cigarette allotments has largely been replaced by contracts between the state and most Indian tribes regarding the regulation and taxation of cigarettes sold in Indian country.

Purpose The U. S. Supreme Court has ruled that states do not have the authority to impose a cigarette tax upon enrolled tribal members living upon their own reservations.

82.25.025 - Constitutional or Federal prohibition on vapor products

Description The vapor products tax does not apply to vapor products sold to branches of the U.S. armed forces at exchanges, commissaries or ships stores or to sales by authorized purchasers at these facilities. Also exempt are sales to and by the U.S. Veterans Administration.

Purpose To be consistent with the federal legislation, the Buck Act (4 U.S.C. § 107), which prohibits states from imposing a cigarette tax upon members of the military and their dependents.

82.25.105 - Vapor products sold out of state or to Indian Tribes

Description In-state wholesalers of vapor products can obtain a tax credit for sales out of state or to Indian tribes.

Purpose To be consistent with the tax treatment of other tobacco products. Historically, the Department has not required wholesalers to collect and remit other tobacco products tax on sales to out of state or to Indian tribes, but the treatment of these sales was not clear. An exemption codified existing practice in response to statutory changes and recently settled lawsuits.

82.26.040 - Constitutional or Federal prohibition on tobacco products

Description The tobacco products tax does not apply to any tobacco products (cigars, pipe tobacco, etc.) which under the Constitution and laws of the U. S. the state may not tax. This has been interpreted under the Buck Act (4 U.S.C. § 107) to prohibit taxing tobacco products sold to branches of the U.S. armed forces at exchanges, commissaries or ships stores or to sales by authorized purchasers at these facilities. Also exempt are sales to and by the U.S. Veterans Administration.

82.27.020(4) - Fish tax differential rates

Description The tax on enhanced food fish tax (including a 7 percent surtax) has different rates depending on the species of fish or shellfish, and where the fish are caught:

- Puget Sound Chinook, Coho and chum salmon and anadromous game fish, 5.62 percent;
- Ocean Waters, Columbia River, Willapa Bay, and Grays Harbor Chinook, Coho, chum salmon and anadromous game fish, 6.69 percent;
- Pink and sockeye salmon, 3.37 percent;
- Sea urchins and sea cucumbers, 2.25 percent;
- Oysters, 0.09 percent; and
- All other food fish and shellfish, 2.25 percent.

Purpose Reflects market conditions for various types of fish.

Chapter 6

Estate Tax

83.100.020(1) - Estate tax threshold

Description Through Calendar Year 2013, \$2 million is excluded from the value of an estate in determining the amount of estate tax, if any. Legislation passed in 2013 annually adjusts the exclusion amount. The adjustment is determined using the Seattle-Tacoma-Bremerton metropolitan area consumer price index. For estates of decedents dying in Calendar Year 2019, the exclusion amount is \$2,193,000.

Purpose Moderate value estates are not subject to the tax.

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions

- No exclusion for deaths occurring on or after January 1, 2021.
- All payments are made timely at the 9-month due date.
- First payments would be due on October 1, 2021, which will result in 9 months of impact in Fiscal Year 2022.
- Approximately 59,000 deaths in Washington in 2020, increasing to almost 63,000 deaths in 2023.
- Percent of deaths by age based on Washington life expectancy data.
- Washington's average net worth is 127 percent of national average net worth.
- Approximately 40 percent of estates go through probate.
- For probated estates, a high compliance factor is used:
 - 90 percent revenue collections in Fiscal Year 2022; and,
 - 95 percent revenue collections in Fiscal Year 2023 and thereafter.
- For non-probated estates, a compliance factor of 5 percent is used for all years.

83.100.048 - Family-owned business interest

- Description** Estates may deduct qualified family-owned business interests from their taxable estate if certain conditions are met, including:
- Value of the qualified family-owned business interests exceed 50 percent of the Washington taxable estate;
 - Value of the qualified family-owned business interests is not more than \$6 million; and
 - There is material participation related to the operation of the business both prior to, and after, the decedent's death.

The deduction is limited to \$2.5 million, and applies only to decedents dying on or after January 1, 2014.

82.38.080 - Other special fuel tax exemptions

Description The sales of special fuel (i.e., fuel other than gasoline) to publicly or privately owned urban transportation systems are generally exempt from the special fuel tax.

Additionally, sales of fuel for the following uses are exempt from special fuel tax:

- Street and highway construction and maintenance in state, county, or municipality-owned and operated motor vehicles;
- Publicly owned firefighting equipment;
- Vehicles not designed or used primarily for transporting people or property (e.g., road construction machinery, self-propelled cranes, etc.);
- Certain motor vehicle power take-off equipment;
- U.S. government-owned motor vehicles;
- Heating purposes;
- Moving between two pieces of private property a motor vehicle on a public highway;
- Transportation services for persons with special needs by a private nonprofit transportation provider;
- Equipment such as mixing units or refrigeration units powered by motors separate from vehicle fuel tanks;
- Operation of a motor vehicle as a part of a logging operation upon a federal highway within a federal area if the vehicle's use of the highway is subject to a fee related to federal roads or highways; and
- Waste vegetable oil used to manufacture biodiesel.

The removal or entry of special fuel is exempt from special fuel tax if the fuel is dyed special fuel; if the persons involved are licensed; or if it shipped to a point outside Washington.

Purpose To recognize that some fuels suitable for propelling motor vehicles are also put to other uses and to support governmental entities and public transportation.

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions

- The volume of HST taxable petroleum products in Washington is based on information from Washington Research Council and Energy Information Administration (EIA).
- The forecasted percentage change for the implicit price deflator for non-residential structures is as follows:
 - Fiscal Year 2021 percentage change of 2.8 percent
 - Fiscal Year 2022 percentage change of 3.0 percent
 - Fiscal Year 2023 percentage change of 3.0 percent
 - Fiscal Year 2024 percentage change of 2.9 percent
 - Fiscal Year 2025 percentage change of 2.9 percent
- The tax rates for petroleum products are as follows:
 - Fiscal Year 2020 tax rate of \$1.09 per barrel
 - Fiscal Year 2021 tax rate of \$1.12 per barrel
 - Fiscal Year 2022 tax rate of \$1.15 per barrel
 - Fiscal Year 2023 tax rate of \$1.19 per barrel
 - Fiscal Year 2024 tax rate of \$1.22 per barrel
 - Fiscal Year 2025 tax rate of \$1.26 per barrel
- Approximately 4.8 percent of current law HST collections are for non-petroleum based products.
- Requirement that \$50 million per biennium be distributed into the motor vehicle fund has already been met.
- July 1, 2020, effective date and 11 months of cash collections in Fiscal Year 2021.

82.21.040(3) - Minimal amount of hazardous substance

Description Possession of a minimal amount of a hazardous substance (as determined by the Department of Ecology) by a retailer for the purpose of making sales to consumers is exempt from the hazardous substance tax. This exemption does not apply to pesticides or petroleum products.

Purpose To avoid the administrative burden of collecting taxes on a large number of taxpayers for minimal amounts. The administrative burden would be on the collecting agency as well as businesses having to report small amounts of tax.

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions

- A "minimal" amount of hazardous substance is an amount with a wholesale value less than \$1,000 possessed during a calendar month.
- Approximately 20 percent of retail businesses in border counties have out-of-state suppliers that have not already paid hazardous substance tax.
- July 1, 2020, effective date and 11 months of cash collections in Fiscal Year 2021.
- Compliance:
 - 50 percent revenue collections in Fiscal Year 2021

82.21.050(1) - Fuel exported in fuel tanks

Description Hazardous substance tax previously paid on fuel carried from this state in the fuel tank of any airplane, ship, truck, or other vehicle is eligible for a credit against the hazardous substance tax.

Purpose Avoids taxing fuel used outside of Washington. The purpose of the hazardous substance tax is to use its receipts to clean up hazardous substance sites within Washington and fuel consumed primarily outside the state are unlikely to contribute to such sites.

Chapter 9

In-Lieu Excise Tax

35.21.755 - Public corporations

Description Public corporations, commissions, and authorities must pay an in-lieu excise tax equal to what the property tax would be if a private owner owned the property.

Certain properties are exempt from this in-lieu tax including property:

- Located in a special review district established prior to January 1, 1976;
- Listed on a federal or state register of historical sites;
- Used primarily for low income housing, as a convention center, performing arts center, public assembly hall, public meeting place, public esplanade, street, public way, public open space, park, public utility corridor, or public view corridor;
- Considered blighted property acquired by a public corporation for remediation purposes; and
- Used for transit purposes by a regional transit authority.

Certain historical properties are exempt from the leasehold excise taxes of RCW 82.29A.

Purpose Supports social benefits provided by community resources and encourages owners to retain historical property.

Chapter 10

Insurance Premiums Tax

48.14.020(1) - Title insurance

Description Title insurance companies are exempt from the 2.0 percent insurance premiums tax. However, they do pay B&O tax under the 0.471 percent retailing classification and collect retail sales tax from their customers.

Purpose To reflect the fact that title insurance is subject to retail sales tax.

Taxpayer savings (\$ in millions):

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |
|-------------|---------|---------|---------|---------|

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Repeal of exemption Repealing this exemption would increase revenue. However, there would be a net reduction in tax revenues by switching the activity to the insurance premiums tax.

Potential revenue gains from full repeal (\$ in millions):

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |
|-------------|---------|---------|---------|---------|

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions

- Tax base (premiums) growth of 3.4 percent per year.
- The activity will also be subject to the B&O tax and retail sales tax.
- July 1, 2020, effective date, with 11 months of collections in Fiscal Year 2021.

48.14.022 - Health insurance by Washington State Pool

Description Carriers that receive premiums and prepayments from plan enrollees for health coverage provided under the Washington State Health Insurance Pool pursuant to Chapter 48.41 RCW are exempt from insurance premiums tax on those amounts. In addition, carriers, health care service contractors and HMOs may deduct assessments paid to the Washington State Health Insurance Pool from their taxable premiums. Any unused portion of the deduction can be carried forward and used in successive years until the deduction is exhausted.

Purpose To reduce the cost of providing health insurance to persons otherwise unable to obtain coverage because they may be considered high risk.

Chapter 11

Leasehold Excise Tax

82.29A.020(1) - Manufacturing for government

Description The term "leasehold interest" excludes any interest in personal property owned by the U.S. government or a foreign government, if the right to use such property is part of a contract to produce articles for sale to these governments.

Purpose Minimizes the cost of the articles produced and to encourage the federal government to contract with Washington businesses.

Taxpayer savings (\$ in millions):

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |
|-------------|---------|---------|---------|---------|

|-------------|---------|---------|---------|---------|
| State Taxes | \$0.000 | D | D | D |
| Local Taxes | \$0.000 | D | D | D |

Assumptions

- Tooling held for defense contracts is usually owned by the government, and bailed back to Boeing. When a contract ends, the tooling, being property of the government, returns to the government.
- Tooling hasn't been tracked by the Department since 1993. This year serves as a base for all future calculations. The total tooling for that year is divided by the Boeing's manufacturing. The ratio created that year is carried forward into all future years.
- FY 2018 used as a new base year and computed using a 10 year average from Fiscal Years 2008 - 2017. This shows pre-recession, recession, and recovery years and seems to be a reasonable base given the year to year fluctuations.
- Manufacturing done by Boeing is too volatile to use as a basis for future growth rates.
- Growth rate applied to FY 2018 - FY 2023 is the average actual and forecasted growth for all manufacturing from FY 2018 - FY 2023. Growth in FY 2024 and 2025 is a three year average.
- Fewer than three taxpayers so impacts are not disclosable.

82.29A.020(1)(b)(i) - Easements for removing products

Description The term "leasehold interest" excludes road or utility easements, and rights of access, occupancy or use granted solely for the purpose of removing materials or products purchased from a public owner or lessee, and rights of access, occupancy, or use granted solely for the purpose of natural energy resource exploration.

Purpose To minimize costs to private firms and individuals who use public lands for these purposes.

| Local Taxes | \$0.000 | \$0.210 | \$0.283 | \$0.284 |

Assumptions

- Growth in value of these easements will mirror the general forecasted growth for leasehold excise tax collections.
- Any possible single, high-value easement granted during the scope of this estimate would pull these numbers higher.
- Fewer than 50 such easements rights are granted for product removal annually.

82.29A.120(1)(b) - Leasehold interests in real property owned by state universities

Description A credit is allowed against leasehold excise tax for a property owned by a state university equal to the amount that the leasehold excise tax exceeds property tax that would apply if the property were privately owned. This credit is only available on properties valued in excess of \$10 million as of January 1 of the year prior to the year for which the credit is claimed.

Purpose To reduce the leasehold excise tax for those taxpayers where the amount of leasehold excise tax exceeds what would be owned in property taxes if the property was owned by the taxpayer.

82.29A.132 - 2nd Narrows bridge

Description There is a leasehold tax exemption for all leasehold interests in the state route number 16 corridor transportation systems and facilities constructed and operated under chapter 47.46. This includes the second bridge over Puget Sound at the Tacoma Narrows and its approaches.

Purpose This exemption was predicated upon the assumption that upon completion of the bridge, the state would lease the bridge to the private entity that constructed the facility to operate and maintain it for the term of the lease. This statute exempted such a lease from leasehold excise tax. However, the ownership arrangements have since changed and no lease of the facility is contemplated.

82.29A.135 - Anaerobic digesters

Description Leasehold interests in buildings, machinery, and other personal property which are used primarily for the operation of an anaerobic digester, the land upon which this property is located, and land that is reasonably necessary in the operation of an anaerobic digester are exempt from leasehold taxes for a period of six years from the date on which the facility or the addition to the existing facility becomes operational. Firms may apply for the exemption if they are operational before the end of 2024.

Purpose To encourage the production of renewable natural gas in Washington State by stimulating investment in biogas capture and conditioning, compression, nutrient recovery, and use of renewable natural gas for heating, electricity generation, and transportation fuel.

Assumptions

- Period for taking applications for this exemption expired December 31, 2012.
- In 2018, legislation passed for this exemption with an effective date of July 1, 2018, and an expiration date of December 31, 2024.
- Any exemption issued prior to the end of 2012 are now expired and no applications have been submitted since the passage of new legislation.
- Currently, there are no known taxpayers taking this exemption and therefore a repeal of this exemption would not increase state or local revenue.

Chapter 14

Oil Spill Tax

82.23B.030 - Secondary transportation

Description Successive receipt or transportation of crude oil or petroleum products is exempt from the oil spill tax after the initial receipt of the same products at a marine or bulk terminal from a:

- Vessel or barge;
- Rail tank car; or
- Pipeline.

Purpose This exemption restricts the tax to the initial off-loading of crude oil or petroleum products in Washington.

Taxpayer savings (\$ in millions):

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |
|-------------|---------|---------|---------|---------|
| State Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |
| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Repeal of exemption Repealing this exemption would not increase revenues.

Potential revenue gains from full repeal (\$ in millions):

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |
|-------------|---------|---------|---------|---------|
| State Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |
| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions For this exemption to be applicable, oil would have to be off-loaded in Washington from a vessel, rail tank car, or pipeline, then reloaded onto another vessel, rail tank car, or pipeline, before being off-loaded a second time in the state. It is assumed this scenario does not happen.

82.23B.040 - Exported petroleum products

Description Taxpayers may claim a credit against oil spill tax paid on crude oil or petroleum products subsequently exported or sold for export from the state.

Purpose Allows the tax to apply only to products consumed within the state.

Taxpayer savings

82.23B.045 - Nonfuel uses of crude oil petroleum products

Description Taxpayers may claim a credit against oil spill tax paid on crude oil or petroleum products:

- Not used as fuel; or

Chapter 15

Pari-mutuel Tax

67.16.105(1) - Nonprofit horse races

Description Nonprofit horse race events lasting no longer than 10 days annually are exempt from the pari-mutuel tax.

Purpose To support nonprofit horse race events and help revive the horse racing industry.

Taxpayer savings *(\$ in millions):*

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |
|-------------|---------|---------|---------|---------|
| State Taxes | \$0.008 | \$0.008 | \$0.008 | \$0.008 |
| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Repeal of exemption Repealing this exemption would increase revenues.

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions

- Pari-mutuel tax rates are:
 - 1.3 percent for gross receipts over \$50 million; and
 - 1.803 percent for gross receipts under \$50 million.
- The race track that is currently exempt does not have gross receipts over \$50 million, so they would be taxed at the higher rate.
- No growth since there is currently one exempt taxpayer.

67.16.105(2) - Differential parimutuel tax rates

Description The pari-mutuel tax on gross receipts of betting machines at licensed horse races features two tax rates depending on the total wagering receipts at the particular track for the previous year:

- If receipts were greater than \$50 million, the tax rate is 1.3 percent;
- If receipts were \$50 million or less, the tax rate is 1.803 percent.

Purpose The higher 1.803 percent pari-mutuel rate category for smaller race tracks is attributable to a proposed new track in 2002. However, the anticipated revenues at the existing 1.3 percent rate did not generate sufficient funds to cover the state's cost of supervision so the higher tax rate was added to the statute. This track was never constructed and currently the only race track in operation pays the original 1.3 percent rate.

Chapter 16

Petroleum Products Tax

82.23A.010(1) - Crude oil excluded

Description The definition of petroleum products includes a variety of products derived from crude oil but excludes crude oil itself. This definition expires July 1, 2030.

Purpose To avoid taxing both crude oil and substances derived from crude oil.

Taxpayer savings (\$ in millions):

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |
|-------------|---------|----------|---------|----------|
| State Taxes | \$6.013 | \$30.844 | \$3.204 | \$19.837 |
| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Repeal of exemption Repealing this exemption would increase revenues. The petroleum products tax was suspended April 1, 2019. It is expected to be reactivated at the end of Fiscal Year 2020 and remain on through most of Fiscal Year 2021 before being suspended. It is expected to be reactivated again at the end of Fiscal Year 2022 and remain on through Fiscal Year 2023.

Potential revenue gains from full repeal (\$ in millions):

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |
|-------------|---------|----------|---------|----------|
| State Taxes | \$0.000 | \$27.760 | \$3.204 | \$19.837 |
| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions

- Average price of crude oil is equivalent to the forecast for the refiners' acquisition price for crude oil reflected in the IHS Markit March 2019 forecast.
- Petroleum products tax is imposed as follows, consistent with the Department of Revenue's March 2019 non-general fund forecast:
 - 2 months in Fiscal Year 2020
 - 10 months in Fiscal Year 2021
 - 2 months in Fiscal Year 2022
 - 12 months in Fiscal Year 2023

82.23A.010(1) - Liquefied gasses excluded

Description The definition of taxable petroleum products excludes liquefied or liquefiable gasses such as propane and butane. This definition expires July 1, 2030.

Purpose This exclusion assumes fuel in a gaseous state imposes much less risk to the environment.

Taxpayer savings

(\$ in millions):

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions

- Washington State liquefied petroleum gas consumption is estimated to grow by 3 percent per year.
- Average price of liquefied petroleum gas is equivalent to the average estimated price of propane.
- Petroleum products tax is imposed as follows, consistent with the Department of Revenue's March 2019 non-general fund forecast:
 - 2 months in Fiscal Year 2020
 - 10 months in Fiscal Year 2021

82.23A.030(7) - Packaged petroleum products

Description Petroleum products that are packaged for sale to ultimate consumers are exempt from the petroleum products tax. This exemption expires July 1, 2030.

Purpose The purpose of the tax is to generate funds to provide adequate insurance and funding for programs to clean up discharges from leaking underground petroleum storage tanks. Presumably packaged products do not have the potential to cause pollution.

