WAC 173-306-9901   Maximum contaminant levels for groundwater.
Maximum contaminant levels for groundwater are those specified in
chapter 248-54 WAC, as the primary drinking water standards. Analyti-
cal methods for these contaminants may be found in the Code of Federal
Regulations, 40 C.F.R. Part 141. (These contaminant levels are to be
considered interim levels for the purpose of regulating disposal fa-
cilities and must be used until the department establishes groundwater
quality standards for all types of activities impacting groundwater.)
