WAC 173-514-040 Surface water source limitations to further consumptive appropriation. (1) The department, having determined further consumptive appropriation for all uses would harmfully impact instream values, closes the following streams including tributaries for the period indicated:

(a) Stream Name | Tributary to | Closure Period
--- | --- | ---
Alderbrook Creek | Hood Canal | May 1 - October 31
Campbell Creek | Oakland Bay | May 1 - October 31
Elson Creek | Skookum Inlet | May 1 - October 31
Fawn Lake Outlet | Skookum Inlet | May 1 - October 31
Jones Creek | Pickering Passage | May 1 - October 31
Jarrell Creek | Jarrell Cove | May 1 - October 31
Little Creek | Skookum Creek | May 1 - October 31
Melaney Creek | Oakland Bay | May 1 - October 31
Shelton Creek | Oakland Bay | May 1 - October 31
Twahnoh Creek | Hood Canal | May 1 - October 31
Uncle John Creek | Oakland Bay | May 1 - October 31

The minimum flow during the closure period on the streams listed above is the natural flow. Because insufficient flow data is available to develop instream flows outside the closure period, minimum flows for any water right application for consumptive use will be considered on a case by case basis in consultation with the departments of fisheries and game (RCW 75.20.050).

(b) Stream Name | Closure Period
--- | ---
Kennedy Creek | May 1 - November 15
Cranberry Creek | September 16 - November 15
Deer Creek | September 16 - November 15
Johns Creek | September 16 - November 15
Sherwood Creek | September 16 - November 15
Perry Creek | May 1 - October 31

Because sufficient hydrologic data is available for the above streams, a minimum flow is established during the closed and nonclosed period in WAC 173-514-030(2).

(2) Except as noted in the footnotes, the following existing surface water source limitations, previously established administratively under the authority of chapter 90.03 RCW and RCW 75.20.050 are hereby confirmed and adopted for the period indicated:

<table>
