## **INTRODUCTION**

Residents under RCW 71.09.096 may receive a conditional release to a Less Restrictive Alternative (LRA) placement through a court order. Under the court order, the court will impose conditions necessary to ensure compliance with treatment and the protection of the community. The Special Commitment Center (SCC) and the Resident Community Transition Team (RCTT) closely monitor the resident's treatment progress and activities. Effective monitoring of residents in LRA settings, including the Special Commitment Center's Secure Community Transition Facilities (SCTFs), has greatly reduced the possibility of new sex offenses or other criminal offenses.

This report is submitted in fulfillment of the requirements under RCW 71.09.325(4); which states: "The secretary shall document in writing all violations, penalties, actions by the Department of Social and Health Services to remove persons from a secure community transition facility, and contract terminations. The secretary shall compile this information and submit it to the appropriate committees of the legislature on an annual basis. The Secretary shall give great weight to a service provider's record of violations, penalties, actions by the Department of Social and Health Services or the Department of Corrections to remove persons from a secure community transition facility, and contract terminations in determining whether to execute, renew, or renegotiate a contract with a service provider."

This report provides a summary of violations that occurred between November 01, 2016 and October 31, 2017. It also provides a status report on any violations that were addressed in the previous annual report and not resolved prior to this report being submitted.

## DEFINITIONS

For the purpose of this report the following definitions from the SCC policies are used:

- a. **Less Restrictive Alternative (LRA):** Court-ordered treatment in a less restrictive setting than total confinement that satisfies the conditions set forth in RCW 71.09.092. LRAs include private homes, secure community transition facilities (SCTFs), and other court-authorized settings, including contracted residential settings with twenty-four hour staffing.
- b. **Secure Community Transition Facility (SCTF):** A residential facility for persons conditionally released to a LRA, including the SCTF in Pierce County on McNeil Island, the SCTF in King County and any community-based facilities established under Chapter 71.09 RCW and operated by DSHS.
- c. **Private Home:** The LRA resident's own home or the home of a family member or other person that the court of commitment has approved as a LRA placement.
- d. **General Violation:** Failure to comply with a condition of release set by the court of commitment, by DSHS, or by the Department of Corrections (DOC). A general violation may include a resident's failure to comply with a treatment plan requirement, posting, written instruction or verbal instruction given by an authorized person. A general violation is distinct from a serious violation.
- e. **Serious Violation:** A violation by an LRA resident that includes, but is not limited to, the commission of any criminal offense; any unlawful use or possession of alcohol or a controlled substance; or any violation of a court-ordered condition, which targets the individual's documented pattern of offense that increases the risk to public safety. The SCC CEO may determine a serious violation based on an accumulation of events that show a failure to comply with treatment plan requirements or with rules or any behavior that represents a risk to public safety.

## **CURRENT STATUS**

To date there are forty-eight residents in court-ordered LRA settings. Thirty reside in private homes. Five residents live in the SCTF in King County. Thirteen residents reside at the SCTF in Pierce County (SCTF-PC).\*

During this reporting period, seven residents violated conditions of their court orders and returned to the total confinement facility.

Fourteen residents have been unconditionally released during this reporting period.

### **Service Providers:**

During this reporting period, there were no sanctions issued to service providers.

### **Violations:**

Per RCW 71.09 (4) DSHS must document all violations, penalties and actions.

Residents may have multiple violations which is noted by (-) in the following columns.

\* NOTE: Currently, due to a violation of their court order, the SCC has four residents residing at the Total Confinement Facility (TCF) who occupy a bed at the SCTF-PC. This brings the total to seventeen residents on the roster for the SCTF-PC. In addition, there are six waivers supporting residents to petition to move from the TCF to the SCTF-PC.

**The tables below represent General Violations committed by residents, which resulted in treatment assignment, home restriction, off-island restriction, or no action.**

\* NOTE: The resident community transition team meets monthly to review the client's transition into the community. If any violations occurred during the reporting period, they are reviewed, and the team makes a decision to return the resident or provide a treatment assignment that will address the client's behaviors. Decisions to provide treatment or return a resident are based on several factors that include, but are not limited to, the severity of the action, relationship to the client's offense cycle, identification and number of dynamic risk factors involved, mental health decompensation, emotional dysregulation or impulsivity, etc. Outcomes for a violation range from no action taken, a treatment assignment, home lockdown or, in the most conservative example, return to the Total Confinement Facility pending a revocation hearing.
