WAC 204-50-090  Ignition interlock device security. (1) A manufacturer and its vendors, service center(s), and ignition interlock technicians must take all steps necessary to prevent tampering or physical circumvention of an ignition interlock device. These steps must include:
   (a) Special locks, seals, and installation procedures that prevent or record evidence of tampering and/or circumvention attempts;
   (b) Installation and/or use of all anticircumvention features required under this chapter;
   (c) Breath anticircumvention features such as alternating breath flow, hum tone, breath temperature and any other impaired driving section approved anticircumvention features must be activated during all start up and random breath tests;
   (d) Changes in software and ignition interlock device configuration, including anticircumvention features and the Washington state configuration profile will only be administered by the manufacturer.

(2) In addition, a service center or ignition interlock technician will affix to the ignition interlock device a label containing the following notation: "Warning - This ignition interlock device has been installed under the laws of the state of Washington. Attempts to disconnect, tamper with, or circumvent this ignition interlock device may subject you to criminal prosecution. For more information, call (insert manufacturer, vendor or service center's toll free number)."

(3) No owner or employee of a manufacturer, vendor or service center may authorize or assist with the disconnection of an ignition interlock device, or enable the use of any "emergency bypass" mechanism or any other "bypass" procedure that allows a person restricted to use the vehicle equipped with a functioning ignition interlock device, to start or operate a vehicle without providing all required breath samples. Doing so may subject the person to criminal prosecution under RCW 46.20.750 and may cause the revocation of a manufacturer's, vendor's, service center, and/or ignition interlock technician's certification under chapter 204-50 WAC.

(4) The sale or use of any type of remote code allowing a restricted driver to bypass a lockout condition or any user to not provide a breath sample on vehicle start up is prohibited.

(5) All known ignition interlock device circumventions or tampering must be reported to the impaired driving section in an impaired driving section approved electronic format within seven days of determining that an ignition interlock device was circumvented or tampered with.
