

**WAC 296-17A-3412 Classification 3412.**

**3412-00 Automobile and truck: Body and fender repair shops**

Applies to establishments engaged in repairing and refinishing automobile and truck body panel components for others. Work contemplated by this classification includes, but is not limited to, all phases of auto body repair work and panel replacement, finish removal, sand-blasting or plastic medium blasting, painting, washing, vacuuming, and waxing vehicles, glass repair, upholstery work, and automobile and truck detailing such as striping, vinyl repair, window tinting (applying film to windows), installation of body and wheel molding and sun-roofs, incidental glass repair or mechanical repair associated with a collision repair or car restoration, and installation of electronic accessories when performed by employees of an employer subject to this classification. The repair of fiberglass or sheet metal boat bodies and spray-on pickup truck bedliners is also included in this classification. This classification includes shop managers, parts and paint mixing department employees, towing service for in-shop repairs, incidental sales of rebuilt cars and trucks, and customer courtesy van or car drivers. Estimators may be reported separately in classification 6303 provided all the conditions of the general reporting rule covering standard exception employees have been met.

This classification excludes the *routine* servicing or repair of automobiles or trucks *not done* in conjunction with collision repair or car restoration which is to be reported separately in classification 3411; the servicing or repair of mechanical or electrical systems in boats which is to be reported separately in classification 3414; and the repair of wooden boats which is to be reported separately in classification 2903.

**Special notes:** Auto body shops will routinely have a physically separate area where they store and mix paints. The separate paint storage and mixing area is generally a requirement of local fire codes and insurance policies. This separate area does not constitute a separate operation subject to a different classification. Some shops may also carry an inventory of repair panels, trim pieces and molding. Regardless of the volume of parts and supplies it is included within the basic scope of classification 3412. Establishment engaged in providing towing service for hire are to be reported separately in classification 1109. For purposes of this classification "towing for hire" means a towing service not performed in connection with repairs to be done by the repair shop.

Care must be taken in assigning classification 3411-01 to an establishment engaged in body and fender repair. An establishment *could* have both classifications 3411 and 3412 if they also provide *routine* mechanical or electrical repair services *not* in conjunction with collision repair or car restoration.
