

WAC 458-20-112 Value of products. The term "value of products" includes the value of by-products, and except as provided herein, shall be determined by "gross proceeds of sales" whether such sales are at wholesale or at retail, to which shall be added all subsidies and bonuses received with respect to the extraction, manufacture, or sale thereof.

"The term 'gross proceeds of sales' means the value proceeding or accruing from the sale of tangible personal property . . . without any deduction on account of the cost of property sold, the cost of materials used, labor costs, interest, discount paid, delivery costs, taxes, or any other expense whatsoever paid or accrued and without any deduction on account of losses." (RCW 82.04.070.)

In the case of bona fide sales of products. The law provides (RCW 82.04.450), that under the extracting and manufacturing classifications of the business and occupation tax the value of products extracted or manufactured shall be determined by the gross proceeds of sales in every instance in which a bona fide sale of such products is made, and whether sold at wholesale or at retail.

Sales to points outside the state. In determining the value of products delivered to points outside the state there may be deducted from the gross proceeds of sales so much thereof as the taxpayer can show to be actual transportation costs from the point at which the shipment originates in this state to the point of delivery outside the state.

All other cases. The law provides that where products extracted or manufactured are

(1) For commercial or industrial use (by the extractor or manufacturer—see WAC 458-20-134); or

(2) Transported out of the state, or to another person without prior sale; or

(3) Sold under circumstances such that the stated gross proceeds from the sale are not indicative of the true value of the subject matter of the sale; the value shall correspond as nearly as possible to the gross proceeds from other sales at comparable locations in this state of similar products of like quality and character, in similar quantities, under comparable conditions of sale, to comparable purchasers, and shall include subsidies and bonuses.

In the absence of sales of similar products as a guide to value, such value may be determined upon a cost basis. In such cases, there shall be included every item of cost attributable to the particular article or article extracted or manufactured, including direct and indirect overhead costs.