82.23A.040(1) - Petroleum exported in fuel tanks

Description A credit may be claimed against the petroleum products tax for fuel exported from the state in the fuel tank of any vehicle, including airplanes, ships or trucks. This credit expires July 1, 2030.

Purpose To tax the first use of the products in Washington; which have the potential to cause environmental damage. This credit presumes the risk to the environment reduces significantly after depositing the fuel in the vehicle fuel tank.

Repeal of exemption Repealing this exemption would increase revenues. The petroleum products tax was suspended April 1, 2019. It is expected to be reactivated at the end of Fiscal Year 2020 and remain on through most of Fiscal Year 2021 before being suspended. It is expected to be reactivated again at the end of Fiscal Year 2022 and remain on through Fiscal Year 2023.

82.23A.040(2) - Taxes paid in other states

Description Taxpayers may claim a credit against the petroleum products tax for any similar tax paid upon the same product in other states. To qualify for the credit, such tax:

- Must be imposed upon the wholesale value of the petroleum products, and not constitute an income or value-added tax; and
- Must be a tax specifically directed at petroleum products, rather than a general tax.

This credit expires July 1, 2030.

Chapter 17

Property Tax

Property Tax Exemptions – General Information

Property taxation

Washington taxes all property unless the law specifically exempts the property. County Treasurers collect property taxes for all taxing districts on a calendar year basis. Property taxes include:

- State property taxes, used to help fund public schools; and,
- Local property taxes, which fund services and programs provided by counties, cities, fire districts, school districts, and library districts, etc.

The assessed value of real and personal property is public information. Estimates that rely only on public information will show an impact even if there are fewer than three taxpayers using an exemption. However, confidential income data and personal property asset lists may not be released. Estimates using confidential income data or asset lists with fewer than three taxpayers are not disclosable and will have a “D” for the impact.

Maximum tax rates

The law sets maximum tax rates for state and local property taxes, but usually the taxing district’s budget creates limitations on total property taxes. For this reason, Washington’s property tax system was strictly a budget-based property tax system until 2018. Under a budget-based system, a property tax exemption shifts the tax to other property owners. For property taxes collected in 2018 thru 2021, the Legislature changed the state property tax levy (part 1 and part 2) to a rate-based system. Meaning a property tax exemption that starts for taxes collected in 2018 thru 2021 results in a loss of state revenue. All local property taxes remain budget-based.

The County Assessors spreads property taxes across the taxable property in the district based on the total value of taxable property in the district. This establishes the taxing district’s property tax rate. However, taxing districts overlap, so the law also limits the total property tax rate for an area. The Assessor decreases rates in a specific order based on the total rate for a given area.

Tax shifts

A **tax shift** results when exempting property from:

- State taxes collected before 2018;
- State taxes collected during 2022 or after; or,
- Local taxes.

A **tax shift** happens because the total property value decreases by the value of the exempted property causing the property tax rate to increase when the Assessor spreads the taxes across the taxable property in a district. While the exempt taxpayer now pays no property taxes, the taxes *shift* to other taxpayers who pay more taxes due to the increase in the rate. However, when the rate increases it can hit the maximum rate for the district or the total property tax rate for the area. This results in a **tax loss** to the taxing districts because the rate cannot increase beyond the rate limitations.

Property Tax Exemptions – General Information

Exempting property from part 1 and/or part 2 of the state property tax between 2018 and 2021 results in a loss of state revenue.

If the Legislature repeals a local property tax exemption or a state property tax exemption after 2021, the total property value increases causing the property tax rate to decrease. This *shifts* taxes back to the exempt property owner causing other taxpayers to pay less. If the rate limitations limited the rate prior to the removal of the exemption, repealing the property tax exemption may increase taxing district revenues.

If the Legislature repeals a state property tax between 2018 and 2021, the state gains revenue. The gain continues in 2022 and beyond because the additional taxable value from removing the exemption increases the starting point for each part of the state property tax.

Assumptions

The property tax exemptions analyzed in this report use the following assumptions unless otherwise noted:

- Analyses of local property taxes show that with a repeal of a property tax exemption, 82 percent of local taxes would shift to exempt property owners and 18 percent of local taxes would increase revenue for local taxing districts.
 - Unless otherwise stated, the total value exempted grows at the same rate as statewide market value as forecasted by the Economic and Revenue Forecast Council in the March 2019 forecast.
 - Based on five years of state property tax collections, 53.02 percent of state property tax collections occur in April and 46.98 percent occur in October. When converting from calendar year to fiscal year, estimates assume taxpayer savings and potential revenue gains follow this trend.
 - For local potential revenue gains, the Legislature repeals the property tax exemption beginning with property taxes due in Calendar Year 2021, so the estimated local potential revenue gains for Fiscal Year 2021 include only the increase in April 2021 collections.

82.48.110 - General aviation

Description Provides a property tax exemption for general aviation aircraft when aircraft excise tax is paid.

Purpose To eliminate double taxation.

Taxpayer savings *(\$ in millions):*

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |
|-------------|---------|---------|---------|---------|
| State Taxes | \$1.301 | \$1.437 | \$1.486 | \$1.526 |
| Local Taxes | \$4.069 | \$4.255 | \$4.449 | \$4.653 |

Repeal of exemption Both parts of the state property tax levy remain rate-based through 2021 and revert to a budget-based property tax system in 2022. Removing an exemption effective July 1, 2020, results in a gain to both parts of the state levy. The gain continues in 2022 and beyond because removing the exemption increases the starting point of each levy for future tax calculations.

Removing a property tax exemption does not shift state property taxes through 2021. However, beginning in 2022 the taxes of additional participants that qualify would shift to other taxpayers. The models used to measure shifting taxes assume the new tax rate will be different than the current tax rate. For many exemptions, the small change in the tax rate from removing the exemption for additional participants, results in no reportable shifts.

Repealing this exemption would increase revenues.

Potential revenue gains from full repeal

| Local Taxes | \$0.000 | \$0.217 | \$0.417 | \$0.434 |

Repealing this exemption results in a state levy shift of an estimated \$40,000 and a local levy shift of an estimated \$4.2 million in Fiscal Year 2023.

Assumptions Total estimated exempt value is \$492.7 million.

84.14.020; 84.14.040(1)(d)(i) - Multi-unit urban housing in rural counties

Description Provides a property tax exemption for new, expanded, or updated multifamily housing in targeted areas of rural counties. Mason County is currently the only county qualifying under the definition of 'Rural County'.

The housing must have at least four units and include affordable housing. The property remains exempt for eight to twelve years, depending on the percent of affordable units. Affordability and income limits are defined by Mason County.

Purpose Stimulate construction of multifamily housing in target areas of rural counties where housing options, including affordable housing options are limited.

84.25.040 - Targeted urban industrial or manufacturing new construction

Description The new construction value of qualifying industrial or manufacturing facilities is exempt from certain levies. This exemption does not apply to the state property tax levy. It only applies to county property taxes with the approval of the governing body of that county. The exemption is valid for ten years and no new application may be made after December 31, 2022.

Qualifying industrial manufacturing facilities must be located in counties with a population between 700,000 and 800,000. Within a qualified county, the facilities must be located in cities with a population of 18,000 or larger, and are north or east of the largest city in the county. The qualified facilities must also be located within or contiguous to an innovation partnership zone, foreign trade zone, or EB-5 regional center.

Purpose To promote new manufacturing and industrial uses on undeveloped or underutilized lands zoned for industrial and manufacturing uses in targeted urban area.

Removing a property tax exemption does not shift state property taxes through 2021. However, beginning in 2022, the taxes of additional participants that qualify would shift to other taxpayers. The models used to measure shifting taxes assume the new tax rate will be different than the current tax rate. For many exemptions, the small change in the tax rate from removing the exemption for additional participants, results in no reportable shifts.

Repealing this exemption results in a state levy shift of an estimated \$361,000 and a local levy shift of an estimated \$38.7 million in Fiscal Year 2023.

Assumptions

- Total estimated exempt value is \$4.5 billion.
- The average current use value of designated forest land is about \$120 per acre, and the average market value (highest and best use) of designated forest land is approximately \$860 per acre.

84.33.140(13,14) - Forest land compensating tax

Description

When removing forest land from the designated forest land program, landowners paid a compensating tax to reimburse the counties for past tax losses due to the lower land valuations associated with this program. This statute waives the compensating tax for removing forest land in the following situations:

- Transferring the land to a government entity in exchange for other forest land in Washington;
- Taking the land through eminent domain or threat of eminent domain;
- Donating the title, development rights, or right to harvest to a government agency or organization qualified under RCW 84.34.210 and 64.04.130;
- Selling or transferring the land to a government entity or nonprofit nature conservancy for conservation purposes, such as state natural area preserve purposes;
- Transferring the land to the parks and recreation commission;
- Official action by a Washington State agency or the county or city in which the land is located that disallows the present use of the land;
- Creating or transferring a forestry riparian easement;
- Creating or transferring a conservation easement of private forest lands within a migration zone or containing critical habitat for threatened or endangered species;
- Transferring the land within two years of the death of the owner of at least 50% interest in the land and if the land was classified continuously since 1993; or,
- Discovering that the land designation is in error through no fault of the owner.

This statute waives the compensating tax for removing forest land in a county with a population of more than 600,000 or in a county with a population of at least 245,000 that borders Puget Sound if the land transfers to a government entity or nonprofit historic preservation or nature conservancy organization. The organization must use the land to protect or enhance public resources, or preserve, maintain, improve, restore, limit the future use of, or otherwise conserve for public use or enjoyment.

Purpose

Encourages land transfers for conservation purposes and avoids penalizing owners for events that occur outside of their control.

84.33.140(13,14) - Forest land compensating tax

Repeal of exemption

Both parts of the state property tax levy remain rate-based through 2021 and revert to a budget-based property tax system in 2022. Removing an exemption effective July 1, 2020, results in a gain to both parts of the state levy. The gain continues in 2022 and beyond because removing the exemption increases the starting point of each levy for future tax calculations.

Removing a property tax exemption does not shift state property taxes through 2021. However, beginning in 2022, the taxes of additional participants that qualify would shift to other taxpayers. The models used to measure shifting taxes assume the new tax rate will be different than the current tax rate. | Local Taxes | \$0.000 | \$0.974 | \$1.015 | \$1.056 |

Repealing this exemption does not result in a state or local levy shift; the compensating tax does not influence local or state levy calculations.

Assumptions

- Total estimated exempt value is \$12.7 million.
- For counties that did not respond to a 2016 survey issued by the Department of Revenue, the estimated assessed value of exempt property is equal to the ratio of exempt value to the value of designated forest land in reporting counties.

84.33.210(1) - Forest land special assessments

Description Special benefit assessments do not apply to designated forest lands. This exemption applies to assessments by local improvement districts that may include forest land, as well as special benefit assessments for projects such as sewer systems, domestic water supply and road improvements. Neither local jurisdictions nor improvement districts are obligated to provide these services to the exempt forest land. However, the land owner may waive the exemption, pay the assessment, and receive the services.

Purpose To exclude designated forest land from special benefit assessments. To reduce the obligation of local jurisdictions and improvement districts to provide services to exempt forest land.

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

- Assumptions**
- Repealing this exemption would increase local revenues. Improvement districts levy only at the local level, so there is no revenue change to the state.
 - Repealing this exemption will result in minimal local levy shift.
 - For counties that did not respond to a 2016 survey issued by the Department of Revenue, taxpayer savings of exempt property is equal to the ratio of taxpayer savings to acres of designated forest land for reporting counties.

84.33.210(1) - Forest land special assessments

- Special benefit assessments are not necessarily based on the value of a property, so the value of exempted property is not relevant.
 - Exempt value will grow at a rate consistent with the growth rate of the market value property.

84.34.060 - Open space land, current use

Description Open space land and timber land are valued based only on the use to which such property and improvements is currently applied and shall not be valued based on potential uses of such property. Open space land in the current use program is valued using either a public benefit rating system or the value can be no lower than the lowest per acre value of farm and agricultural land in the county. Timber land in the current use program is valued in the same way as designated forest land, using land grades and operability classes.

Purpose Encourages the owners of open space and timber lands to keep the property in its natural state by valuing the land as it is currently being used rather than its highest and best use.

84.34.065 - Farm lands, current use

Description Productive capacity determines the taxable value of farm and agricultural land. Productive capacity is defined as the net cash rental capitalized at a rate of interest charged on a farm mortgage plus a component for property taxes. Market value based on highest and best use determines the taxable value of most other property in Washington. So farm and agricultural land has a reduced taxable value.

The current use value of the land where the farmer and employees reside is the prior year's average value of open space farm and agricultural land used in the county plus the value of land improvements that serve the residence.

Purpose Encourages owners of farm and agricultural land to continue using the land for agricultural purposes.

84.36.010(1) - 2nd Narrows bridge

Description A property tax exemption is provided for state route 16 corridor transportation systems and facilities constructed pursuant to Chapter 47.46 RCW.

Purpose This exemption is intended to exempt any private property used in conjunction with construction and operation of the 2nd Narrows bridge in Pierce County which will span Puget Sound. When adopted, the exemption was predicated upon the assumption that the bridge would be built with private funding until construction was complete and subsequently deeded to the state. This exemption was therefore intended to lower the overall cost of the project to enhance the likelihood of private investors funding the cost of construction.

84.36.010(1) - County government

Description Real and personal property owned by county government is exempt from property taxation.

Purpose Property of a county government is exempt under the Washington Constitution. This reflects a long-standing legislative policy not to tax publicly owned property.

Taxpayer savings (\$ in millions):

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |
|-------------|-----------|-----------|-----------|-----------|
| State Taxes | \$214.642 | \$237.066 | \$245.164 | \$251.836 |
| Local Taxes | \$671.467 | \$702.099 | \$734.166 | \$767.736 |

Repeal of exemption Both parts of the state property tax levy remain rate-based through 2021 and revert to a budget-based property tax system in 2022. Removing an exemption effective July 1, 2020, results in a gain to both parts of the state levy. The gain continues in 2022 and beyond because removing the exemption increases the starting point of each levy for future tax calculations.

Removing a property tax exemption does not shift state property taxes through 2021. However, beginning in 2022, the taxes of additional participants that qualify would shift to other taxpayers. The models used to measure shifting taxes assume the new tax rate will be different than the current tax rate. For many exemptions, the small change in the tax rate from removing the exemption for additional participants, results in no reportable shifts.

Potential revenue gains from full repeal

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |
|-------------|---------|-----------|-----------|-----------|
| State Taxes | \$0.000 | \$128.373 | \$242.949 | \$245.342 |
| Local Taxes | \$0.000 | \$35.812 | \$68.862 | \$71.639 |

Repealing this exemption results in a state levy shift of an estimated \$6.5 million and a local levy shift of an estimated \$696.1 million in Fiscal Year 2023.

Assumptions

- Total estimated exempt value is \$89.5 billion.
- Value of county government facilities per county general employee is the same as the state of Washington facility value per state of Washington general employee.
- Dirt roads make up a large share of county road miles, the value of county roads per mile is half the value of state owned roads per mile.
- Of county, municipal timber and forest land, 95 percent is owned by the county.

84.36.010(1) - Foreign consulates

Description Property owned by a foreign national government or an international commission is exempt from property taxation. To qualify, the property must serve exclusively as an office or residence for a consul or official representative of that nation and the consul or representative must be a citizen of that nation.

Purpose Follows the principle of reciprocity, whereby a foreign nation will not tax the property of a U.S. consulate if it is used and maintained by U.S. nationals.

84.36.010(1) - Tribal property - Essential government services

Description Property belonging to any federally recognized Indian tribe is exempt from property tax if the property is used exclusively for essential government services including economic development services.

Purpose This statute is directed toward Indian tribal land owned in fee, whether located on or off the tribe’s reservation. The purpose is to treat all property used for tribal government services in the same manner as land owned by local governments. “Economic development” is also recognized as an essential government service for purposes of qualifying for the exemption, and is defined to include commercial activities. Pursuant to RCW 82.29A.055, tribes that have economic development located off the reservation must negotiate and make a payment in lieu of leasehold excise tax (PILT), and private operators of these properties are subject to leasehold excise tax (LET).

| Local Taxes | \$11.316 | \$11.833 | \$12.373 | \$12.939 |

Repeal of exemption Both parts of the state property tax levy remain rate-based through 2021 and revert to a budget-based property tax system in 2022. Removing an exemption effective July 1, 2020, results in a gain to both parts of the state levy. The gain continues in 2022 and beyond because removing the exemption increases the starting point of each levy for future tax calculations.

Removing a property tax exemption does not shift state property taxes through 2021. However, beginning in 2022, the taxes of additional participants that qualify would shift to other taxpayers. The models used to measure shifting taxes assume the new tax rate will be different than the current tax rate. For many exemptions, the small change in the tax rate from removing the exemption for additional participants, results in no reportable shifts.

84.36.010(2) - Tribal property - Economic development

Description Federally recognized Indian tribes in Washington receive a property tax exemption for property owned by the tribe prior to March 1, 2014, and used for economic development purposes.

This exemption expires January 1, 2022.

Purpose Creates jobs and improves the economic health of tribal communities. Tribal property used for economic development can be on or off the reservation. This also grants tribes a similar exemption as received by state and local governments for property owned by either the state or a local government.

Removing an exemption effective July 1, 2020, results in a gain to both parts of the state levy. The gain continues in 2022 and beyond because removing the exemption increases the starting point of each levy for future tax calculations.

Removing a property tax exemption does not shift state property taxes through 2021. However, beginning in 2022, the taxes of additional participants that qualify would shift to other taxpayers. The models used to measure shifting taxes assume the new tax rate will be different than the current tax rate. For many exemptions, the small change in the tax rate from removing the exemption for additional participants, results in no reportable shifts.

84.36.031(2) - Nonprofit character building leases

Description Property tax does not apply to property owned by churches and nonprofit character-building organizations that lease out or rent the property to another nonprofit, character-building organization.

Property tax also doesn't apply to property owned by an organization formed exclusively to lease the property to a nonprofit, character-building organization. The property has to have been exempt from property tax under the previous owner and the organization leasing the land gets the benefit of the exemption.

Purpose Supporting the social benefits these organizations provide.

84.36.037 - Nonprofit public assembly halls and meeting places

Description Property tax does not apply to real and personal property owned by a nonprofit public assembly hall or meeting place. The property must be used exclusively for public gathers and be available to everyone. If the property is a public assembly hall then it can be up to one acre, if the property is used for annual community celebrations and mostly unimproved it can be up to 29 acres.

A farmers market can use the property for 53 or fewer days per year. Organizations providing dance lessons, art classes, or music lessons can use the property in a county with a population of less than 20,000, when rents for these activities is for capital improvements or maintenance and operation expense use only. Using the property for monetary gain does not nullify the property tax exemption if all income from the rental goes toward capital improvements, maintenance, or the exempt purpose of the nonprofit organization. This provision expires December 31, 2020.

Purpose Supporting the social benefits these organizations provide.

84.36.041 - Nonprofit homes for the aging

Description Real and personal property owned or leased by a nonprofit home for the aging is exempt if:

- Residents occupy at least 50 percent of the dwellings;
- The federal department of housing and urban development program subsidizes the home; or,
- The home for the aging is financed in part by tax exempt bonds.

Property taxes do not apply if home financing is 75 percent tax exempt bonds and the financing requires a certain percentage of dwellings for low-income residents. The exemption lasts as long as the bonds or the requirement for low-income resident dwellings, whichever is shorter. A partial exemption applies if the home fails to qualify in its entirety. A partial exemption applies for areas jointly used by a home for the aging and a nonprofit organization that is also exempt from property taxes.

