WAC 173-401-800  Public involvement.  (1) Purpose. It is ecology's and local air authorities' goal to ensure that accurate permitting information is made available to the public in a timely manner. The permitting authority is responsible for providing notice of permitting actions that allows sufficient time for comment and for providing enough information to inform the public of the extent of the actions proposed. These public involvement regulations establish a statewide process to be followed by all permitting authorities.

(2) Public notice.

(a) The permitting authority shall provide public notice for the following actions:

(i) Issuance of a draft permit or permit renewal;
(ii) Intended denial of a permit application;
(iii) Issuance of a draft permit modification;
(iv) Issuance of a draft general permit;
(v) Scheduling of a public hearing under subsection (4) of this section; and
(vi) Any other related activities that the permitting authority considers to involve substantial public interest.

(b) Notice shall be given by the following methods:

(i) Permitting authority website. A permitting authority must post notice on its website for the duration of the public comment period. Public notice must be posted by noon of the first day of the public comment period.

(ii) A permitting authority may supplement notice on an individual permit or action. Additional notice may include, but is not limited to, a newspaper of general circulation in the area of the permittee.

(iii) Permit Register.

(A) Ecology shall publish notice in the Permit Register according to WAC 173-401-805.

(B) The permitting authority shall send information on any action requiring publication in the Permit Register to ecology within three days of the action.

(c) Notice of the activities described in (a) of this subsection shall also be provided to persons requesting to receive this notice. The permitting authority shall maintain a mailing list of persons requesting notice, and may maintain more than one list, such as lists based on geographical location. The mailing list may be electronic or hardcopy, or both. No request shall require the extension of the comment period associated with the notice. The permitting authority may from time to time inform the public of the opportunity to be on the list and may also delete from the list persons who fail to respond to an inquiry of continued interest in receiving the notices.

(d) Public notice must include:

(i) The start date and end date of the public comment period;
(ii) Name and address of the permitting authority;
(iii) Name and address of the permit applicant, and if different, the name and address of the facility or activity regulated by the permit, unless it is a general permit;
(iv) A brief description of the business conducted at the facility and activity involved in the permit action;
(v) Name, address, and telephone number of a person (or an email or web address) from whom interested persons may obtain further information such as copies of the draft permit, the application, and relevant supporting materials;
(vi) A brief description of the comment procedures, including the procedures to request a hearing, and the time and place of any hearings scheduled for the permit; and

(vii) A description of the emission change involved in any permit modification.

(e) Availability for public inspection.

(i) The permitting authority must post the draft permit and statement of basis (technical support document) on its website for the duration of the public comment period.

(ii) Administrative record. The permitting authority must make the administrative record available for public inspection for the duration of the public comment period. The administrative record must:

(A) Be available in at least one location near the chapter 401 source. This may be at a physical location and/or posted on the permitting authority website; and

(B) Include all nonproprietary information contained in the permit application and supporting materials. Supporting materials available only in hardcopy or too large for posting on a website must be identified and made available on request.

(3) Public comment. Except as otherwise provided in WAC 173-401-725, the permitting authority shall provide a minimum of thirty days for public comment on actions described in subsection (2)(a) of this section.

(a) This comment period begins on the next calendar day after the permitting authority posts the public notice on their website;

(b) No proposed permit shall be issued until the public comment period has ended and the permitting authority has prepared a response to the comments received.

(4) Public hearings. The applicant, any interested governmental entity, any group or any person may request a public hearing within the comment period required under subsection (3) of this section. Any such request shall indicate the interest of the entity filing it and why a hearing is warranted. The permitting authority may, in its discretion, hold a public hearing if it determines significant public interest exists. Any such hearing shall be held at a time(s) and place(s) as the permitting authority deems reasonable. The permitting authority shall provide at least thirty days prior notice of any hearing.

(5) The permitting authority shall keep a record of the commentators and issues raised during the public participation process. Such records shall be available to the public.
