

WAC 296-806-40510 Use a work rest for off-hand grinding.

EXEMPTION:

You do not need to use a work rest if:

1. The size, shape, weight or finishing area of the workpiece prevents its use; or
2. Contact with the grinding wheel below the horizontal plane of the spindle is necessary.

- (1) You must use a work rest to support the work.
- (2) You must make sure the work rest is:
 - (a) Rigidly constructed.
 - (b) Adjustable to compensate for wheel wear.
 - (c) Adjusted only when the wheel is stopped.
 - (d) Securely clamped after each adjustment.
 - (e) Kept within one-eighth inch of the wheel.