Purpose Providing equal treatment of senior citizens who own their own homes and qualify for the senior citizen property tax exemption and those residing in homes for the aging.

Repeal of exemption Both parts of the state property tax levy remain rate-based through 2021 and revert to a budget-based property tax system in 2022. Removing an exemption effective July 1, 2020, results in a gain to both parts of the state levy. The gain continues in 2022 and beyond because removing the exemption increases the starting point of each levy for future tax calculations.

Removing a property tax exemption does not shift state property taxes through 2021. However, beginning in 2022, the taxes of additional participants that qualify would shift to other taxpayers. The models used to measure shifting taxes assume the new tax rate will be different than the current tax rate. For many exemptions, the small change in the tax rate from removing the exemption for additional participants, results in no reportable shifts.

84.36.060(1)(a) - Nonprofit art collections & museums

Description

Property tax does not apply to the real or personal property of a nonprofit organization maintaining and exhibiting art, scientific, or historical collections. The collections must be open to the public. The exemption also applies to property used exclusively for safekeeping and maintaining the collections. To receive a property tax exemption the nonprofit organization must:

- Operate exclusively for artistic, scientific, historical, or educational purposes;
- Receive a substantial part of its support from the federal, state, or local government or public contributions.

If the property is not currently exhibiting, safe keeping, or maintaining, the collections, but will in the future, the nonprofit organization must submit proof they are constructing, remodeling, or otherwise enabling the property for exempted use.

Purpose

Description Property tax does not apply to the real or personal property owned or leased by a nonprofit organization producing and performing musical, dance, artistic, dramatic, or literary works for the general public. To receive a property tax exemption the nonprofit organization must:

- Operate exclusively for artistic, literary, musical, dance, dramatic, or educational purposes; and,
- Receive a substantial part of its support from the federal, state, or local government or public contributions.

Purpose Supporting nonprofit artistic, literary, musical, dance or dramatic organizations and recognizing the education and artistic contributions they make to society.

Taxpayer savings (\$ in millions):

|-------------|---------|---------|---------|---------|
| State Taxes | \$0.176 | \$0.194 | \$0.201 | \$0.206 |
| Local Taxes | \$0.550 | \$0.575 | \$0.601 | \$0.629 |

Repeal of exemption Both parts of the state property tax levy remain rate-based through 2021 and revert to a budget-based property tax system in 2022. Removing an exemption effective July 1, 2020, results in a gain to both parts of the state levy. The gain continues in 2022 and beyond because removing the exemption increases the starting point of each levy for future tax calculations.

Removing a property tax exemption does not shift state property taxes through 2021. However, beginning in 2022, the taxes of additional participants that qualify would shift to other taxpayers. The models used to measure shifting taxes assume the new tax rate will be different than the current tax rate. For many exemptions, the small change in the tax rate from removing the exemption for additional participants, results in no reportable shifts.

84.36.070 - Intangibles

Description Intangible personal property receives an exemption from property tax. The definition of intangible personal property includes:

- All money and credits, such as mortgages, cash, deposits, loans and securities;
- Private personal service contracts and athletic franchises or agreements; and,
- Other intangible personal property including but not limited to trademarks, trade names, trade secrets, patents, copyrights, franchise agreements, customer lists, licenses and permits.

The law specifically excludes characteristics and attributes of real property (zoning, location, view, geographic features, etc.) from the definition of intangible personal property.

Purpose Avoids the double taxation of tangible assets underlying certain intangible assets. The exemption also recognizes the administrative difficulty of locating and valuing such mobile assets.

Repealing this exemption results in a state levy shift of an estimated \$19,000 and a local levy shift of an estimated \$508,000 in Fiscal Year 2023.

Assumptions

- The total estimated exempt value is \$60.18 million.
- County assessors do not list all sole proprietor personal property accounts of businesses owning less than \$15,000. Since owners of personal property self-report, county assessors would have to discover and audit non-reporting businesses that own less than \$15,000. This is a costly and unnecessary exercise since assessors are not required to list these accounts, and these accounts have no taxable value.
- Accounts currently on the rolls would become taxable the following year, if this exemption is repealed.

84.36.110(2) - Personal property up to \$15,000

- Other accounts currently not required to report would have a low compliance rate in the first few years after the repeal.
 - Average value of personal property owned by a non-reporting sole proprietors is \$1,500.
 - The value of exempt property will grow at 2% annually.

84.36.130 - Airports owned by cities in other states

Description Real and personal property located in Washington that is exclusively owned by a municipal corporation of an adjoining state that is used primarily as an airport facility is exempt from property taxation, as long as the size of the airport does not exceed 500 acres.

Purpose While reciprocity is not mentioned in this statute, it is assumed that should a similar situation occur in Oregon or Idaho, those states would enact similar exemptions.

Repeal of exemption Both parts of the state property tax levy remain rate-based through 2021 and revert to a budget-based property tax system in 2022. Removing an exemption effective July 1, 2020, results in a gain to both parts of the state levy. The gain continues in 2022 and beyond because removing the exemption increases the starting point of each levy for future tax calculations.

Removing a property tax exemption does not shift state property taxes through 2021. However, beginning in 2022, the taxes of additional participants that qualify would shift to other taxpayers. The models used to measure shifting taxes assume the new tax rate will be different than the current tax rate. For many exemptions, the small change in the tax rate from removing the exemption for additional participants, results in no reportable shifts.

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions Currently, there are no out-of-state municipalities that own airport property in Washington. There is one airport that is jointly owned by a Washington municipality and an Idaho municipality. Property at this airport is exempt as government property under other Washington State laws.

84.36.210 - Public right-of-way easements

Description Easement rights obtained by government entities over private property are exempt from property taxation. Additionally, property over which the easement permits use is exempt from general tax foreclosure, and property taxes on the sale of delinquent property. Easement refers to the legal right to cross or otherwise use land for a specific purpose. To receive the exemption, the taxpayer must have written documentation of the easement on file with the county auditor's office. However, some jurisdictions do negotiate payments in lieu of property taxes with local taxing jurisdictions.

Purpose Since publicly owned property is exempt from taxation, it follows that the value of easements obtained by government agencies for public purposes on privately owned land should be similarly exempt.

Removing an exemption effective July 1, 2020, results in a gain to both parts of the state levy. The gain continues in 2022 and beyond because removing the exemption increases the starting point of each levy for future tax calculations.

Removing a property tax exemption does not shift state property taxes through 2021. However, beginning in 2022, the taxes of additional participants that qualify would shift to other taxpayers. The models used to measure shifting taxes assume the new tax rate will be different than the current tax rate. For many exemptions, the small change in the tax rate from removing the exemption for additional participants, results in no reportable shifts.

84.36.381 - Senior and disabled homeowners exemption

Description

Retired senior citizens (aged 61 or more), disabled homeowners, and veterans entitled to and receiving compensation from the U.S. Department of Veterans Affairs with a total disability rating for a service-connected disability with incomes equal to or less than Threshold level I are exempt from all excess property taxes levied on their principal residence. Those with an income equal to Threshold level II but greater than Threshold III are also exempt on all regular property tax levies on the first \$50,000 of the residence's assessed value or 35 percent of the value up to a maximum of \$70,000, whichever is greater. Homeowners with incomes equal to or less than Threshold III are exempt from all regular levies on the first \$60,000 of assessed value or 60 percent of the value (with no maximum), whichever is greater.

The valuation of qualified homeowners remains unchanged as of January 1, 1995, or January 1 of the first assessment year, the homeowner qualifies for the property tax exemption. To qualify for the valuation freeze, homeowners must have household income equal to or less than Threshold level I.

Income thresholds are based on a percentage of the County's Median Household Income and adjusted every five years.

Any surviving spouse, surviving domestic partner, heir, or devisee of a person who was receiving an exemption at the time of the person's death will qualify if the surviving spouse, surviving domestic partner, heir, or devisee is fifty-seven years of age or older and otherwise meets the requirements.

Purpose

Provide property tax relief to low-income, retired or disabled homeowners.

84.36.451 - Public property leaseholds

Description Private rights to use or occupy property owned by the federal government, the state of Washington and its subdivisions, and federally recognized Indian tribes, is exempt from property taxation. Individuals and businesses that lease public or tribal property are instead subject to the leasehold excise tax based on the rental value of the lease.

Purpose To ensure that lessees of public property pay only leasehold excise tax and not personal property tax on the value of the lease.

Repealing this exemption results in a state levy shift of an estimated \$0.38 million and a local levy shift of an estimated \$41.2 million in Fiscal Year 2023.

Assumptions

- Total estimated exempt value is \$5.3 billion.
- Since the leasehold excise tax is considered a tax in lieu of property taxes, it would be repealed along with the repeal of this exemption.
- Estimates are net of state and local leasehold excise tax. Because the state leasehold excise tax rate is proportionately greater than the local rate compared with the property tax rates, a shift of tax burden from the state to local jurisdictions would take place, if the exemption were eliminated.

84.36.480 - Nonprofit fair associations

Description Property taxes do not apply to real and personal property owned by a nonprofit fair association eligible to receive support from the fair fund that sponsors or conducts a county fair.

The exemption also applies to nonprofit fair associations organized under RCW 24.06 if the nonprofit purchased or acquired the majority of the property from a county or city between 1995 and 1998.

The exemption applies to properties valued at no more than \$15 million. Leasing or renting the property to private concessionaires in conjunction with a fair does not nullify the exemption if the rental charges are reasonable and used for operating and maintaining the property. If any portion of the property is rented for more than 50 days during a calendar year, the rental income becomes subject to leasehold excise tax beginning January 1, 2019.

Purpose To support county agricultural fairs.

Removing a property tax exemption does not shift state property taxes through 2021. However, beginning in 2022, the taxes of additional participants that qualify would shift to other taxpayers. The models used to measure shifting taxes assume the new tax rate will be different than the current tax rate. For many exemptions, the small change in the tax rate from removing the exemption for additional participants, results in no reportable shifts.

84.36.560 - Nonprofit low-income rental housing

Description

Property tax does not apply to real and personal property owned or leased by a “nonprofit entity” that provides rental housing for very low-income households, or that provides space for placing a mobile home for very low-income households in a mobile home park if:

- The exemption benefits the “nonprofit entity;”
- At least 75 percent of the occupied dwelling units are occupied by very low-income households;
- Housing is insured, financed, or assisted through one or more of the following sources:
 - A federal or state housing program administered by Department of Commerce;
 - A federal or state housing program administered by a city or county government;
 - A local affordable housing property tax levy;
 - Local surcharges for homeless housing and assistance; or,
 - Washington State Housing Finance Commission (WSHFC) provided financing for a mobile home park cooperative or a manufactured housing cooperative.

The nonprofit entity may also receive a partial exemption if very low-income households occupy less than 75 percent of the housing units provided.

Purpose

Encouraging the construction and use of housing for very low-income households.

Repeal of exemption

Both parts of the state property tax levy remain rate-based through 2021 and revert to a budget-based property tax system in 2022. Removing an exemption effective July 1, 2020, results in a gain to both parts of the state levy. The gain continues in 2022 and beyond because removing the exemption increases the starting point of each levy for future tax calculations.

84.36.570 - Nonprofit demonstration farms

Description Property tax does not apply to all real and personal property of a demonstration farm used by a research and education program of a state university and owned by a nonprofit organization, corporation, or association if:

- The property is no more than 50 acres;
- The nonprofit organization, corporation, or association is a 501(c)(3);
- The farm includes research and extension facilities, a public agricultural museum and an educational tour site used by a state university for agricultural research and education programs;
- Income from the sale of agricultural products furthers the purpose of the nonprofit organization; and,
- Exempted property must be used exclusively for the purpose of the exemption.

84.36.645 - Semiconductor materials manufacturing after \$1 billion investment - Machinery and equipment

Description Machinery and equipment exempt from sales and use tax under RCW 82.08.02565 or 82.12.02565 used in manufacturing semiconductor materials is exempt from property tax. The exemption is contingent upon the siting of a significant semiconductor fabrication facility with an investment of at least \$1 billion in buildings and equipment in Washington. The exemption expires January 1, 2024, unless the contingency in RCW 82.32.790(2) occurs.

Purpose Encourages the retention of existing semiconductor firms in Washington and attracts similar businesses to this state.

Repeal of exemption

Both parts of the state property tax levy remain rate-based through 2021 and revert to a budget-based property tax system in 2022. Removing an exemption effective July 1, 2020, results in a gain to both parts of the state levy. The gain continues in 2022 and beyond because removing the exemption increases the starting point of each levy for future tax calculations.

Removing a property tax exemption does not shift state property taxes through 2021. However, beginning in 2022, the taxes of additional participants that qualify would shift to other taxpayers. The models used to measure shifting taxes assume the new tax rate will be different than the current tax rate. 84.36.655 - Aircraft facilities, port property

Description Facilities used to manufacture superefficient airplanes which are located on property owned by a port district are exempt from property tax. The exemption covers buildings, machinery, equipment and other personal property owned by a lessee of port district property.

This exemption is not available if the manufacturer takes the B&O tax credit provided by RCW 82.04.4463. This exemption expires July 1, 2040.

Purpose Encourages establishment of a super-efficient airplane manufacturing facility in Washington. This exemption presumes that such a facility would be located on port district property. As such, it addresses the personal property component of the facility, since the real property is likely to be publicly-owned.

84.37.030 - Low-income homeowners tax deferral

Description A homeowner may defer 50 percent of special assessments and real property taxes if the homeowner:

- Owns the house for more than five years and lived in the house as of January 1 of the year taxes are due;
- Has a combined disposable income of \$57,000 or less in the calendar year prior to filing;
- Total amount deferred cannot exceed 40% of the amount of the claimant's equity value in the residence;
- Already paid half of the taxes due for the year; and,
- Has enough fire and casualty insurance to protect the interests of the state.

The homeowner can't defer special assessments or property taxes under RCW 84.38.030 and this program at the same time and can only defer up to 40 percent of his or her equity in the property. The state reimburses local taxing districts for the local property taxes deferred under this program.

Purpose Relieving the property tax burden of persons with limited incomes.

| Local Taxes | \$0.119 | \$0.124 | \$0.129 | \$0.135 |

Repeal of exemption Repealing this property tax exemption would increase state revenues. Unlike most property tax exemptions, it would not shift property taxes to the currently exempt taxpayers and reduce the tax burden of other taxpayers since the state reimburses local taxing districts for the local property taxes deferred under this program.

Potential revenue gains from full repeal

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Repealing this exemption results in no state levy shift, no local levy shift, and no potential revenue gain to local taxing districts as the state reimburses local taxing districts for the local property taxes deferred under this program.

Assumptions

- Number of participants taking deferrals remain constant for the study period.
- Growth in the average deferral will increase by 4.4 percent annually.

84.38.030 - Senior and disabled homeowners tax deferral

- Description** A homeowner may defer 80 percent of special assessments and real property taxes if the homeowner:
- Meets all requirements for an exemption for the residence under RCW 84.36.381;
 - Is 60 or older by December 31 of the deferral claim year, or is retired due to physical disability;
 - Has a combined disposable income of 75 percent or less of the county median household income;
 - Has enough fire and casualty insurance to protect the interests of the state;
 - Owned, at the time of filing, the residence upon which the special assessment and /or real property taxes are imposed;
 - If claiming a special assessment deferral, opted for installment payments if available; and,
 - Any surviving spouse, surviving domestic partner, heir, or devisee of a person who was receiving a deferral at the time of the person's death qualifies if the surviving spouse or surviving domestic partner is fifty-seven years of age or older and otherwise meets these requirements.

The state reimburses local taxing districts for the local property taxes deferred under this program.

Purpose Relieve the property tax burden of low-income, elderly, or disabled persons.

84.39.010 - Veteran widows and widowers

- Description** Widows or widowers of a veteran qualify for a property tax exemption, in the form of a grant, if they:
- Meet all requirements under the senior citizens exemption program (RCW 84.36.381), other than the income limits; and,
 - Are 62 or older by December 31 of the exemption claim year or retired due to physical disability and the veteran:
 - Died from a service-related disability;
 - Was 100 percent disabled by the U.S. Veterans Administration for at least the last 10 years prior to the veteran's death;
 - Was a prisoner of war and rated 100 percent disabled for at least 1 year prior to the veteran's death, or died while on active duty or in active military status.

In addition, the widow or widower of a veteran must not have:

- Remarried; and,
- A combined disposable income of more than \$40,000.

The grant equals the amount of regular and special property tax levies imposed on the difference between the value of the residence that is eligible under the senior citizens exemption program and the following:

- If disposable income is less than \$30,000, the first \$100,000 of residential value;
- If disposable income is between \$30,000 and \$35,000, the first \$75,000 of residential value; or,
- If disposable income is between \$35,000 and \$40,000, the first \$50,000 of residential value.

84.40.030(3) - Growing crops

Description The value of agricultural land on January 1 does not include growing crops for property tax purposes. This exemption does not apply to marijuana.

Purpose The harvesting of most crops prior to January 1 prevents them from being subject to property tax. This exemption provides equal treatment for the few crops that may still be growing in the ground, principally winter wheat and fall barley.

Repeal of exemption

Both parts of the state property tax levy remain rate-based through 2021 and revert to a budget-based property tax system in 2022. Removing an exemption effective July 1, 2020, results in a gain to both parts of the state levy. The gain continues in 2022 and beyond because removing the exemption increases the starting point of each levy for future tax calculations.

Removing a property tax exemption does not shift state property taxes through 2021. However, beginning in 2022, the taxes of additional participants that qualify would shift to other taxpayers. The models used to measure shifting taxes assume the new tax rate will be different than the current tax rate. For many exemptions, the small change in the tax rate from removing the exemption for additional participants, results in no reportable shifts.

| Local Taxes | \$0.000 | \$0.015 | \$0.030 | \$0.031 |

Repealing this exemption results in a state levy shift of an estimated \$155,000 and a local levy shift of an estimated \$300,000 in Fiscal Year 2023.

Assumptions

- Total estimated exempt value is \$35.4 million in Fiscal Year 2018; this value is much less than in 2016, because barley value of production was negative.
- Agricultural crops growing in the ground on January 1 are exempt under RCW 84.40.030(3); Most of these crops are winter wheat, barley, and onions.
- 25 percent of costs - excluding seed costs - have been incurred by January 1 for crops that are in the ground on January 1; the value of these crops is equal to the market value of the finished crop less the estimated remaining cost.

84.40.037 - Prewritten computer software

Description Computer software, except embedded software, is subject to property tax on 100 percent of the purchase price in the first year following purchase and on 50 percent of the cost in the second year. Thereafter, it is exempt from property tax.

Purpose Recognizes the rapid obsolescence of software and the difficulty of establishing accurate depreciation schedules for the myriad of software programs. Also, it helps provide uniformity of taxation throughout the state.

| Local Taxes | \$12.089 | \$12.640 | \$13.217 | \$13.822 |

Repeal of exemption Both parts of the state property tax levy remain rate-based through 2021 and revert to a budget-based property tax system in 2022. Removing an exemption effective July 1, 2020, results in a gain to both parts of the state levy. The gain continues in 2022 and beyond because removing the exemption increases the starting point of each levy for future tax calculations.

Removing a property tax exemption does not shift state property taxes through 2021. However, beginning in 2022, the taxes of additional participants that qualify would shift to other taxpayers. The models used to measure shifting taxes assume the new tax rate will be different than the current tax rate. For many exemptions, the small change in the tax rate from removing the exemption for additional participants, results in no reportable shifts.

| Local Taxes | \$0.000 | \$0.645 | \$1.240 | \$1.290 |

Repealing this exemption results in a state levy shift of an estimated \$117,000 and a local levy shift of an estimated \$12.5 million in Fiscal Year 2023.

