- WAC 110-300-0355 Family home capacity, ratio, and group size.
- (1) The department issues initial or nonexpiring family home licenses for up to 12 children. The department will not issue a family license to care for more children than permitted by the rules in this chapter but may issue a license to care for fewer than the maximum allowable enrolled children. Family home licenses state:
- (a) The maximum number of children that may be in care at any one time (total capacity); and
  - (b) The age range of children allowed in care.
- (2) The department determines capacity for a family home early learning program after considering:
  - (a) Square footage of the early learning program;
- (b) An early learning provider's years of experience in licensed child care (experience must be from working as a center director, program supervisor, lead teacher, family home licensee, or another similar role in a child care setting);
  - (c) A provider's education and ongoing training;
  - (d) The age range requested or approved by the department;
- (e) The amount of developmentally appropriate equipment, materials, and toys an early learning program can provide children to use;
  - (f) A provider's licensing history with the department; and
- (g) The number of qualified staff available to meet staff-to-child ratios.
- (3) A family home licensee must not exceed the total capacity or age range stated on the child care license at any time except as provided in this section and WAC 110-300-0358. All children on the premises, signed in to child care, on an off-site trip from the early learning program, or being transported by the early learning program staff are counted in capacity including the children of staff.
- (a) A family home licensee must receive department approval to care for a child with special needs, pursuant to WAC 110-300-0300, if the child is older than the maximum age identified on the license. A child with documented special needs may be in care up to age 19 and must be counted in both capacity and staff-to-child ratio.
- (b) A child with special needs who requires individualized supervision pursuant to WAC 110-300-0300 counts towards capacity but does not count in the staff-to-child ratio.
- (c) A child who turns 13 years old permitted by chapter 110-15 WAC and who must be counted in both capacity and staff-to-child ratio.
- (4) Any child birth through 12 years old on the premises, signed in to the child care, on an off-site trip from the early learning program, or being transported counts in capacity. This includes a family home licensee's own children, children of staff, or visiting children not accompanied or supervised by an adult.
- (5) A family home licensee must provide qualified staff to fulfill the staffing requirements and staff-to-child ratios during operating hours, including off-site activities and when transporting children in care.
- (6) A family home licensee must provide additional staff, pursuant to WAC 110-300-0350, when children are participating in water activities or activities near water.
- (7) When applying for an initial or nonexpiring family home license, a family home licensee with less than one year of experience may request from the department a capacity of up to six children, birth through 12 years of age.
  - (a) A maximum of three children may be under two years of age.

- (b) If there are three children under two years of age, one of these children must be able to walk independently.
- (8) When applying for an initial or nonexpiring family home license, a family home licensee with at least one year but less than two years of experience and:
- (a) Working alone may request a capacity of up to eight children ages two through 12 years of age, with a maximum of four children under three years of age.
- (b) Working with a qualified assistant may request a capacity of up to nine children birth through 12 years of age with a maximum of four children under two years of age.
- (9) When applying for an initial or nonexpiring family home license, a family home licensee with at least two years' experience and:
- (a) Working alone may request a capacity of up to 10 children ages three years through 12 years of age;
- (b) Working alone may request a capacity of up to 12 children for school age children only; and
- (c) Working with a qualified assistant, may request a capacity of up to 12 children birth through 12 years of age with a maximum of six children under two years of age with two children being able to walk independently.
- (10) A family home licensee, with two years of experience, may request a license for birth to 24 months of age with a maximum group size of eight when:
- (a) There are two staff present with the group consisting of one staff who meets the qualification of the licensee and another who meets the qualifications to be counted in ratio;
  - (b) The staff-to-child ratio is 1:4;
- (c) Fifteen additional square feet are provided for each infant or toddler; and
  - (d) A second staff member is present whenever:
  - (i) More than two children in care do not walk independently; or
  - (ii) When there are more than four children in care.
- (11) The staff-to-child ratio is determined by the ages and number of children in care. Two early learning program staff are required anytime:
- (a) More than six children are in care and any child in care is under two years of age;
- (b) More than eight children are in care and any child in care is under three years of age; or
- (c) More than 10 children are in care and any child is under school age.
