

WAC 308-124H-840 Distance education delivery method approval required. Applicants are required to submit an application for each separate distance education delivery method for which they propose to offer approved courses for clock hours. When submitting a distance education delivery method application, the following minimum criteria must be provided by the applicant:

(1) Specify the course learning objectives for each learning unit and clearly demonstrate that the learning objectives cover the subject matter and how these relate to the practice of real estate. Objectives must be specific to ensure that all content is covered adequately to ensure mastery;

(2) Demonstrate how mastery of the material is provided by:

(a) Dividing the material into major learning units, each of which divides the material into modules of instruction;

(b) Specifying learning objectives for each learning unit or module of instruction. Learning objectives must be comprehensive enough to ensure that if all the objectives are met, the entire content of the course will be mastered;

(c) Specifying an objective, quantitative criterion for mastery used for each learning objective and provide a structured learning method designed to enable students to attain each objective;

(3) Demonstrate that the course includes the same or reasonably similar informational content as a course that would otherwise qualify for the requisite number of clock hours of classroom-based instruction and how the provider will know that the student completed the required number of clock hours;

(4) Describe consistent and regular interactive events appropriate to the delivery method. The interactive elements must be designed to promote student involvement in the learning process, and must directly support the student's achievement of the course learning objectives. The application must identify the interactive events included in the course and specify how the interactive events contribute to achievement of the stated learning objectives;

(5) Demonstrate how the course provides a mechanism of individual remediation to correct any deficiencies identified during the instruction and assessment process;

(6) Measure, at regular intervals, the student's progress toward completion of the mastery requirement for each learning unit or module. In the case of computer-based instruction, the course software must include automatic shutdown after a period of inactivity;

(7) Demonstrate that approved instructors are available to answer questions regarding course content at reasonable times and by reasonable means, including in-person contact, individual and conference telephone calls, email and fax;

(8) Demonstrate how reasonable security will be provided to ensure that the student who receives credit for the course is the student who enrolled in and completed the course. Both the approved school and the student must certify in writing that the student has completed the course, and the required number of clock hours;

(9) Provide a complete description of any hardware, software, or other technology to be used by the provider and needed by the student to effectively engage in the delivery and completion of the course material and an assessment of the availability and adequacy of the equipment, software, or other technologies to the achievement of the course's instructional claims;

(10) Provide an orientation session with the instructor or an affiliated representative of an approved school. Mechanisms must be

clearly in place which allow students an early orientation to discuss course specifics;

(11) Demonstrate how the provider determined the number of clock hours requested in the distance education delivery method approval application; and

(12) Provide with each distance education delivery method approval application a copy of a course evaluation form. The provider must provide each student with the mandatory evaluation form and retain the completed form in the school records as required under WAC 308-124H-895(4).