Assumptions

- Total estimated exempt value is \$1.46 billion.
- For counties that did not respond to a survey issued by Department of Revenue in 2016, the estimated assessed value of exempt property is equal to the ratio of exempt value to total assessed value for reporting counties.

84.40.130(3) - Personal property tax penalty waiver

Description During the 2012 Legislative Session, the Legislature passed a personal property tax amnesty program allowing counties to optionally waive penalties for the failure to list taxable personal property with the county assessor. The penalty waiver applied to assessment years 2011 and prior and to receive a waiver, the taxpayer had to apply by July 1, 2012. Also, all taxes had to be paid by September 1, 2012.

Purpose Provided a window of opportunity for businesses to add to their list of taxable personal property without penalty.

Assumptions

- In 2012, the amnesty program added \$18.3 million in market value to the state property tax roll and \$19.7 million in market value to local property tax rolls. The \$1.4 million difference is agricultural machinery and equipment exempt from state property taxes.
- Garfield, King, and Thurston Counties offered amnesty.
- Amnesty was offered one time and results in no continuing revenue impact.

84.56.020(19) - Waiver of interest and penalties for qualified taxpayers subject to foreclosure

Description No earlier than 60 days prior to being three years delinquent, the treasurer must waive all outstanding interest and penalties on delinquent taxes on a property subject to foreclosure action under chapter 84.64 RCW when the following requirements are met:

- Taxpayer is income-qualified under RCW 84.36.381(5)(a);
- Taxpayer occupies the property as their principle place of residence; and,
- Taxpayer has not previously received a waiver on the property as provided under this subsection.

Purpose Provides relief for residential property owners to avoid foreclosure.

84.56.025 - Delinquency penalty and interest waivers

- Description** County treasurers must waive interest and penalties on delinquent property taxes when:
- Notice was not sent to the taxpayer due to an error by the county. Interest and penalties are reinstated if the taxpayer fails to pay delinquent taxes within thirty days of receipt of proper notice;
 - The taxpayer fails to make one payment on their personal residence due to death of their spouse; or,
 - The taxpayer fails to make one payment on their parent's or stepparents personal residence due to death of their parent or stepparent.

County treasurers, at their discretion, may waive interest and penalties on delinquent property taxes when:

- The taxpayer pays an erroneous amount due to an error by the taxpayer.

Purpose Provides relief for taxpayers in cases of errors or hardships.

84.56.335 - Mobile homes possessed by landlords

Description

Property tax does not apply to a manufactured home or park model trailer worth less than \$8,000 if the landlord of the manufactured home park takes ownership and submits a signed affidavit to the assessor indicating an intent to resell or rent the home and:

- The manufactured home or park model trailer has been abandoned; or,
- A final judgment regarding the manufactured home or park model trailer for restitution of the premises under RCW 59.18.410 executes in favor of the landlord and the title transfers to the landlord.

All future taxes are the responsibility of the owner of the manufactured, mobile home or park model trailer.

Purpose

Allows manufactured home park owners to renovate and rent or sell abandoned homes without the responsibility of back property taxes, interest, and penalties owed by the previous owner.

82.16.046 - 2nd Narrows bridge

Description A public utility tax exemption is allowed on income derived from operation of state route 16 corridor transportation systems and facilities constructed and operated under RCW 47.46. This statute addresses the second bridge over Puget Sound at the Tacoma Narrows and exempts any tolls received by the operator of the bridge from public utility tax.

Purpose Lower the overall cost of operating the bridge.

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Repeal of exemption

Repealing this exemption would not increase revenues. Tolls will be received by the state, not the firm contracted to collect the tolls. Income derived from the operation of state route 16 does not fall under the public utility tax classifications.

Normally, the contractor is subject to B&O tax under the service classification on amounts paid by the state to perform this service. Thus, there is no impact on public utility tax.

Description Ride sharing receipts are exempt from public utility tax for:

- Vanpools and carpools used for commuter ride sharing; and,
- Public social service agencies or private, nonprofit transportation providers that transport persons with special transportation needs.

Purpose Reduces motor vehicle fuel consumption and traffic congestion by promoting commuter ride sharing, and supports nonprofit organizations that provide group transportation services.

82.16.0491 - Rural electric utility contributions

Description A light and power business may take a credit up to \$25,000 per year against public utility tax for up to 50 percent of the contributions made to an electric utility rural economic development revolving fund. In order to qualify, the revolving fund must be for a county with a population density of fewer than 100 persons per square mile, a county smaller than 225 square miles, or any geographic area in the state that receives electricity from a light and power business with 12,000 or fewer customers. Total tax credits for all qualifying businesses are limited to \$350,000 annually. A qualifying light and power business can carry over unused credits to subsequent years. The right to earn new tax credits expired on June 30, 2011.

Purpose To improve economic, health, and safety conditions, and facilitate conservation and development of renewable energy resources, in qualifying rural areas.

82.16.0495 - Electricity sold to direct service industry (DSI)

Description Sales of electricity from a gas turbine electrical generation facility to a direct service industrial (DSI) customer are eligible for a public utility tax credit if such sales will be made for at least ten consecutive years and the price of the electricity will be reduced by an amount equal to the credit. The tax credit lasts for 60 months following the first qualifying sale of electricity. The DSI customer must maintain existing employment levels for at least five years to qualify. A DSI customer is an industrial customer that purchases power from the Bonneville Power Administration (BPA) for its own consumption.

Purpose To encourage DSI customers to continue manufacturing in Washington after their power supply contracts with the BPA expire by switching to power from newly constructed power facilities.

82.16.0496 - Alternative fuel commercial vehicle tax credit

Description

A credit is allowed against either B&O tax or PUT for the purchase or lease of new or qualifying used commercial vehicles powered by a clean alternative fuel, or the conversion of vehicles to be powered by a clean alternative fuel.

The credit is equal to 75 percent of the incremental cost amount, which is the difference in price between the qualified vehicle's purchase price and a comparable conventionally-fueled vehicle, or the maximum credit amount for that vehicle, whichever is smaller. For leased vehicles, the credit is equal to fifty percent of the incremental cost amount multiplied by a lease reduction factor. For converted vehicles, the credit is \$25,000 or 50 percent of the conversion costs, whichever is smaller. The maximum credit amount per vehicle is \$25,000, \$50,000, or \$100,000, depending on the gross weight of the vehicle.

“Qualifying used commercial vehicle” means a vehicle with an odometer reading of less than 450,000 miles; that is less than ten years past the original manufacturing date; is modified after the initial purchase with a U. S. environmental protection agency certified conversion that would allow the propulsion units to be principally powered by a clean alternative fuel; and is being sold for the first time after modification. Only vehicles used for commercial services or to transport commodities, merchandise, produce, refuse, freight, animals, or passengers and display a Washington State license plate qualify for the credit. All commercial vehicles that provide transportation to passengers must be operated by an auto transportation company. The definition of auto transportation company is amended to include private, nonprofit transportation providers, charter party carriers, and paratransit service providers who primarily provide special needs transportation to individuals with disabilities and the elderly.

A credit is allowed for up to 50 percent of the cost to purchase alternative fuel vehicle infrastructure which includes tangible personal property that will become a component and installation and construction of alternative fuel vehicle infrastructure. The credit for infrastructure is limited to \$2 million dollars annually.

On September 1 of each year, any unused credits from any category must be made available to applicants applying for credits under any other category, subject to the maximum annual credit of \$6 million dollars. The maximum total credit taken since July 15, 2015, cannot exceed \$32.5 million.

Purpose

Alternative fuel commercial vehicles cost more than comparable conventional fuel vehicles. The credit provides businesses an incentive to purchase alternative fuel commercial vehicles or convert conventional fuel vehicles to be powered by cleaner alternative fuels, as well as install alternative fuel infrastructure which is in line with the state's climate and environmental goals.

82.16.0497 - Billing discounts provided to low-income households - Credit

Description A light and power business or a gas distribution business may take a credit against public utility tax for up to 50 percent of billing discounts provided to low-income households or qualified contributions to a low income home energy assistance fund.

To qualify for the credit, the business must give billing discounts or qualifying contributions in excess of 125 percent of those given in fiscal year 2000 (or the first year the business provided billing discounts or qualified contributions). The total amount of credits available for all businesses is \$2.5 million annually.

82.16.0499 - Hiring veterans

Description This preference provides employers a Public Utility Tax (PUT) tax credit for hiring unemployed veterans. However, no business may claim a credit against taxes due under both B&O and PUT taxes for the same employee.

The credit equals 20 percent of wages and benefits paid up to a maximum of \$1,500 for each qualified employee hired on or after October 1, 2016. No credit may be claimed until a qualified employee has been employed for at least two consecutive calendar quarters. The total statewide credit cap is \$500,000 per fiscal year. 82.16.050(4) - Cash discounts

Description A business may deduct cash discounts taken by customers from gross income subject to public utility tax when the business's gross income reported includes these cash discounts.

Purpose The deduction recognizes the true value of services performed by the business.

Taxpayer savings (\$ in millions):

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |
|-------------|---------|---------|---------|---------|
| State Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |
| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Repeal of exemption Repealing this exemption would not increase revenues.

Potential revenue gains from full repeal (\$ in millions):

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |
|-------------|---------|---------|---------|---------|
| State Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |
| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions Although taxpayers who use accrual-based accounting report this deduction and thus, experience savings, the state would not achieve revenue gains if the deduction is repealed. Taxpayers using cash basis accounting do not need to use the deduction; they report the actual amount receive at the time of sale. Taxpayers who use accrual-based accounting would likely switch to cash basis accounting if the deduction is repealed.

82.16.050(6) - Interstate transportation - In-state portion

Description Businesses may deduct income the state constitutionally cannot tax from gross income subject to the public utility tax. Under current practice, this deduction includes income received by transportation businesses when a trip either begins or ends outside of Washington. For example, income received from a trip from Seattle to Coeur d'Alene, Idaho is eligible for the deduction.

Purpose To avoid taxing transportation businesses that cross state borders.

82.16.050(8) - Interstate transportation - Through freight

Description In general, wholly instate trips (from one point in Washington to another) are subject to public utility tax. This deduction from the public utility tax is for instate portions of interstate shipments of goods where the carrier authorizes the shipper to stop the shipment in Washington to store, manufacture, or process the goods, then continues to transport the same goods or their equivalent, in the same or a converted form, to the final destination noted under a through freight rate (also known as a through bill of lading). The deduction applies to transportation of goods by truck, rail, and certain water transportation.

Purpose To extend the favorable tax treatment provided to interstate transportation that would otherwise qualify for that exemption except for a temporary stoppage of transit in this state.

82.16.050(9) - Interstate transportation - Shipments to ports

Description Businesses may deduct income derived from transporting products from a point within Washington to an export elevator, wharf, dock, or vessel from gross income subject to public utility tax, if a vessel then ships the products, without any intervening transportation, in their original form outside of the state. The deduction does not apply if this shipment occurs within the same city.

Purpose To avoid taxing products that are exported out of the state.

82.16.050(10) - Farm products shipped to ports

Description Businesses may deduct income derived from the transportation of agricultural commodities from points within Washington to interim storage facilities in this state for trans-shipment, without intervening transportation, to an export elevator, wharf, dock, or vessel from gross income subject to public utility tax, if a vessel then ships the commodities, without any intervening transportation, in their original form outside of the state. The deduction only applies if:

- More than 96 percent of all agricultural commodities delivered by the person claiming the deduction and delivered by all other persons to the commodity dealer's interim storage facilities during the preceding year was shipped by vessel in original form outside the state; and,
- Any of the commodities that are trans-shipped to ports will be received at storage facilities operated by the same commodity dealer and will be shipped from such facilities by vessel in original form outside the state.

Purpose To avoid taxing the shipment of agricultural products for export outside of the state.

82.16.050(11) - Electric power exported or resold

Description A business may deduct amounts derived from the production, sale, or transfer of electricity for resale within or outside of the state or for consumption outside of the state from gross income subject to public utility tax.

Purpose To avoid taxing interstate commerce and to avoid pyramiding of the public utility tax on in-state sales of electricity for resale.

82.16.053 - Electric power sold in rural areas

Description A light and power business may deduct from gross income subject to the public utility tax the lesser of the amounts listed below:

- A percentage of wholesale power cost paid during the reporting period depending on the number of customers per mile of line;
 - 50 percent of wholesale power cost if the business has fewer than 5 ½ customer per mile of line;
 - 40 percent if the number of customers per mile of line is between 5 ½ and 11;
 - 30 percent if the number of customers per mile of line is between 11 and 17; or,
 - Zero if the number of customers per line is greater than 17.
- Wholesale power cost multiplied by the percentage by which the average retail electric power rates for the light and power business exceed the state average electric power rate; or,
- \$400,000 monthly.

Purpose To reduce electricity costs in areas with geographically dispersed customers.

82.16.055 - Cogeneration facilities and renewable resources

Description Businesses may take a deduction from gross operating income subject to public utility tax for the cost of producing electricity from cogeneration and electricity or gas produced from renewable energy resources. Businesses may also deduct amounts expended to improve energy efficiency or the use of electricity or gas by consumers. The deduction applies only to new facilities constructed between June 12, 1980, and January 1, 1990. The deduction related to cogeneration is limited to 30 years after the project's initial operation.

Currently less than 3 taxpayers take this deduction. Per interpretation by Department of Revenue, this deduction is available after January 1, 2020, only for qualifying projects for the cost of production at the plant for consumption within Washington State, RCW 82.16.050(a). It is not an available deduction as it applies to RCW 82.16.055 (b), improvements for consumer's efficiency of energy end use.

Purpose To encourage energy conservation and the use of renewable energy.

82.16.130 - Renewable energy system cost recovery

Description A light and power business may take a credit against public utility tax for amounts paid to customers as investment cost recovery incentives for renewable energy systems. The credit for a fiscal year may not exceed one and one-half percent of the business's 2014 calendar year taxable power sales or \$250,000, whichever is greater. The right to earn tax credits expires June 30, 2029. Credits may not be claimed after June 30, 2030.

Purpose To encourage investment in renewable energy resources.

Assumptions

- July 1, 2020, effective date, with 11 months of collections in Fiscal Year 2021.
- Participants in the old program receive repayments through June 30, 2021.
- Repayment term under the new program is eight years or half the systems cost whichever is reached first. Based on Washington State University (WSU) energy's annual payment calculations, the majority of the participants will receive repayments for eight years.
- The new program has reached the \$110 million overall cap. WSU energy is no longer reviewing new certification applications as of June 14, 2019.

82.16.315 - Electricity or gas sold to silicon smelters

Description Persons who sell electricity, natural gas or manufactured gas to a silicon smelter are eligible to take a credit against public utility tax. The credit is equal to the gross income from the sale multiplied by the corresponding tax rate in effect at the time of the sale. The contract for sale of electricity or gas to the silicon smelter must specify that the price charged will be reduced by the credit amount. Resale or remarketing of the electricity or gas originally obtained by contract for the smelting process is not eligible for the credit.

This tax preference expires on July 1, 2027. If smelters do not meet the employment requirements, the tax preference will expire on January 1, 2024.

Purpose To promote the manufacturing of silicon for use in production of photovoltaic cells for solar energy systems.

82.32.045(4) - Minimum to file PUT return

Description Businesses whose gross income is less than \$24,000 annually are not required to file excise tax returns. The provision does not apply to businesses that collect and remit retail sales tax or any other tax or fee which the Department is authorized to collect.

Purpose To reduce administrative costs for taxpayers and the Department of Revenue.

82.70.020 - Commute trip reduction credit

Description Employers who provide financial incentives for their own or other employees to participate in commute trip reduction programs may take a credit against B&O or public utility tax. The credit for an employer is:

- Equal to one-half of the employer's expenditure;
- Limited to \$60 per employee per year; and,
- Limited to \$100,000 each year.

The program has an annual cap of \$2.75 million for both B&O and public utility tax credits, and currently expires January 1, 2024. No person may claim tax credits after June 30, 2024.

Purpose To provide an incentive for employers to give financial incentives to employees to encourage car-pooling and other means of reducing air pollution, traffic congestion, and fuel consumption.

82.73.030 - Commercial area revitalization contributions (main street program)

Description Subject to limitations, approved contributions made to a qualifying non-profit organization in the Main Street Program or to the Main Street Trust Fund are eligible for a partial business and occupation tax credit or public utility tax credit.

The credit is either:

- 75 percent of the approved contributions made to a Main Street Program; or,
- 50 percent of the approved contributions to the Main Street Trust Fund.

The total amount of these credits statewide cannot exceed \$2.5 million per calendar year. Credits are not available for contributions to a program in a municipality with a population of 190,000 or more.

Purpose Encourages the revitalization of downtown or neighborhood commercial areas.

Assumptions

- Property value growth is half that used by the Department to determine forecasted property tax rates.
- None of these properties is agricultural or timber land.
- All self-help properties are sold at prices less than \$500,000 through Fiscal Year 2023, and less than \$525,000 in Fiscal Years 2024 and 2025.
- This exemption is effective October 1, 2019, causing 9 months of taxpayer savings in Fiscal Year 2020.
- 11 months of collections in Fiscal Year 2021 due to July 1, 2020, effective date.

82.45.190 - 2nd Narrows bridge

Description A real estate excise tax exemption is provided for the transfer of state route 16 corridor transportation facilities which were constructed under Chapter 47.46 RCW. This addresses the construction of the second bridge over Puget Sound at the Tacoma Narrows.

Purpose As originally planned, this exemption would enable transfer of the completed bridge to the private operator of the facility without incurring real estate excise tax liability.

Chapter 20

Retail Sales and Use Tax

36.100.090 - Baseball stadium deferral

Description Provides a sales and use tax deferral on the original construction of a public baseball stadium that:

- Is owned and operated by a public facilities district;
- Has a retractable roof; or,
- Has natural turf.

The construction of Safeco Field was completed in January 2000, and the repayments of deferred sales and use taxes were completed in 2014.

Purpose To encourage construction of a stadium for professional baseball in King County.

36.102.070 - Football stadium deferral

Description Public stadium authorities are eligible to defer retail sales and use taxes on the construction of:

- Professional football and soccer stadiums; and
- Adjacent exhibition centers.

Deferred sales tax is repayable over a ten-year period, starting five years after the stadium becomes operational. Qwest Field and its exhibition center, which qualified for the deferral, were complete in 2002. Repayment began in 2007.

Purpose Encourage the construction of a professional football and soccer stadium and adjacent exhibition center in Washington.

47.01.412 - Highway 520 bridge replacement

Description Businesses involved in the 520 bridge replacement project may apply for a deferral of state and local sales and use taxes on project costs for:

- Site preparation;
- Construction; and,
- Purchased or rented machinery and equipment.

Repayment of the deferred taxes begins the fifth year after the project is complete, and continues for the following nine years.

Purpose Encouraged replacement of the 520 bridge.

47.46.060 - 2nd Narrows bridge

Description A ten year deferral of state and local retail sales tax for the tax due on construction of the second bridge over Puget Sound at the Tacoma Narrows. The deferral includes related road improvements and the rental of equipment used during construction. Ten percent of the deferred tax must be repaid annually beginning on December 31 of the 24th year following the certified completion of the project. Payments beginning on December 31, 2031.

Purpose Lowering the initial overall cost of the project and to mitigate the amount of tolls necessary to fund repayment of the bonds financing construction costs of the project.

