

WAC 197-11-406 EIS timing. The lead agency shall commence preparation of the environmental impact statement as close as possible to the time the agency is developing or is presented with a proposal, so that preparation can be completed in time for the final statement to be included in appropriate recommendations or reports on the proposal (WAC 197-11-055). The statement shall be prepared early enough so it can serve practically as an important contribution to the decision making process and will not be used to rationalize or justify decisions already made. EISs may be "phased" in appropriate situations (WAC 197-11-060(5)).
