WAC 246-341-1015  Opioid treatment programs (OTP)—Clinical record content and documentation requirements. An agency providing opioid treatment program services must maintain an individual's clinical record. The clinical record must contain:

1. Documentation that the agency made a good faith effort to review if the individual is enrolled in any other opioid treatment program and take appropriate action;
2. Documentation that the individual received a copy of the rules and responsibilities for treatment participants, including the potential use of interventions or sanction;
3. Documentation that the individual service plan was reviewed quarterly and semi-annually after two years of continuous treatment;
4. Documentation when an individual refuses to provide a drug testing specimen sample. The refusal is considered a positive drug screen specimen;
5. Documentation in progress notes of timely interventions used to therapeutically address the disclosure of illicit drug use, a positive drug test, or possible diversion of opioid medication, as evidenced by the absence of opioids or related metabolites in drug toxicology test results;
6. Documentation of all medical services including:
   a. Results of physical examination;
   b. Medical and family history;
   c. Nursing notes;
   d. Laboratory reports including results of regular toxicology screens, a problem list, and list of medications updated as clinically indicated; and
   e. Progress notes including documentation of all medications and dosages, if available.