82.04.050 - Personal and professional services

Description The retail sales tax originally applied only to the sale of tangible personal property and thus, by definition, excluded services from the tax base. Since 1935, some services were added to the tax base, including services to tangible personal property (e.g., repair services) in 1939; construction in 1941; rental of tangible personal property in 1959; certain amusement and recreation activities in 1961 and 2015; and landscape maintenance, physical fitness and certain miscellaneous personal services in 1993 and 2015. Although, technically, the remaining personal and professional services are not "exempt" because they were never in the tax base, there has been some interest in the amount of revenue represented by these activities, and therefore they are included in this report.

Purpose The primary reasons services were excluded from retail sales tax may have included:

- To maintain simplicity by taxing only one class of property, i.e. tangible goods;
- To conform to the practice of other states at the time;
- To minimize tax administration costs by not requiring service providers to collect the tax; and,
- A recognition that services did not represent a very large share of the state economy in the 1930s.

| Local Taxes | \$0.000 | \$2,282.303 | \$2,690.442 | \$2,834.303 |

Assumptions

- Under the service category "Banking - deposit account service packages, and loan services" mortgage interest will be subject to sales tax.
- Some satellite and cable services are subject to sales tax. This includes services such as pay-per-view for satellite providers. The majority of potential revenue from imposing sales tax on satellite and cable would be from subscription fees for access to channels.

82.04.050 - Personal and professional services

- Due to federal laws, local sales tax cannot be imposed on satellite television subscriptions. This estimate does not include estimates for local sales tax on satellite television subscriptions.
 - For some industries there is a lower compliance factor.
 - Some industries are subject to the higher education business and occupation tax surcharge created in E2SHB 2158, 2019.
 - July 1, 2020, effective date, with 11 months of collections in Fiscal Year 2021.

Assumptions

- July 1, 2020, effective date, with 11 months of collections in Fiscal Year 2021
- Purchases of telecom equipment to provide to telephone service consumers will grow by 2 percent per year.
- Retail sales tax exemption would apply to telecom companies purchasing equipment for resale to consumers. Such items include cell phones, routers and modems. These types of items are taxable under wholesaling B&O.
- One quarter of telecom expenditures are for resale.

82.04.050(2)(d) - Janitorial services

Description Retail sales tax does not apply on sales of janitorial services. The statute specifically excludes janitorial services from the definition of a retail sale, which makes them a non-retail service. A business providing janitorial services is subject to the Service and Other B&O tax classification of 1.5 percent. The customer is not subject to retail sales tax.

Janitorial services are defined as cleaning and caretaking of buildings and structures. This includes washing windows and walls, cleaning and waxing floors, and cleaning rugs, drapes and upholstery in the building.

Purpose To recognize that cleaning of buildings does not meet the current definition of retail sale, since the activity is oriented toward merely preserving structures in their current condition, rather than actually changing the structure.

82.04.050(3)(d)(i) - Horticultural services for farmers

Description The definition of retail sales excludes charges for horticultural services to farmers. Sales tax is not collected on services related to the cultivation of vegetables, fruits, grains, field crops, ornamental horticulture, nursery products, as well as soil preparation, crop cultivation and harvesting services.

Purpose To support the farmers and the agricultural industry, and clarify the tax liability of these activities in light of the extension of sales tax to landscaping services in 1993.

82.04.050(3)(d)(ii) - Tree trimming under power lines

Description The definition of retail sales excludes charges for pruning, trimming, repairing, removing, and clearing of trees and brush near electric transmission or distribution lines or equipment. To qualify, the work performed must be by or under the direction of an electric utility.

Purpose To clarify the tax liability of these activities in light of the extension of sales tax to landscaping services in 1993 in that these services are not akin to landscaping but are done out of necessity to keep power lines clear of interference from trees and brush.

82.04.050(10) - Labor and services used to construct and repair public roads

Description The definition of retail sales excludes charges for labor and services performed on public roads and transportation facilities owned by local jurisdictions or the federal government.

A contractor for the federal government or a local jurisdiction must pay retail sales and use tax on materials incorporated into the project. The exclusion does not extend to roads owned by the state. Sales and use tax is due on 100 percent of road construction that occurs on state roads.

Purpose The state cannot directly tax the federal government, but it can tax contractors who do work for the federal government on the value of the materials they incorporate into the project. The impact of the sales and use tax on materials is indirectly passed on to the federal government. The exemption for labor and services for local road construction helps reduce the cost for local jurisdictions.

Taxpayer savings *(\$ in millions):*

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |
|-------------|-----------|-----------|-----------|-----------|

| Local Taxes | \$65.375 | \$65.793 | \$67.109 | \$67.639 |

Repeal of exemption Repealing this exemption would increase revenues. Most of the impact is from local government, which would be taxed on the total contract amount. However, the federal government would not be taxed. Keep in mind that the federal government no longer owns any roads.

Potential revenue gains from full repeal *(\$ in millions):*

82.04.050(11) - Feed and seed

Description The definition of retail sales excludes sales of feed and seed used in the commercial production of any agricultural commodity. The same statute exempts feed and seed sold to landowners that participate in specified federal conservation and habitat protection programs or a cooperative habitat agreement with the Washington State Department of Fish and Wildlife.

Purpose To support the agricultural industry. Also, feed and seed are similar to component parts (and therefore are purchased for resale), because they are absorbed into or become an integral part of an agricultural product.

82.04.050(11) - Fertilizer and chemical sprays

Description The definition of retail sales excludes sales of chemical sprays and washes for the post-harvest treatment of fruit, sales of fertilizer and spray materials when used in the commercial production of any agricultural commodity. The same statute exempts fertilizer and spray sold to landowners that participate in specified federal conservation and habitat protection programs or a cooperative habitat agreement with the Washington State Department of Fish and Wildlife.

82.04.050(11) - Pollination agents

Description The definition of “retail sale” excludes sales of agents for enhanced pollination including insects such as bees to persons or farmers participating in certain habitat development/conservation programs, or farmers for the purpose of producing any agricultural product for sale.

Purpose To aid certain sectors of the agricultural industry reliant on pollination agents to produce agricultural products (such as the alfalfa industry) and make those agricultural sectors more competitive with competitors in other countries.

Assumptions

- Pollination is performed by leaf cutter bees.
- Most farmers rent hives. Rental hives are not subject to sales tax so this exemption covers bees purchased for pollination.
- Most bees are purchased online or from other beekeepers.
- July 1, 2020, effective date, with 11 months of collections in Fiscal Year 2021.

82.04.050(12) - Labor and services used to construct and repair federal government structures

Description Charges made for labor and services in connection with building, repairing or improving new or existing structures for the federal government or a local housing authority is not subject to retail sales and use tax. Also excluded are charges for moving earth and clearing land for these jurisdictions. The contractor must pay retail sales and use tax on materials incorporated into these projects.

Purpose The state cannot directly tax the federal government, but it can tax contractors who do work for the federal government on the value of the materials they incorporate into the project. The federal government indirectly pays the sales and use tax through increased costs from contractors. The exemption for labor and services for local housing authorities helps reduce the cost for local jurisdictions.

82.04.062 - Precious metals and bullion

Description Sales of precious metals and monetized bullion are exempt from retail sales tax.

82.04.192(3)(b)(i) - Digital automated service - Primarily human effort

Description Digital automated services are classified as retail sales and are subject to retailing B&O tax. However, digital goods that primarily represent the application of human effort, such as a digitally delivered engineering report prepared primarily through the application of an engineer's effort, are excluded from this definition of digital goods and are instead subject to the service and other activities B&O tax, as long as the human effort originated after the customer requested the service.

This exclusion does not apply to amounts received by photographers for taking photographs transferred digitally to the customer, as long as the customer is the end user. These payments are considered to be for the sale of digital goods, and are subject to retail sales tax and retailing B&O tax.

Purpose To protect the sales and use tax base, establish certainty in the tax code, maintain conformity with the streamlined sales and use tax agreement, and encourage economic development.

| Local Taxes | \$0.000 | \$80.539 | \$94.428 | \$101.486 |

Assumptions

- Estimate reflects the gain from repealing the sales tax exemption less the B&O change from businesses paying the retailing rather than service rate.
- Amounts in this estimate only include 70% of the income reported under service and other activities B&O tax by businesses with NAICS starting with 523 or 525. These amounts could include income from sources not relevant to this estimate. Additionally, relevant results which do not meet the above criteria are not included in this estimate.
- Growth rate used is the average growth rate for this income for the last five years.
- 11 months of collections in Fiscal Year 2021.

82.04.192(3)(b)(ix) - Digital automated service - Online education

Description

Digital automated services are retail sales. However, the definition of digital automated services excludes online educational programs provided by a:

- Public or private elementary or secondary school; or,
- An institution of higher education as defined in sections 1001 or 1002 of the federal higher education act of 1965 (Title 20 U.S.C. Secs. 1001 and 1002), as existing on July 1, 2009. An online educational program must be encompassed within the institution's accreditation.

As a result, charges for online educational programs, as described above, are not subject to retail sales tax.

Purpose

Decrease taxes for online educational programs.

| Local Taxes | \$0.000 | Minimal | Minimal | Minimal |

Assumptions

- Estimate reflects the gain from repealing the sales tax exemption less the B&O change from businesses paying the retailing rather than service rate.
- Charges for online educational programs at institutions of higher education are included in tuition costs. Tuition costs are subject to service and other B&O tax, not subject to retail sales tax. There is no benefit to students of qualifying higher education institutions.
- There are minimal charges to students for online educational programs provided by public and private elementary schools.
- As a result of the assumptions above there are minimal taxpayer savings.

82.04.192(3)(b)(xiii) - Digital automated service - Advertising services

Description

Digital automated service are retail sales. However, the definition of digital automated services excludes advertising services. Advertising services means:

- All services directly related to the creation, preparation, production, or the dissemination of advertisements;
- Advertising services include layout, art direction, graphic design, mechanical preparation, production supervision, placement, and rendering advice to a client concerning the best methods of advertising that client's products or services;
- Advertising services also include online referrals, search engine marketing and lead generation optimization, web campaign planning, the acquisition of advertising space in the internet media, and the monitoring and evaluation of web site traffic for purposes of determining the effectiveness of an advertising campaign; and,
- Advertising services do not include web hosting services and domain name registration.

As a result, advertising services, as described above are not subject to retail sales tax.

Purpose

To decrease costs for advertising services.

82.04.192(3)(b)(xiv) - Digital automated service - Storage, hosting and backup

Description Digital automated services are classified as retail sales, for the purpose of the B&O tax and the retail sales and use tax. However, the mere storage of digital products, digital codes, computer software, or master copies of software is excluded from this definition and is instead subject to the service and other activities B&O tax.

Purpose To protect the sales and use tax base, establish certainty in the tax code, maintain conformity with the streamlined sales and use tax agreement, and encourage economic development.

Taxpayer savings (\$ in millions):

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |
|-------------|----------|----------|----------|----------|
| State Taxes | \$15.453 | \$15.898 | \$16.355 | \$16.826 |
| Local Taxes | \$6.718 | \$6.912 | \$7.111 | \$7.315 |

Repeal of exemption Repeal of this exemption would result in a net increase in revenues, resulting from a decrease in B&O tax revenue and an increase in retail sales tax revenue.

Potential revenue gains from full repeal (\$ in millions):

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |

| Local Taxes | \$0.000 | \$6.336 | \$7.111 | \$7.315 |

Assumptions

- Estimate reflects the gain from repealing the sales tax exemption less the B&O change from businesses paying the retailing rather than service rate.
- 11 months of collection for Fiscal Year 2021.
- One-quarter of taxpayers in the NAICS provide exempted services to their customers; for the retail sales and use tax, the taxpayer count describes the number of businesses we estimate sell exempted services, not the number of customers who benefit from the exemption.
- To estimate the amount of web hosting services purchased by Washington customers, as a percentage of the same for the U.S., the number of Washington Internet users as percentage of the U.S. total was used.
- Similarly, to estimate the amount of web hosting services purchased by U.S. customers, as a percentage of the same worldwide, the number of U.S. Internet users as percentage of the worldwide total was used.
- Amount spent on IT storage spending, as reported by Statista.com, includes cloud storage services. 20% of gross sales for web hosting, file storage and cloud services qualify for the exemption, by meeting the definition of “mere storage,” as required in statute.

| Local Taxes | \$0.000 | \$6.525 | \$7.331 | \$7.551 |

Assumptions

- Estimate reflects the gain from repealing the sales tax exemption less the B&O change from businesses paying the retailing rather than service rate.
- 11 months of collections for Fiscal Year 2021.
- Growth rate used in this estimate is the growth rate for service and other activities, NAICS 541214, for the last four years.
- Data used in this estimate was service and other activities B&O tax amounts reported by businesses assigned NAICS 541214 (Payroll Services). It is possible this amount includes services which qualify for this exemption and unrelated amounts. It is likely payroll processing services are performed by businesses not assigned to this NAICS code, they were not captured in this estimate.
- Data for businesses performing check processing, image processing, survey processing, form processing, and claim processing was not able to be identified by using NAICS codes as many of these services are combined with other activities. Taxable amounts for these services were not included in this estimate and these taxpayers were not included in the taxpayer count.

82.04.213; 82.04.050(11)(b) - Christmas tree production

Description Items purchased for the production of plantation Christmas trees are exempt from retail sales and use tax because plantation Christmas trees are included in the definition of agricultural products. The definition of retail sale in RCW 82.04.050(11)(b) excludes agricultural products.

Purpose To recognize that production of plantation Christmas trees is similar to the production of other agricultural products.

Assumptions

- Christmas trees cost \$5 in taxable expenditures from planting to harvest.
- Christmas tree production/harvest remains consistent from year to year, so estimate assumes no growth.
- There are 250 Christmas tree growers in Washington.
- Approximately 1.5 million Christmas trees harvested in Washington (2016).

82.08.010(1)(a) - Trade-ins

Description The definition of selling price excludes the value of trade-ins. This means sales tax is collected on the price after the value of the trade-in is deducted. To qualify, the used items must be accepted by the vendor and be of "like-kind." For example, a person purchasing a new French horn may trade in a used trombone since both are musical instruments.

Purpose To encourage purchases of new items, especially motor vehicles.

82.08.010(1)(b) - Cash discounts

Description Cash, term, or coupon discounts taken by a purchaser, and not reimbursed to the seller by a third party are not included in the definition of sales price. As a result, sellers may deduct discounts taken by the purchases in determining the amount of retail sales tax due.

Purpose To avoid taxing sellers on income they did not actually receive from purchasers.

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions Although taxpayers who use accrual-based accounting report this deduction and thus, experience savings, the state would not achieve revenue gains if the deduction is repealed. This is because taxpayers using cash basis accounting do not need to use the deduction; they report the actual amount received at the time of sale. Thus, taxpayers who use accrual-based accounting would likely switch to cash basis accounting if the deduction is repealed.

82.08.0206 - Working families tax remittance

Description The working families' tax exemption is an exemption from the prior year's state retail sales tax for eligible persons based on the person's federal earned income tax credit (EITC). However, the "working families' tax exemption" is contingent on the legislature approving the exemption in the state omnibus appropriations act for each fiscal period.

Persons claiming the exemption must apply to the Department of Revenue. The Department will remit exempted amounts to eligible persons who submitted applications. Remittances are equal to 10 percent of the granted federal EITC or \$50, whichever is greater.

An eligible person:

- Is an individual, or an individual and his or her spouse if they file a federal joint income tax return;
- Is eligible for, and is granted, the federal EITC;
- Properly files a federal income tax return as a Washington resident; and,
- Has been a resident of the State of Washington more than 180 days of the year for which the exemption is claimed.

Purpose Results in a less regressive tax system.

82.08.0252 - Sales subject to public utility tax

Description Sales subject to the public utility tax are exempt from retail sales tax. This affects only the distribution or sale of tangible personal property that would otherwise be subject to sales taxes, particularly natural gas, electricity, and water.

Purpose Without the exemption these activities would be subject to both the public utility tax and to sales taxes which may be viewed as double taxation. The public utility tax is considered a tax on consumers of utility services even though the provider of the service pays the tax.

| Local Taxes | \$0.000 | \$291.341 | \$330.790 | \$344.423 |

Assumptions

- 11 months of collections in Fiscal Year 2021 due to July 1, 2020, effective date.
- Estimated tax savings is not a net taxpayer savings (sales tax saved minus public utility tax paid).
- Taxpayer savings reflect only the sales tax amount.
- Impacts 1030 taxpayers.

82.08.02525; 82.12.02525 - Public records copies

Description Charges received by state or local government agencies as reimbursement for the cost of providing copies of public records are exempt from retail sales and use tax.

The exemption applies to documents provided under the Public Records Act when no fee is charged for the record itself, other than the amount necessary to cover the actual costs of providing the document. A maximum fee of \$0.15 per page applies if the agency has not determined the actual cost.

Purpose Supports open government and encourages citizens to seek the information they need from governmental agencies. Prevents agencies from having to collect and remit small amounts of sales tax.

Assumptions

- 75 percent of "other statutory certifying and copy fees" are for copying public records.
- Public records requests fluctuate, calculations reflect a ten year average and future annual amounts are equal.
- State charges equal local charges.
- July 1, 2020, effective date, with 11 months of collections in Fiscal Year 2021.

82.08.0253; 82.12.0345; 82.08.0253(1)(b) – Newspapers

Description The sales of newspapers sold by subscription and at newsstands are exempt from the sales and use tax.

Department of Revenue rules define a newspaper as a publication issued at regular intervals of less than two weeks, printed on newsprint in tabloid or broadsheet format, and without substantial binding.

Purpose In 1935, taxing newspapers was viewed as inhibiting the “freedom of the press.” In addition, the exemption relieved newspaper carriers (mostly youth) from being responsible for collecting and reporting the tax; however, the billing function has been centralized by the publisher.

| Local Taxes | \$0.000 | \$0.691 | \$0.733 | \$0.713 |

Assumptions

- Revenues for the newspaper and subscription industry will continue to decline.
- 11 months of cash collections for the first Fiscal Year, 12 months thereafter.
- Decrease in B&O tax revenue is due to reduction in taxable sales due to higher tax rate (elasticity).

82.08.0254; 82.12.0255 - Constitutionally exempt sales

Description Sales prohibited from taxation under state or federal constitutions receive an exemption from retail sales and use taxes. This "catch-all" provision covers situations not covered by other specific exemptions. The major items in this general exemption include sales:

- Where the final location is out-of-state;
- To the U.S. government; and,
- To Indian tribes and their members in their Indian Country.

Purpose Recognizes the prohibition against taxing the federal government, Indians tribes and their members in their Indian country, or placing a burden on interstate commerce.

82.08.0256; 82.12.0257 - Public utility operating property

Description The sale of operating property used in conducting a utility operation to the state or a local government entity is exempt from retail sales/use tax. Exemption includes properties such as water systems and electrical substations of a public utility.

Exemption requirements include:

- The utility property must be operating as utility property before the sale, and the new owner must continue to operate the property as a utility; and,
- The purchaser of the operating utility property must be a state agency or political subdivision.

Purpose This exemption generally addresses intergovernmental transfers of utility operations as a result of annexations or incorporations. These transfers do not result in financial gain but merely reflect a transfer of assets among jurisdictions.

82.08.02565(1)(c)(ii); 82.12.02565 - M&E on sales of manufactured or compressed natural gas

Description A gas distribution business that manufactures compressed or liquefied natural gas for use as transportation fuel must pay retail sales and use tax on machinery and equipment purchases for use in the manufacturing process. Beginning July 1, 2017, the gas distribution business may apply for a remittance for the retail sales and use tax paid on such equipment. The gas distribution business can only apply for a remittance once a quarter and no remittances are accepted after June 30, 2028.

