To be eligible to take the optometry examination, a person must be a graduate of an accredited school or college of optometry approved by the Washington state board of optometry. The board of optometry adopts the most current standards of the Council on Optometric Education, or its successor organization, of the American Optometric Association. The board reserves the right to withdraw approval of a school which ceases to meet the board's standards after notifying the school in writing and granting it an opportunity to contest the board's proposed withdrawal.