Assumptions

- Expenditures on machinery and equipment used for research and development and testing related to the manufacturer's manufacturing activities are a small percentage of total machinery and equipment, assumed at two percent.
- Expenditures on machinery and equipment that does not qualify for the exemption, including hand tools equipment with a useful life of less than one year, office equipment, most transportation equipment, computers, software, peripherals not used directly in manufacturing are a sizable percentage of total expenditures, assumed to be 25 percent.
- Due to noncompliance, only 86 percent of taxes owed would be collectable if the exemption were repealed.

82.08.025651; 82.12.025651 - Public research institutions machinery and equipment

Description The sale of machinery and equipment used primarily in a research and development operation at public research institutions is exempt from retail sales and use tax. Qualifying machinery and equipment includes:

- Computer hardware and software;
- Laboratory equipment and instruments;
- Vats, tanks, and fermenters; and,
- Equipment used to control, monitor or operate qualifying machinery.

Purpose Ensures amendments made to the M&E exemption in 2011 would not affect public research institutions.

82.08.025661; 82.12.025661 - Aerospace FAR repair stations

Description Retail sales tax and use tax exemption for new building construction costs to be used by a federal aviation regulation (FAR) part 145 certified repair station that is located in an international airport owned by a county with a population greater than 1.5 million.

The retail sales and use tax exemption applies to building construction costs, including charges for labor and services, and the sale of tangible personal property that will be incorporated as an ingredient or component of such buildings.

The exemption may be requested in a form of remittance. Therefore, all applicable state and local taxes must be paid by a buyer. A person may request a remittance of the local sales and use tax paid after July 1, 2016.

A person may request a remittance of the state sales and use tax paid after the aircraft repair station has been operationally complete for 4 years but no sooner than December 1, 2021. To receive the remittance of state sales and use tax paid, the person has to report at least 100 average employment positions at the establishment, with an average annualized wage of \$80,000, to the employment security department for September 1, 2020, through September 1, 2021.

To qualify for the exemption, the person must also file a complete annual report.

The exemption expires January 1, 2027.

Purpose To create and retain well-paying jobs in the aerospace industry.

82.08.026; 82.12.023; 82.14.030(1) - Natural and manufactured gas

Description Natural and manufactured gas delivered through a pipeline that is subject to the use tax on brokered gas under RCW 82.12.022 is exempt from retail sales and use tax.

Purpose Washington firms that distribute natural gas are subject to public utility tax. Large industrial customers may purchase gas directly from out-of-state suppliers through brokers that are not subject to public utility tax. Starting in 1989, these large industrial customers started paying a use tax equivalent to the public utility tax. This exemption assures that these purchases are subject to the special use tax, rather than sales and use tax.

82.08.0264 - Vehicles sold to nonresidents

Description Motor vehicles, trailers and campers sold to nonresidents for use outside the state are exempt from the retail sales tax. Delivery may take place in Washington, provided the vehicle is:

- Taken directly outside of this state; or,
- Licensed immediately in the state of the purchaser's residence, and not used in Washington for more than three months.

Purpose To eliminate a potential disadvantage for in-state vehicle dealers who compete against dealers in other states. Other purchases by nonresidents are subject to sales tax if delivery occurs within this state, unless the provisions of RCW 82.08.0273 (residents of states with no or low sales taxes) apply.

Taxpayer savings

(\$ in millions):

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |
|-------------|----------|----------|----------|----------|

82.08.0266; 82.08.02665 - Boats sold to nonresidents

Description The sale of watercraft to nonresidents or foreigners for use outside of Washington is exempt from retail sales and use taxes even if delivered in Washington if the craft:

- Requires Coast Guard registration; or,
- Is registered in the state of principal use; and,
- Is not used in Washington for more than 45 days.

Purpose Allowing the buyer to take delivery in Washington without incurring sales and use tax liability helps to encourage purchases by nonresidents and foreigners.

- Assumptions**
- Baby chicks currently cost about 65 cents for a day-old chick and \$9 for an 18-week old pullet.
 - There are no hatcheries in Washington that produce genetically improved chicks on a large scale basis for commercial producers.
 - Most of Washington's commercial egg producers purchase their replacement chicks from out-of-state hatcheries that deliver the chicks to them.
 - Purchases of replacement chicks by Washington commercial laying operations estimated at \$2.5 million.
 - No annual growth.

82.08.0273 - Sales to nonresidents from no or low sales tax states

Description Nonresidents are exempt from Washington retail sales tax on tangible personal property purchased for use outside of Washington. The exemption is in the form of a refund for state sales tax (6.5 percent) only. Qualifying nonresidents must meet the following criteria:

- They reside in a state, possession or Canadian province which levies a sales tax of less than 3.0 percent; or
- Their state of residence allows a similar exemption for Washington residents.

Currently, no state qualifies under this provision of reciprocity. A nonresident may apply for a state sales tax refund once in a calendar year for all purchases made during the prior calendar year.

Purpose To enable Washington sellers, especially along the Oregon border, to compete with merchants in other states that do not levy a retail sales tax, or levy a sales tax with a low rate.

82.08.0279 - Nonresidents' rental vehicles

Description Renting or leasing motor vehicles and trailers to nonresidents for exclusive use in interstate commerce is exempt from the retail sales tax. Nonresidents with places of business both inside and outside of Washington qualify for the exemption if the vehicle is registered and most frequently dispatched, garaged and serviced at a location outside of Washington. The exemption includes vehicles or trailers registered in a different state and have incidental use to transport persons or property between Washington locations.

Purpose To relieve lessors of responsibility for collecting sales tax on the in-state use of rental cars, motor vehicles and trailers by a nonresident motor carrier engaged in interstate commerce and to encourage such businesses to rent or lease in Washington.

82.08.0282; 82.12.0276 - Returnable containers

Description Sales and use of returnable food or beverage containers are exempt from retail sales and use tax. This includes items such as soft drinks, milk, and beer.

Purpose Retailer purchases of nonreturnable food and beverage containers are exempt from sales and use tax because the containers are sold to consumers. This exemption provides comparable treatment for returnable containers that would not otherwise qualify for the resale exemption, since the containers are not technically "sold" to the food or beverage purchaser.

82.08.0287; 82.12.0282 - Ride-sharing vehicles

Description Sales or use of passenger motor vehicles used primarily for commuter ride-sharing or transportation of persons with special needs are exempt from retail sales and use taxes. The vehicles must be used as ride-sharing vehicles for thirty-six consecutive months beginning from the date of purchase or first use.

To qualify under commuter ride sharing, the vehicle must be carrying five or six passengers and be operated in a county that has adopted and implemented a commute trip reduction plan. Additionally, one of the following must apply:

- Vehicle is operated by a public transportation agency for the general public;
- Vehicle is used by a major employer as an element of its commute trip reduction program; or,
- Vehicle is owned and operated by individual employees and is registered with either the employer or with a public transportation agency servicing the area where the employees live or work.

Purpose To encourage ride-sharing for fuel conservation purposes, to help reduce traffic congestion, and to assist in addressing the requirements of the Commute Trip Reduction Act, the Growth Management Act, the Americans with Disabilities Act, and the Clean Air Act.

82.08.0288; 82.12.0283 - Leased irrigation equipment

Description Leases of irrigation equipment are exempt from retail sales and use tax, if:

- The lessor purchased the equipment to irrigate land they control;
- The lessor paid sales or use tax on the equipment;
- The equipment is attached to the land;
- The equipment is an incidental part of the land lease; and,
- The equipment is not used in the production of marijuana.

Purpose Normally, persons who lease tangible personal property pay sales tax to the lessor. However, in this instance, the owner of the land previously paid the sales tax on the equipment. For sales tax to apply at the lessee level, the original acquisition of the equipment by the lessor would be an exempt sale for resale.

82.08.0293; 82.12.0293 - Food and food ingredients

Description Food and food ingredients purchased for human consumption are exempt from retail sales and use tax. The definition of food and food ingredients excludes alcoholic beverages, tobacco products, marijuana, useable marijuana, and marijuana-infused products.

Exemption does not apply to soft drinks, bottled water, or dietary supplements, and prepared foods, except when furnished, prepared, or served as meals to certain qualified low-income, disabled, or senior citizens as described in RCW 82.08.0293(3).

82.08.0294; 82.12.0294 - Aquaculture feed

Description Persons who raise fish in confined rearing areas for sale are exempt from retail sales and use tax on purchases of feed.

Purpose To provide equivalent treatment with farmers whose purchases of feed for their livestock are exempt from sales and use tax. This recognizes that aquaculture and agriculture are similar activities.

82.08.0297; 82.12.0297 - Food stamp purchases

Description Food items that are taxable in Washington and eligible for purchase with food stamps issued by the U.S. Department of Agriculture are exempt from retail sales and use tax. This includes products such as:

- Soft drinks;
- Vitamins; and,
- Cold, prepared deli items not considered as food items for home consumption.

Purpose Federal law requires states to exempt food stamp purchases from sales tax as a condition of participation in the federal food stamp program.

Taxpayer savings

82.08.0298; 82.12.0298 - Commercial fishing boat fuel

Description Diesel fuel used by vessels engaged in commercial deep-sea fishing or in the operation of commercial charter fishing boats is exempt from retail sales and use taxes. These vessels must regularly operate outside of state territorial waters and the gross income from fishing must be at least \$5,000 annually.

Purpose Recognizes that the majority of such fuel is consumed outside of the state.

| Local Taxes | \$0.000 | \$0.557 | \$0.631 | \$0.651 |

Assumptions

- Commercial fishing fuel usage is approximately 4,977 gallons/year/vessel.
- Charter fishing vessel fuel usage is approximately 13,201 gallons/year/vessel.
- Fuel usage remains constant; no annual growth.
- July 1, 2020, effective date, with 11 months of collections in Fiscal Year 2021.

82.08.0299 - Lodging for homeless people

Description Emergency lodging provided to homeless persons under a shelter voucher program is exempt from sales tax. The exemption applies for a period up to 30 consecutive days per recipient, the voucher must be given by a local government agency or private organization providing emergency food and shelter for homeless persons.

Purpose To reduce the cost of providing housing services for the homeless.

| Local Taxes | \$0.000 | \$0.017 | \$0.021 | \$0.021 |

Assumptions

- Homelessness was decreasing until 2013 but has increased since then.
- County Coordinated Entry programs provide emergency lodging vouchers.
- Organizations like Catholic Community Services provide emergency housing but do not use vouchers anymore, they pay directly for hotel/motel rooms.
- City of Seattle budgeted \$190,000 for its emergency housing voucher program, the rest of the state is similar for \$380,000 total.
- Average voucher is \$80-\$100.
- Due to the 2 percent state shared hotel motel tax, the state impact is based on overall rate of 4.5 percent and the local impact is based on 4.826 percent rate.
- July 1, 2020, effective date with 11 months collections in Fiscal Year 2021.

82.08.0317 - Vehicle sales to tribal members

Description Motor vehicles purchased by a tribe or an enrolled member of a federally recognized tribe are exempt from sales tax.

In order to qualify, the buyer must provide to the seller:

- The buyer’s tribal membership or citizenship card;
- The buyer’s certificate of tribal enrollment; or,
- A letter signed by a tribal official confirming the buyer's tribal membership status.

In addition, the seller must deliver the motor vehicle to the buyer. The seller must document the delivery by completing a declaration form, attesting to the delivery location and the enrollment status of the tribal member. The seller and buyer must sign the form. Delivery requirements do not apply if the sale is made to the tribe or tribal member in their Indian country.

“Indian country” has the same meaning as provided in 1821 U.S.C. Sec. 1151. “Tribe” means a federally recognized tribe. “Tribal member” means an enrolled member of a federally recognized tribe.

Purpose To clarify the documentation and delivery requirements necessary to support tax exempt sales of motor vehicles to tribes or tribal members in their Indian country.

Assumptions

- July 1, 2020, effective date, with 11 months of collections in Fiscal Year 2021.
- Sales receipts grow at the rate forecasted for the Real Estate Excise tax.
- Rental receipts grow at the rate forecasted for property tax revenues.
- If the gross selling price for a mobile home sale was unavailable, the price was assumed to be the median value for all such sales showing nonzero values.
- For mobile home sales with a selling price above the median, 60 percent of the sales price was for the structure; the remaining portion was for land and thus the exemption does not apply.
- Among all sales classified as either single-family residences or mobile homes, 9.4 percent of these were for mobile homes. This assumption was necessary because many mobile homes are classified as single-family residences in the REET data.

82.08.036; 82.12.038 - Core deposits & tire fees

Description The value of returnable products such as batteries, starters, and brakes accepted by vendors for recycling or remanufacturing in a retail or wholesale sale is exempt from retail sales and use taxes. The \$1.00 tire assessment imposed under RCW 70.95.510 is also exempt from sales and use taxes.

Purpose Items returned for recycling or remanufacturing are also exempt as trade-ins, so this exemption is not needed. The exemption for the tire fee assures that sales tax is not charged on another tax.

82.08.037; 82.12.037 - Bad debts

Description A seller may take a credit or refund on sales tax previously paid on “bad debts”. A “bad debt” is a debt that is not collectable. Only the original seller may claim a credit or refund; claims are not assignable to third parties.

Purpose To limit a seller's tax liability on sales for which the seller does not receive payment.

Taxpayer savings (\$ in millions):

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |
|-------------|---------|---------|---------|---------|
| State Taxes | \$6.610 | \$6.980 | \$7.362 | \$7.772 |
| Local Taxes | \$2.870 | \$3.030 | \$3.200 | \$3.380 |

Repeal of exemption Repealing this exemption would increase revenues.

Potential revenue gains from full repeal (\$ in millions):

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |
|-------------|---------|---------|---------|---------|
| State Taxes | \$0.000 | \$6.400 | \$7.362 | \$7.772 |
| Local Taxes | \$0.000 | \$2.780 | \$3.200 | \$3.380 |

Assumptions

- Bad debt claims can only be taken by the original seller, they cannot be assigned or assumed by third parties (e.g. banks who purchase the receivables).
- July 1, 2020, effective date with 11 months of cash collections for Fiscal Year 2020.
- Growth rate mirrors the growth rate of sales tax collections reflected in the Economic and Revenue Forecast Council's March 2019 forecast.

82.08.207; 82.12.207 - Standard financial information

Description Qualifying international investment management service companies (IIMS) and their affiliates are exempt from sales and use taxes when they purchase or use standard financial information. The purchases are exempt regardless of how the information is transmitted to the buyer:

- Digital download;
- Over the Internet; or,
- Tangible media, such as a disc or via paper.

A buyer may claim the exemption on no more than \$15 million in purchases per calendar year. This exemption expires July 1, 2031.

Purpose To exempt certain standard financial information, purchased by international investment management companies, from sales and use taxes.

82.08.700; 82.12.700 - Boats sold to nonresidents - In-state use permit

Description A retail sales and use tax exemption is provided for sales to a nonresident of vessels at least 30 feet in length from a Washington dealer if the purchaser displays a valid use permit. The purchaser must make an irrevocable election to take the exemption authorized under this statute or the exemption in either RCW 82.08.0266 or 82.08.02665. The permit issued under this statute is valid for 12 consecutive months from the date of issuance and is not renewable.

Purpose To increase the time a boat owned by a nonresident can remain in Washington waters. This helps to encourage purchases of new boats from Washington dealers and also increases tourism.

82.08.809; 82.12.809 - Alternative fuel vehicles

| Description | <p>RCW 82.08.809 and 82.12.809 provide a sales and use tax exemption for sales of new passenger cars, light duty trucks, and medium duty passenger vehicles which:</p> <ul style="list-style-type: none"> - Are exclusively powered by a clean alternative fuel; or, - Use at least one method of propulsion that is capable of being recharged from an external source of electricity and are capable of traveling at least thirty miles using only battery power. <p>For sales through June 30, 2016, the price of the vehicle must be \$35,000 or less to qualify for the exemption. For lease agreements signed on or after July 15, 2015, lease payments are exempt if the fair market value of the vehicle is \$35,000 or less at the inception of the lease. For lease agreements signed before July 1, 2015, lease payments are exempt regardless of the fair market value of the vehicle.</p> <p>Beginning July 1, 2016, the sales and use tax exemption is expanded to qualifying vehicles whose lowest manufacturer's suggested retail price for the base model are less than \$42,500, as determined by the Department of Licensing.</p> <p>The exemption is narrowed to a maximum of \$32,000 of a vehicle's selling price or the total lease payments made plus the selling price of the leased vehicle if the original lessee purchases the leased vehicle.</p> <p>The exemption expires when the cumulative number of qualified vehicles titled in the state reaches 7,500, as determined by the Department of Licensing. The exemption expires effective after the last day of the calendar month immediately following the month the Department of Revenue (Department) receives notice from Department of Licensing that this vehicle count has been reached. The Department must provide notice on its website of the expiration of the exemption. All leased vehicles that qualified for the exemption before the expiration continue to be exempt from sales tax through the remainder of the lease up to the \$32,000 maximum amount.</p> <p>Every six months, beginning the last day of July 2016, the Department must report to the transportation committees of the Legislature the cumulative number of qualifying vehicles titled in the state and the corresponding dollar amount of exempted state retail sales and use tax since July 15, 2015.</p> <p>This exemption expires July 1, 2019, if the cumulative number of qualified vehicles mentioned earlier is not reached prior. The exemption expired on May 31, 2018, due to the cumulative number of qualified vehicles being reached in March 2018 and the Department notified the following month.</p> | | | | | | | | | | | | | | | |

82.08.809; 82.12.809 - Alternative fuel vehicles

Description A portion of the sale price of certain new or used alternative fuel vehicles is exempt from retail sales and use tax.

For the purposes of this description, “alternative fuel vehicle” means passenger cars, light duty trucks, and medium duty passenger vehicles which either:

- Are exclusively powered by a clean alternative fuel; or,
- Use at least one method of propulsion that is capable of being recharged from an external source of electricity and are capable of traveling at least thirty miles using only battery power.

For the purposes of this description, “sale price” means either:

- The total price of the vehicle plus trade in at the time of purchase; or,
- For leased vehicles, the total lease payments made on the lease, plus the purchase price of the vehicle if the original lessee purchases it.

New alternative fuel vehicles with a selling price up to \$45,000 qualify for this exemption. The exempt amount is determined as follows:

- August 1, 2019, through July 31, 2021, up to \$25,000 of the sale price is exempt;
- August 1, 2021, through July 31, 2023, up to \$20,000 of the sale price is exempt;
- August 1, 2023, through July 31, 2025, up to \$15,000 of the sale price is exempt.

For new leased vehicles, the same dollar caps and timelines apply as above.

However, the tax exemption is taken against the total lease payments made plus the selling price of the leased vehicle, if the original lessee purchases the leased vehicle.

Used alternative fuel vehicles with a selling price up to \$30,000 also qualify for this exemption. The first \$16,000 of the selling price or total lease payments made plus the selling price of the leased vehicle, if purchased by the original lessee, is exempt from sales and use tax.

For new and used vehicles, the qualification period end date is August 1, 2025. All vehicle leases signed by the qualification period end date continue to be exempt from retail sales tax until August 1, 2028.

Purpose To encourage the sale of alternative fuel vehicles.

Assumptions

- July 1, 2020, effective date, with 11 months of collections in Fiscal Year 2021.
- Sales of qualifying vehicles will grow by an average of 20 percent per year.
- Average lease term is 36 months. To adjust for leases signed over the course of a fiscal year, sales tax is allocated over four fiscal years with six months of payments reflected in the first and fourth year and 12 months of payments reflected in the second and third year.
- Average residual value of the leased vehicle is 55 percent.
- Exemption began August 1, 2019; taxpayer savings in Fiscal Year 2020 reflect a 10 month impact.

82.08.810; 82.12.810 - Air pollution control facilities

Description Construction of air pollution control facilities at a thermal electric generating facility placed in operation after 1969 and before July 1, 1975, is exempt from retail sales and use tax. The exemption is contingent upon production levels for the plant maintained above the 20 percent annual capacity factor between 2002 and 2023. All or a portion of the tax previously exempted must be repaid if production falls below this level.

Purpose To encourage installation of air pollution control devices at the Centralia coal fired thermal generating plant.

82.08.811; 82.12.811 - Coal for thermal generating plants

Description Purchases of coal used at a thermal electric generating facility placed in operation after December 3, 1969, and before July 1, 1995, are exempt from retail sales and use tax. The exemption is contingent upon the following:

- Owners of the plant demonstrate to the Department of Ecology that progress is being made to install the necessary air pollution control devices; and,
- The facility has emitted no more than 10,000 tons of sulfur dioxide during the previous 12 months.

Purpose To encourage installation of air pollution control devices at the Centralia coal-fired thermal generating plant.

82.08.816; 82.12.816 - Electric vehicle battery charging stations

Description Sales of batteries, fuel cells and infrastructure for electric or hydrogen vehicles are exempt from retail sales and use tax. The exemption is available on the sale of or charge made for:

- Batteries and fuel cells for electric and hydrogen vehicles;
- Labor and services rendered in respect to installing, repairing, altering, or improving electric vehicle batteries or fuel cells for hydrogen vehicles;
- Labor and services rendered in respect to installing, constructing, repairing, or improving electric and hydrogen vehicle infrastructure; or,
- Tangible personal property that will become a component of electric or hydrogen vehicle infrastructure during the course of installing, constructing, repairing, or improving electric or hydrogen vehicle infrastructure.

This exemption also includes hydrogen fueling stations and renewable hydrogen production facilities. Renewable hydrogen means hydrogen produced using renewable resources both as the source for hydrogen and the source for the energy input into the production process. These exemptions expire July 1, 2025.

Purpose To encourage the use of battery and hydrogen electric vehicles through the sale of electric vehicle batteries and fuel cells, as well as the installation of electric and hydrogen vehicle infrastructure.

Assumptions

- Sales growth for smaller recharging infrastructure is 10 percent.
- National Renewable Energy Laboratory published the Hydrogen Station Cost Estimate report in 2013. Based on the report, the average cost for a hydrogen fueling station is approximately \$3 million.
- California Air Resources Board published the 2018 Annual Evaluation of Fuel Cell Electric Vehicle Deployment & Hydrogen Fuel Station Network Development. As of 3/26/19, California has 39 fueling stations with an

additional 25 developing. In 2015, 5 fueling stations were opened. This number jumped to 19 additional stations built in 2016. There are no hydrogen fuel stations in Washington, but with California's implementation, Washington would most likely install one fuel station a year beginning in Fiscal Year 2021.

- Oregon Public Broadcasting article dated April 15, 2019, states Douglas County public utility district (PUD) plans on purchasing a 2-3 megawatt electrolyzer to split water molecules to make hydrogen. PUD estimates the cost of the electrolyzer at \$3 million and the purchase to occur in 2-3 years.
- The Department is unaware of any plans for a renewable hydrogen production facility besides Douglas PUD's project.
- The impact could increase significantly if a facility is built.

82.08.820; 82.12.820 - Warehouses and grain elevators more than 200,000 square feet

Description Certain warehouses and grain elevators are eligible for an exemption in the form of a remittance of the state retail sales and use tax paid on purchases of machinery and on materials and labor for construction of these facilities. The remittance does not include local sales and use taxes.

Warehouses more than 200,000 square feet in size receive an exemption equal to:

- 100 percent of the state retail sales and use taxes paid on construction; and,
- 50 percent of the state retail sales and use taxes paid on equipment, including materials handling and racking equipment.

Grain elevators receive an exemption of state retail sales and use taxes paid based on capacity of the facility:

- 50 percent exemption with bushel capacity of 1 million, but less than 2 million;
- 100 percent exemption with bushel capacity of 2 million or more.

Purpose To encourage construction of warehouses and grain elevators in Washington and to increase the competitiveness of warehouse and distribution industry in the state.

82.08.830 - Nonprofit camps and conference centers

Description Items sold by nonprofit organizations at camps or conference centers are exempt from retail sales tax if:

- The sales takes place on property exempt from the property tax; and,
- The income from the sale is exempt from B&O tax.

The exemption covers items such as lodging, parking, food and meals, books, tapes and other products available only to participants of the camp or conference center event and not to the general public.

82.08.834; 82.12.834 - Regional transit authority sales and leasebacks

Description Lease payments or options to purchase at the conclusion of a lease in conjunction with a sale and leaseback arrangement involving a regional transportation authority (RTA) are exempt from retail sales and use taxes. Qualification requires that the seller/lessee previously paid any tax otherwise due on the original acquisition of the tangible personal property.

Purpose A sale and leaseback arrangement is a financing mechanism used by the RTA to acquire trains, buses, and transportation facilities. This exemption provides tax relief to the RTA.

Assumptions

- Average for expenditures for medical supplies, veterinary and custom services for livestock is \$70 million.
- 50 percent of these expenditures are for livestock medicine.
- Growth rate of zero percent.
- Eleven months of collections in Fiscal Year 2021 with July 1, 2020 effective date.

82.08.890; 82.12.890 - Livestock nutrient management

Description Equipment used for livestock nutrient management, including the maintenance and repair of equipment, as well as the installation in a facility, are exempt from retail sales and use tax. The exemption applies to purchases made after the management plan is certified pursuant to the law. The facilities and equipment must be used exclusively for the handling and treatment of livestock manure, including repair and replacement parts for such equipment.

Purpose To support the Washington dairy industry and livestock feeding operations.

- Assumptions**
- 480 dairy farms in Washington State located in 29 counties.
 - Over \$1 million specifically deducted for livestock nutrient management by 9 businesses in Fiscal Year 2018.
 - Over 900 businesses claim exempt sales to farmers.
 - Half of the businesses sell exempt nutrient management equipment to dairy farmers.
 - No growth due to varying data and a fairly stable dairy industry.

82.08.900(a) – Biogas from a landfull processing equipment

Description Persons purchasing equipment necessary to process biogas from a landfill into marketable coproducts, including but not limited to biogas conditioning, compression, and electrical generation equipment, or to services rendered in respect to installing, constructing, repairing, cleaning, altering, or improving equipment necessary to process biogas from a landfill into marketable coproducts are exempt from retail sales and use tax.

A person claiming this exemption must keep records necessary for the department to verify eligibility and provide an exemption certificate to the seller.

Purpose To support landfills in order to stimulate investment in biogas capture and conditioning, compression, nutrient recovery, and use of renewable natural gas for heating, electricity generation, and transportation fuel.

| Local Taxes | \$0.000 | \$0.113 | \$0.135 | \$0.135 |

- Assumptions**
- Cost of landfill gas (LFG) projects depend on a number of factors, including the size, location, and layout of the landfill.
 - Major capital outlays include designs, permits, and installation.
 - Major operation and maintenance costs include parts and materials, financing, and administration.
 - About 25 landfills have LFG collection systems, 17 quantify gas collection.
 - Most landfills "flare" the methane gas. Three landfills use renewable natural gas (RNG) for vehicle fuel and four generate electricity by reciprocating engines.
 - The four electricity generating landfills have a capacity of about 35,000 kilowatts.
 - Typical maintenance costs \$180 per kilowatt per year.
 - Of the three landfills that use RNG, two landfills use a pipeline injection process, one is local use.
 - July 1, 2020, effective date, with 11 months of collections in Fiscal Year 2021.

82.08.900(b); 82.12.900(b) - Anaerobic digesters

Description Persons establishing or operating anaerobic digesters are exempt from retail sales and use tax on certain purchases, including labor charges. The exemption covers construction, repairs, cleaning, altering or improvements to an anaerobic digester and the equipment necessary to process the biogas into marketable coproducts.

Persons purchasing equipment necessary to process biogas from a landfill into marketable coproducts, including but not limited to biogas conditioning, compression, and electrical generation equipment, or to services rendered in respect to installing, constructing, repairing, cleaning, altering, or improving equipment necessary to process biogas from a landfill into marketable coproducts are also exempt from retail sales and use tax.

A person claiming this exemption must keep records necessary for the department to verify eligibility and provide an exemption certificate to the seller.

82.08.962(1)(a)-(1)(c)(i)(A); 82.12.962(1)(a)-(1)(c)(i)(A) - Renewable energy equipment capable of generating not less than 1,000 watts of electricity

Description

A sales and use tax exemption is available for machinery and equipment used directly in generating electricity from wind, sun, fuel cells, biomass energy, tidal or wave energy, geothermal resources, anaerobic digestion, technology that converts otherwise lost energy from exhaust, or landfill gas as the principal source of power. In order to qualify for the exemption, the purchaser must use the machinery and equipment to develop a facility capable of generating at least one thousand watts of electricity. The exemption also includes sales of or charges made for installation labor and services of qualifying machinery and equipment.

From July 1, 2009, through June 30, 2011, qualifying purchases were eligible for a 100 percent exemption. Beginning July 1, 2011, through December 31, 2019, qualifying purchases are eligible for a 75 percent exemption in the form of a refund to the purchaser.

From October 1, 2017, through December 31, 2019, the exemption does not apply to sales of solar energy systems, unless the system is capable of generating more than 500 kW of electricity.

Starting on January 1, 2020, the exemption changes to the following:

- 50 percent of state and local sales and use tax paid if the Department of Labor and Industries certifies the project included procurement from and contracts with women, minority, or veteran-owned businesses. Project will still qualify for 50 percent exemption if it's proven the developer made a good faith effort to meet the standard. This exemption includes solar energy systems capable of generating more than 100 kilowatts but less than 500 kilowatts of electricity.
- 75 percent of state and local sales and use tax paid if the Department of Labor and Industries certifies the project meets the standards stated at the 50 percent level and compensates workers at prevailing wage rates determined by local collective bargaining determined by the Department of Labor and Industries.
- 100 percent of the state and local sales and use tax paid if the Department of Labor and Industries certifies the project is developed under a community workforce agreement or project labor agreement.

The installation of the qualifying machinery and equipment must commence after January 1, 2020, and be completed no later than December 31, 2029.

The exemption expires January 1, 2030.

Purpose

To support production of renewable energy sources.

82.08.962(1)(a)-(1)(c)(i)(A); 82.12.962(1)(a)-(1)(c)(i)(A) - Renewable energy equipment capable of generating not less than 1,000 watts of electricity

Assumptions

- July 1, 2020, effective date, with 11 months of collections in Fiscal Year 2021.
- U.S. Energy Information Administration provided a report stating the growth of the renewable sector is estimated to be between 6 percent and 17 percent.
- Utilized 10 percent growth rate for renewable energy sales tax exemption.
- Historically, the Department of Revenue has received a large remittance for a renewable energy project approximately every five years; so, another large project will likely be completed by the end of Calendar Year 2024 with the tax refund remitted in Fiscal Year 2025.
- Small projects will meet the standards to achieve a 75 percent sales and use tax exemption.
- Large projects will have time to complete a community workforce or project labor agreement to meet the 100 percent sales and use tax exemption.

82.08.962(1)(c)(i)(B); 82.12.962(1)(c)(i)(B) - Solar energy equipment capable of generating more than one hundred kilowatts AC but no more than five hundred kilowatts AC of electricity

Description Beginning with projects installed after January 1, 2020, solar energy systems capable of generating more than 100 kilowatts (kW) but no more than 500 kW of electricity are eligible for an exemption in the form of a remittance of the state and local retail sales tax paid on purchases of machinery and equipment used directly to generate electricity, and labor and services rendered to install such machinery and equipment.

The Department of Labor and Industries must certify the project has met certain wage and labor requirements under RCW 82.08.962 and 82.12.962, and must provide the following documentation to the Department as part of the application in order to qualify for the remittance:

- A copy of the contractor's certificate of registration in compliance with chapter 18.27 RCW;
- The contractor's current state unified business identifier number;
- A copy of the contractor's proof of industrial insurance coverage for the contractor's employees working in Washington as required in Title 51 RCW;
- Employment security department number as required in Title 50 RCW; and, a state excise tax registration number as required in Title 82 RCW;
- Documentation of the contractor's history of compliance with federal and state wage and hour laws and regulations.

Installation of qualifying machinery and equipment must be completed before January 1, 2030, to qualify for the remittance.

Purpose To support production of renewable energy sources.

82.08.962(1)(e); 82.12.962(1)(e) - Solar energy equipment capable of generating no more than one hundred kilowatts AC of electricity

Description

Beginning July 1, 2019, a retail sales and use tax exemption is available on purchases of machinery and equipment, and the labor and services rendered to install such machinery and equipment, used to generate less than 100 kw electricity.

To qualify for the exemption, the seller must meet the following requirements at the time of sale:

- Has obtained a certificate of registration in compliance with chapter 18.27 RCW;
- Has obtained a current state unified business identified number;
- Possesses proof of industrial insurance coverage for the contractor's employees working in Washington as required in Title 51 RCW; employment security department number as required in Title 50 RCW; and, a state excise tax registration number as required in Title 82 RCW;
- Has had no findings of violation of federal or state wage and hour laws and regulations in a final and binding order by an administrative agency or court of competent jurisdiction in the past twenty-four months.

To qualify for this exemption, the buyer must provide the seller with an exemption certificate, as required by the Department.

Installation of qualifying machinery and equipment must be completed before January 1, 2030, to qualify for the exemption.

Purpose

82.08.965; 82.12.965 - Semiconductor materials manufacturing after \$1 billion investment - construction costs

Description A retail sales and use tax exemption is available to manufacturers of semiconductor materials who construct new buildings, or parts of new buildings used for qualified manufacturing activities. The exemption is contingent upon commencement of commercial operations by a new semiconductor material fabrication facility with an investment in new buildings and equipment amounting to at least \$1 billion dollars.

The investment criterion has not been met, and is unlikely to occur during the forecast period of this study. If the exemption does become effective, it will expire 12 years after the effective date.

Purpose To retain and attract semiconductor firms in Washington.

82.08.9651; 82.12.9651 - Semiconductor materials manufacturing - gases and chemicals

Description An exemption from retail sales and use tax is provided to manufacturers and processors for hire on purchases of gases and chemicals used to produce semiconductor materials. Manufacturers of silicon solar wafers, silicon solar cells, thin film solar devices, solar grade silicon, or compound semiconductor solar wafers also qualify for this exemption.

A person claiming the exemption under this section must file a complete annual tax performance report.

Any person who has claimed the preferential tax rate under this section must reimburse the department for fifty percent of the amount of the tax preference under this section, if the number of persons employed by the person claiming the tax preference is less than ninety percent of the person's three-year employment average for the three years immediately preceding the year in which the preferential tax rate is claimed.

This exemption expires December 1, 2028.

Purpose To encourages the retention of existing semiconductor firms in Washington and attracts similar businesses to the state.

82.08.986; 82.12.986 - Data center equipment and infrastructure

Description There is a retail sales and use tax exemption on qualified purchases of eligible server equipment and eligible power infrastructure for data centers that are located in a rural county. The exemption also includes charges for labor and services associated with installation of the equipment and power infrastructure.

Requirements to qualify:

- Facility must meet employment and facility size criteria;
- Facility is located in a rural county as defined in RCW 82.14.370; and,
- Commencement of construction must occur:
 - After March 31, 2010, and before July 1, 2011; or,
 - After March 31, 2012, and before July 1, 2015; or,
 - After June 30, 2015, and before July 1, 2025.

This exemption is limited to eight data centers that begin construction between July 1, 2015, and July 1, 2019, and a total of twelve data centers through July 1, 2025.

This exemption expires January 1, 2026.

Purpose To promote economic development and maintain the state's leadership in technology. It also provides job growth to rural communities in Washington.

82.08.990 - Interstate commerce - Import and export shipments

Description Tangible personal property imported to or exported from the U.S. is exempt from retail sales tax. This clarifies, in state statute, the U.S. Constitutional prohibition against taxation of interstate commerce. The exemption does not generally apply to property used, processed or handled within the state.

Purpose Codifies the Department’s historical sales tax treatment of imports and exports as reflected in WAC 458-20-193C. This statute provides certainty and clarity concerning taxation of property in the process of international shipment and is not dependent on future court interpretations of the constitutional limitations on the taxation of imports and exports.

82.08.996, 82.12.996 - Battery powered electric vessels

- Description** Retail sales and use tax does not apply on sales of:
- New battery-powered electric marine propulsion systems with a continuous power greater than 15 kilowatts; and,
 - New vessels equipped with battery-powered electric marine propulsion systems with a continuous power greater than 15 kilowatts.

Battery-powered electric marine propulsion systems are fully electric outboard or inboard motors used by vessels, whose sole source of propulsive power is the energy stored in the battery packs. The exemption includes required accessories, such as throttles, displays, and battery packs. Vessels include every new watercraft, other than seaplanes, that are used or capable of being used as a means of transportation on the water.

This exemption expires July 1, 2025.

Purpose To encourage the sale of inboard or outboard battery-powered electric marine propulsion systems for vessels.

82.08.998; 82.12.998 - Weatherization assistance program

Description Sales and use tax does not apply to tangible personal property used in the weatherization of a residence under the low-income residential weatherization program, chapter 70.164 RCW. Exemption only applies to tangible personal property that becomes a component of the residence. Examples of qualifying weatherization materials include, but are not limited to, insulation and sealants, heating and cooling equipment, supplies used to seal and repair ducts. Charges for labor and services used to install these materials are subject to sales tax and use tax.

Purpose To lower the cost of weatherization improvements so more low income households receive assistance under the Department of Commerce’s weatherization program.

82.12.010(7)(c) - Use tax on rental value

Description An out-of-state business that brings property into this state for temporary business use (less than 180 days during a 365 consecutive day period) may compute use tax based on an amount representing the reasonable rental value of the item, rather than the total market value. The usual measure of the use tax is the purchase price or the fair market value at the time of the first use in Washington.

Purpose To encourage out-of-state firms to do business in Washington by allowing them to use equipment in this state on a temporary basis without incurring use tax liability on the full market value.

82.12.0203 - Self-produced fuel (refinery fuel gas)

Description Refinery fuel gas is subject to the following state use tax rate structure in lieu of the 6.5 percent use tax rate:

- 0.963 percent from January 1, 2018, through December 31, 2018;
- 1.926 percent from January 1, 2019, through December 31, 2019;
- 2.889 percent from January 1, 2020, through December 31, 2020; and,
- 3.852 percent from January 1, 2021, and thereafter.

However, the use of refinery fuel gas by an extractor or manufacturer is not subject to local use tax when the fuel is used directly in the operation of the particular extractive operation or manufacturing plant that produced or manufactured the same refinery fuel gas.

Purpose To provide a lower tax rate to improve industry competitiveness.

82.12.0251 - Nonresidents' personal property

Description Use tax does not apply to tangible personal property brought into Washington by a nonresident for temporary use or enjoyment, so long as the item is not used in conducting a non-transitory business activity. This exemption also applies to the use of a motor vehicle that is registered in another state if the vehicle is not required to be registered in Washington and the use of household goods, personal effects and private motor vehicles (excluding motor homes) by residents of Washington (and nonresident military personnel who are stationed in Washington), if the items were acquired and used while the owner was a resident of another state at least 90 days before entering this state.

Purpose To encourage tourism in Washington and to avoid penalizing new residents of Washington by subjecting previously owned items to use tax.

Assumptions

- Average depreciation rate on tangible personal property is 50 percent.
- 50 percent of visitors to Washington locations are already Washington residents and 39.4 percent are repeat visitors.
- 22 percent of visitors drive their own car for three day trips into Washington with two visitors per car.
- July 1, 2020, effective date, with 11 months of collections in Fiscal Year 2021.
- Growth rate is same as retail sales tax growth rate in Economic and Revenue Forecast Council March 2019 forecast.
- Compliance:
 - 13 percent revenue collections in Fiscal Year 2021,
 - 26 percent revenue collections in Fiscal Year 2022,
 - 39 percent revenue collections in Fiscal Year 2023,
 - 52 percent revenue collections in Fiscal Year 2024, and thereafter.

82.12.02595 - Donations to nonprofits and government

Description Tangible personal property donated to nonprofit charitable organizations and state or local governments are exempt from use tax. In addition, labor and services rendered in respect to installing, repairing, cleaning, altering, imprinting, or improving personal property that are donated to nonprofit charitable organizations and state or local governments are also exempt from use tax.

If the reason for the donation was to allow the organization to provide the property to others, the use of the property or service by the recipient is exempt. Donors who provide the property without intervening use are also exempt.

Purpose To allow charitable donations to take place without incurring use tax liability.

82.12.0263 - Extracted fuel

Description Use tax does not apply to the use of biomass fuel by the extractor or manufacturer when the fuel is used directly in the operation of the particular extractive operation or manufacturing plant which produced or manufactured the same biomass fuel.

"Biomass fuel" means wood waste and other wood residuals, including forest derived biomass, but does not include firewood or wood pellets. "Biomass fuel" also includes partially organic by-products of pulp, paper, and wood manufacturing processes.

Purpose Provide a lower tax rate to improve industry competitiveness.

82.12.0265 - Bailed tangible personal property for research and development

Description Use tax does not apply to the value of bailed property when the bailee consumes the property while conducting research and development, experimental and testing activities for a bailor who is not subject to tax. "Bailment" consists of granting the right of possession of tangible personal property to another person (bailee) without transfer of ownership.

Purpose Bailment typically applies to tangible personal property owned by the federal government that is used by federal contractors. The purpose of the exemption is to improve the competitive position of in-state firms competing for the federal contracts by reducing the associated tax burden.

82.12.0266 - Vehicles acquired while in military service

Description Vehicles and trailers acquired and used by Washington residents serving in the armed forces and stationed outside of Washington are exempt use tax. Exemption does not cover persons called to active duty for training of less than six months or for vehicles acquired less than 30 days prior to discharge from the military.

Purpose To support resident armed forces members and to create equity. Under RCW 82.12.0251 nonresidents who bring their vehicles into Washington and establish residency here are exempt from use tax.

82.12.0272 - Display items for trade shows

Description Tangible personal property held for sale and displayed in a trade show for up to 30 days is exempt from use tax. The exemption pertains to items that are actually demonstrated and not simply available for sale as part of the dealer's inventory.

Purpose To stimulate trade and the economy by encouraging trade shows to take place in the state.

82.12.0284 - Computers donated to schools

Description Public and private schools are exempt from use tax for computers donated to them by individuals and businesses. The exemption covers computer hardware, components and accessories, as well as computer software.

Note: a similar exemption is provided for ALL tangible personal property that is donated to a government entity or a nonprofit charitable organization. However, that statute does not cover donations of computers to private, nonprofit educational institutions.

Purpose To encourage individuals and businesses to donate computer equipment to schools.

82.12.035 - Tax paid to other states

Description Items brought into Washington receive a credit against use tax liability for the amount of retail sales or use taxes paid to another state or political subdivision of another state. The credit is limited to the amount of Washington use tax otherwise due.

Purpose The primary function of the use tax is to complement the retail sales tax by asserting tax in situations where the Washington retail sales tax did not apply (purchases made in other states, items bought from private parties, etc.). This credit avoids overtaxing items where tax was paid to another jurisdiction.

82.12.800; 82.12.801; 82.12.802 - Vessel use by manufacturers or dealers

Description These three statutes relate to the application of use tax for firms that manufacture or sell boats and boat trailers. Use tax is exempt on the following uses of a vessel and trailer by the manufacturer or a vessel dealer:

- Testing, setting-up, repairing, remodeling or otherwise making the vessel seaworthy;
- Training of employees who are involved in the manufacturing of the vessel;
- Activities promoting the sale of the vessel;
- Loaning or donating the vessel to nonprofit organizations or governmental entities for limited periods;
- Transporting, displaying or demonstrating the vessel at boat shows; and,
- Delivering, showing and operating the vessel for a prospective buyer.

Any other personal intervening use of the vessel by the manufacturer or a dealer is subject to use tax. However, RCW 82.12.802 provides that the use tax in such instances is to be measured by the reasonable rental value of the vessel for that particular use, rather than the fair market value, if the dealer can demonstrate that the vessel is truly held for sale.

Purpose To clearly identify the uses of vessels and related equipment not considered as taxable "intervening" uses and to provide a basis for the use tax in other taxable situations.

82.14.410 - Local sales tax cap for lodging

Description These statutes exempt charges for lodging from any retail sales/use tax levied by a local government jurisdiction after December 1, 2000, if the local tax would have resulted in a combined tax rate on such charges in excess of 12.0 percent or the rate that would otherwise have applied on December 1, 2000.

Included in the calculation of the maximum tax rate that would have applied on December 1, 2000 are:

- State retail sales tax (6.5 percent);
- City/county local sales tax (1.0 percent);
- Transit district local sales tax (0.6 percent);
- Criminal justice local sales tax (0.1 percent);
- State convention center tax on all hotels rooms in King County except lodging businesses with less than 60 units if located in a town with a population of less than 300 (7.0 percent within Seattle; 2.8 percent elsewhere); and,
- Hotel/motel taxes levied by cities and counties (2.0 percent).

These totaled 15.2 percent for lodging within Seattle and 12.0 percent elsewhere. As a result, lodging at facilities with more than 60 units in Seattle was excluded from the additional local sales tax for transit (rate increased from 0.6 to 0.8 percent in April 2001, then to 0.9 percent in April 2007). Similarly, local sales taxes in parts of Pierce County, Wenatchee, and East Wenatchee have been restricted from new or increased local taxes on lodging.

Purpose To encourage tourist activities in areas with high tax rates.

82.14.430(1) - Local regional transportation vehicles

Description This statute authorizes a regional transportation investment district (RTID) to levy a local retail sales/use tax of up to 0.1 percent to finance regional transportation projects. Subsection (1) exempts motor vehicles from the local tax. However, subsection (2) imposes a special use tax at the same tax rate on motor vehicles purchased by residents of the district.

Purpose This unique tax arrangement enables vehicle dealers located within a RTID to avoid collecting the 0.1 percent local sales tax for regional transportation projects from purchasers of new or used vehicles who reside outside of the district. Conversely, residents of the district who purchase vehicles from dealers located outside of the district will still be subject to the tax.

82.14.450(4) - Local public safety tax on vehicles

Description Counties are authorized to levy a local retail sales and use tax of up to 0.3 percent. One-third of the receipts must be devoted to criminal justice expenditures. The county retains 60 percent of the receipts and the remainder is shared with cities on a per capita basis. Subsection (4) of the statute exempts sales of motor vehicles from the local tax. Similarly, motor vehicles leases for the first 36 months of the lease period are also exempt.

Purpose The exemption acknowledges that local vehicle dealers will have to compete with dealers located in adjacent areas where the local tax is not levied.

82.14.532 - Commercial office space development

Description This bill allows the governing authority of a city, located in a county with a population of less than 1.5 million, to designate a commercial office space development area within the city's urban center. The city may adopt a local sales and use tax remittance program to incentivize the development of commercial office space within the development area. The city may also establish a local property tax reinvestment program to make public improvements that incentivize the development of commercial office space.

Purpose Encourage the development of high quality commercial office space in urban centers outside major metropolitan areas.

This exemption is a result of recent legislation and currently has no participants. It is unknown which taxing districts will offer this exemption and how many developers will build qualifying commercial office space. This exemption is only for local sales tax and therefore a repeal would have no effect on state revenue. The property tax portion of this legislation is not an exemption. Requires local taxing districts to earmark future property taxes collected on a qualifying project, only used for public improvements that incentivize development of commercial office space.

82.16.0496(1)(a)(ii) - Zero emissions buses

Description Retail sales and use tax does not apply on sales of zero emission buses. Zero emission bus means a bus that emits no exhaust gas from the onboard source of power, other than water vapor.

Assumptions

- Per King County website, Metro transit will be acquiring 120 all-electric buses by 2020. The acquisition of the buses is between Fiscal Years 2020 and 2021.
- A news article posted on the Department of Ecology website, states 19 electric buses will be purchased using funds from the Volkswagen settlement. The 19 buses will be purchased by various transit companies.
- "Zero emission bus" includes large transit buses as well as shuttle buses, such as airport parking lot shuttles.
- Effective date for repeal of exemption is July 1, 2020. Assume a full year impact for Fiscal Year 2021. This is due to the large purchase price of the bus and companies want to complete the purchase prior to the repeal of exemption.

Description A qualifying business may apply for a deferral of taxes on the following:

- Redevelopment of a multipurpose sports and entertainment facility for professional ice hockey and basketball league franchises; and,
- Development of an ice hockey practice facility.

The facilities must be owned by the largest city in a county with a population of at least 1.5 million. The recipient must repay, with interest, all deferred state sales and use taxes by June 30, 2023. For local sales and use taxes, the recipient must begin repaying taxes in the first calendar year after the facility becomes operationally complete.

Purpose Increase the fiscal stability of multipurpose sports and entertainment arenas in Washington, thereby strengthen the economic vitality of the communities in which the arenas and practice facilities are located.

|-------------|---------|---------|---------|---------|
| State Taxes | D | D | D | D |
| Local Taxes | D | D | D | D |

Repeal of exemption Repealing this deferral would increase revenues by any taxes not yet deferred at the time of the repeal. Currently, anticipated repayments of deferred local taxes are expected to begin in Fiscal Year 2022 and repayments of deferred local taxes are expected to occur in FY 2023.

Potential revenue gains from full repeal (\$ in millions):

|-------------|---------|---------|---------|---------|
| State Taxes | \$0.000 | D | D | D |
| Local Taxes | \$0.000 | D | D | D |

Assumptions

- Sales/use tax certificate to be issued by July 1, 2019.
- Project consists of a qualifying arena and a qualifying ice hockey practice facility.
- Project will be complete by mid-2021, with the first local tax repayment due on January 1, 2022, and the state tax repayment on June 30, 2023.
- Based on November 2018, IHS Markit forecast for the Federal Funds Rate, the interest rate for state excise tax assessments is 5 percent for each year through CY 2029 when final local tax repayment is due.
- Average local retail sales tax rate for King County is 3.4684 percent.
- Repealing a deferral increases revenues for any taxes not yet deferred at the time of repeal.
- Fiscal Year 2023 includes a loss of interest for deferred taxes.

82.32.580 - Museum for historic autos

Description Provides a sales and use tax deferral for the site preparation and construction of a historic automobile museum that:

- Is owned and operated by a nonprofit organization, corporation, or association;
- Maintains and exhibits at least 500 vehicles to the public.

Deferred taxes on the facility will be repaid beginning the tenth year after the project is operationally complete, with subsequent annual payments for the following nine years.

Purpose Encourage construction of a historic automobile museum in Pierce County.

82.32.760(1)(b) - Sales tax destination sourcing costs

Description Qualifying retailers may take a credit against their state sales tax to mitigate the cost of switching from origin-based sourcing to destination-based sourcing of local sales tax. The credit equals up to \$1,000 of the costs of switching. Retailers can claim credit until the total credit amount is used.

Qualifying retailers must have:

- A physical presence in Washington;
- Less than \$500,000 in gross income annually;
- At least five percent of their gross income from sales delivered to physical locations away from their place of business;
- At least one percent of their gross income from sales delivered to local jurisdictions imposing sales tax other than the one to which the taxpayer reported the most local sales tax; and,
- First claimed the credit by July 1, 2009.

Qualifying retailers are ineligible for the credit if they chose to use the services of a certified service provider for two years at no cost.

Purpose Meet the requirement of the Streamline Sales and Use Tax Agreement to help small retailers transition from origin-based sourcing to destination-base sourcing of local sales tax.

82.32.865; 88.02.620; 88.02.570 - Nonresident entity vessel owners

Description This exemption allows a nonresident vessel owner that is not a natural person (entity-owned) to receive the nonresident vessel permit under RCW 88.02.620, if certain conditions are met.

It allows a nonresident that is not a natural person to obtain a nonresident vessel permit on or before the sixty-first day of use in Washington. Additional requirements for a nonresident vessel owner that is not a natural person are:

- The vessel must be between 30 and 164 feet in length;
- No Washington State resident is a principal of the nonresident person; and,
- The Department of Revenue has provided the nonresident vessel owner written approval authorizing the permit as defined.

This exemption expires July 1, 2026.

Purpose To expand the economy of the maritime industry in Washington.

82.34.050(2); 82.34.060(2) - Pollution control facilities

Description This exemption allows a credit against state B&O, public utility or use taxes for previously paid taxes and/or in lieu of accepting the tax exemptions. Construction of required pollution control facilities associated with approved applications received between July 30, 1967, and November 30, 1981, were exempt from state retail sales/use tax.

Purpose To encourage abatement of pollution and to compensate Washington firms for the costs of upgrading pollution control facilities.

82.60.040; 82.60.049 - Rural county deferral

Description Certain businesses are eligible for a deferral of retail sales and use tax on charges for the construction, expansion, or renovation of facilities and purchases of eligible machinery and equipment when those projects are located in a county with high unemployment or in a Community Empowerment Zone (CEZ). The deferral becomes a waiver of the tax if the business maintains qualified business activities for eight years.

Eligible business activities include:

- Research and development; and,
- Manufacturing for purposes of this deferral, manufacturing also includes conditioning of vegetable seeds and activities performed by commercial testing laboratories.

The deferral program expires July 1, 2020.

Purpose Encourages manufacturing, research and development, and job creation in areas with high unemployment.

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions

- Estimate uses a national level investment in fixed assets data that is adjusted to reflect Washington State investment levels.
- High unemployment counties (21) include: Adams, Clallam, Columbia, Cowlitz, Douglas, Ferry, Franklin, Grant, Grays Harbor, Jefferson, Klickitat, Lewis, Mason, Okanogan, Pacific, Pend Oreille, Skagit, Skamania, Stevens, Wahkiakum, and Yakima. Assumed these counties remain high unemployment counties until this deferral expires.
- Large investments in new structures, machinery, and equipment expenditures that would qualify for the deferral/exemption are difficult to predict; therefore,

82.60.040; 82.60.049 - Rural county deferral

this estimate assumes no large new structures will be built in Washington. Large projects may significantly change the fiscal impact.

- Statewide average local tax rate is 2.8260 percent.
 - Annual growth is equal to the growth in non-residential investment in R&D and private investment in industrial facilities for the U. S. forecasted by IHS Markit and the Economic Revenue Forecast Council's March 2019 forecast.
 - Deferral expires July 1, 2020. No additional applications will be accepted for this deferral after this date, resulting in no further fiscal impact.

82.82.020(2) - Corporate headquarters in a Community Empowerment Zone (CEZ)

Description Qualifying businesses with corporate headquarters located in a community empowerment zone (CEZ), receive a deferral of retail sales and use tax on charges for the construction or expansion of facilities. The deferral becomes a waiver of the tax if the business maintains qualified business activities for eight years.

Qualifying businesses must:

- Employ at least 300 employees at the facility (each employee must earn at least the annual average wage for the state); and,
- Invest at least \$30 million dollars in the facility.

The program is limited to two projects per biennium and only one project per CEZ, per biennium. This deferral/waiver program expires December 31, 2020.

Purpose Encourages investment and job creation in community empowerment zones.

82.85.050; 82.85.060 - Manufacturer's job creation (Invest in Washington) pilot program

Description The Invest in Washington pilot program creates a sales and use tax deferral for two investment projects per calendar year. The deferral applies to sales and use taxes on up to \$10 million in charges for construction, expansion, or renovation of facilities and purchases of eligible machinery and equipment. One project must be in eastern Washington and one project must be in western Washington. Projects approved for a rural deferral (RCW 82.60) cannot receive this deferral; projects cannot receive multiple pilot program deferrals. Program expires January 1, 2026.

Purpose To evaluate the effectiveness of investing sales and use taxes from new investments into workforce training programs that support manufacturing businesses and create jobs and capital investments in Washington.

Chapter 22

Solid Waste Collection Tax

82.18.010(3) - Hazardous or toxic waste

Description The solid waste collection tax under RCW 82.18 does not apply to hazardous or toxic waste. The tax rate is 3.6 percent of the revenue from the collection services.

Purpose To recognize that hazardous material is not every day "solid waste," which is defined as garbage, trash, rubbish, or other material discarded as worthless or not economically viable for further use. Toxic wastes require special services.

Taxpayer savings

(\$ in millions):

| | FY 2020 | FY 2021 | FY 2022 | FY 2023 |
|-------------|---------|---------|---------|---------|
| State Taxes | \$0.565 | \$0.606 | \$0.650 | \$0.696 |
| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Repeal of exemption

| Local Taxes | \$0.000 | \$0.000 | \$0.000 | \$0.000 |

Assumptions

- Of the total solid waste generated, one percent is hazardous or toxic.
- Revenue impact grows 7.2 percent a year.
- 11 months of collections in Fiscal Year 2021 due to July 1, 2020, effective date.

Chapter 23

Timber Excise Tax

84.33.075 - Nonprofit youth organizations

Description Timber harvested on lands owned by a nonprofit, social service organization is exempt from timber tax if the land is exempt from property tax under RCW 84.36.030 and income from the timber sales promotes, operates, and maintains youth programs. The exemption is only available if the youth programs are available to all youth, regardless of race, color, national origin, ancestry or religion.

Purpose Reduces the cost of operating youth programs by nonprofit organizations.

84.33.0775 - Salmon habitat

Description Timber harvested on land that is subject to enhanced aquatic resource requirements as determined by the Department of Natural Resources, such as riparian zones (defined as the interface between land and a river or stream), wetlands, or steep or unstable slopes receives a tax credit against the state portion of the timber excise tax. The credit effectively lowers the total timber excise tax rate from 5.0 percent to 4.2 percent.

Purpose Helps offset the costs to timber owners associated with setting aside larger timber buffers and other forest management practices intended to protect the environment, including salmon habitat.

84.33.140(15) - Designated forest land removal due to natural disaster

Description Compensating tax authorized in this section may not be imposed on land removed from designation as forestland solely as a result of a natural disaster such as a flood, windstorm, earthquake, wildfire, or other such calamity rather than by virtue of the act of the landowner changing the use of the property.

Purpose Relieve a property owner of compensation tax when the property has been subject to a natural disaster.

Vehicle Excise Tax

82.44.010(2) - Excluded vehicles

Description The motor vehicle excise tax does not apply to the following vehicles:

- Campers, as defined in RCW 46.04.085;
- Dock and warehouse tractors and their cars or trailers;
- Equipment not designed primarily for use on public highways;
- Exempt registered vehicles;
- Lumber carriers of the type known as spiders;
- Mobile homes, as defined in RCW 46.04.302;
- Passenger motor vehicles, as described in RCW 82.44.015;
- Travel trailers, as defined in RCW 46.04.623;
- Vehicles not used on the public highways; and,
- Vehicles owned by nonresident military personnel of the armed forces of the U.S. stationed in the State of Washington if the nonresident military member was a nonresident of this state when enlisted into military service.

Purpose The state tax was repealed in 2000 for most vehicles, there are some local motor vehicle excise taxes earmarked for funding of specific local projects and services.
