Where a qualified type of motorist service activity is not present, a panel will not be erected. Where installed, the panels will be erected as follows:

(a) For freeways and interchanges on expressways the panels shall be erected between the previous interchange and at least eight hundred feet in advance of the exit direction sign at the interchange from which the services are available. There shall be at least eight hundred feet spacing between the panels, and there will be one panel each for gas, food, lodging, camping/recreation, TOD, and twenty-four-hour pharmacy except as provided in (c) of this subsection.

(b) For conventional roads the panels shall be erected between the previous intersection and at least three hundred feet in advance of the intersection from which the services are available, signing should not be provided to any service visible at least three hundred feet along the mainline prior to the intersection or driveway approach serving the business. There will be one panel each for gas, food, lodging, camping/recreation, TOD, and twenty-four-hour pharmacy except as provided in (c) of this subsection.

(c) A combined panel may be installed where there is a limited number of qualifying motorist service activities, or insufficient space available to install the array of gas, food, lodging, camping/recreation, TOD's, and twenty-four-hour pharmacy panels as set forth in WAC 468-70-040(2). Not more than three types of motorist service activities may be combined on one mainline back panel. (a) For interchanges, consist of both an exit and entrance ramp. However, where there is no entrance ramp, the department may determine that another entrance ramp may qualify for motorist information sign panels, provided that it is conveniently located, to permit a motorist to proceed without the use of indirect or poor connecting roads.

(b) For intersections, provide a reasonable and convenient route, in the determination of the department, to permit a motorist to proceed without the use of indirect or poor connecting roads.

(2) Motorist information sign panels may be erected at locations outside the corporate limits of cities and towns and areas zoned for commercial and industrial uses, and at locations within the corporate limits of cities and towns and areas zoned for commercial and industrial uses, where there is sufficient distance between interchanges or intersections to erect the signs in accordance with WAC 468-70-030 (1)(a) and (b). Where there is insufficient space available to install an array of four of the gas, food, lodging, camping/recreation, TOD's, and twenty-four-hour pharmacy panels, the number of panels allowable are normally provided in that order of priority, or as combined panels in accordance with WAC 468-70-030 (1)(c), except that regional administrators may negotiate a revised priority at interchange/intersection locations with local officials. If there is no business interest in signing for any one activity at a location, and space allows, the next lower priority activity can be signed.

(3) Signing will be provided from the nearest interchange or intersection from the nearest freeway/expressway or conventional highway to the activity. Signing will not be provided from a freeway or expressway to another freeway or expressway.

(3) Composition of motorist information sign panels:

(a) For interchanges, the maximum number of business signs which may be displayed on a motorist information sign panel are six for each gas, food, lodging, camping/recreation, TOD's, and twenty-four-hour

(i) The panel size shall be sufficient to accommodate the various sizes of business signs and directional information.

**WAC 468-70-070 Permits and procedure.** (1) No business signs will be installed on motorist information sign panels prior to issuance of a permit by the department. Permits will be issued by the department in accordance with this chapter.

(2) Permit applications will be accepted at the appropriate department of transportation regional office in care of the regional ad-

administrator. Applications transmitted by mail shall be effective from date of receipt rather than of mailing.

(3) One permit application will be for all the signing that the applicant will qualify for at a single interchange or intersection.

(4) Application forms, which may be obtained from the department, shall contain the following information:

(a) Name and address of the owner of the business to be advertised.

(b) The highway for which the applicant seeks signing.

(c) A description of the interchange or intersection for which the business sign is to be installed.

(d) A statement of the business location including exact travel distance from the interchange or intersection and precise roads used for access.

(e) An agreement to limit the height of any on-premise sign to no greater than fifteen feet higher than the roof of the main building, measured to the bottom of the sign for businesses located within one mile of an interchange or intersection. (Not applicable along interstate highways if the sign is not visible to the highway.)

Pursuant to RCW 47.36.310, for on-premise signs visible along rural interstate highways the department may waive the fifteen-foot height requirement, on a case-by-case basis, where granting the waiver will not preclude another business having an on-premise sign which complies with the fifteen-foot height requirement from receiving business signs.

(f) Such other information as may be required by the department.

(5) Each permit application will include a sketch, drawing or picture of the message to be placed on the business signs. Business signs may not display messages advertising products or services incidental to the qualifying motorist service activity. The department shall have final approval of the design of the business sign and may modify such submissions to achieve uniformity, visibility, and legibility.

(6) Any party aggrieved by an application determination of the department shall be accorded hearing rights before the secretary of transportation or his designee pursuant to chapter 34.05 RCW.

(7) Once an application is approved, the department will request that the business provide its business signs to the department for installation and pay the first year's annual motorist information sign panel fee. There is no additional fee for first-time business sign installations.

(8) The department will install RV symbols on business signs upon request, after confirming that the business meets the eligibility requirements prescribed by WAC 468-70-050(2). RV symbols may remain on business signs until no longer applicable, or until the symbols require replacement due to weather-wear.

(9) Fees:

(a) The annual fee charged to each business for motorist information sign panels is:

(i) Nine hundred ten dollars for signs located in fee zone 1;

(ii) Six hundred eighty-three dollars for signs located in fee zone 2; or

(iii) Three hundred sixty-four dollars for signs located in fee zone 3.

(b) The fee for business sign replacement is one hundred fifteen dollars per sign, prepaid.

(c) The fee for new or replacement department-installed RV symbols is seventy-five dollars per symbol, prepaid.

(d) The annual fee for motorist information sign panels shall be paid within thirty calendar days after the anniversary of the permit issue. Failure to pay the annual fee within thirty calendar days after the anniversary of the permit issue will cause the permit to expire and the business signs to be removed from the motorist information sign panels.

(10) Business signs may be replaced at the request of a business; or, the department may request the business signs to replace weather-worn signs.

(11) Loss of sign locations:

(a) If highway construction or maintenance activities temporarily close sections of highway where business signs are installed, the business shall have no claim against the department or its contractor for disruption of signing and/or access resulting from the closures.

(b) Where it's necessary to remove signs temporarily to accommodate highway construction or maintenance activities, the department may prorate the amount due to the department for the next billing cycle proportionate to the length of time the sign is removed.

(c) Where highway construction, maintenance activities, or natural causes permanently preclude reinstalling motorist information sign panels or business signs, the business shall be entitled to:

(i) If no signs remain, prorated reimbursement for the balance of the current billing cycle; or

(ii) If signs remain in one direction of travel, prorated credit of the amount due to the department for the next billing cycle.

(12) The department shall not be liable for loss or damage due to delays or interruptions of service because of inclement weather, fire, or other casualty loss, strikes, governmental laws, rules, or regulations, acts of God, or any other reason outside the department's control.

(13) In the event of change of ownership or operation, assignment of permits in good standing shall be effective only upon receipt of assignment by the department. The department will not reassign permits in the event of change of both ownership and operation.

(14) Revocation and expiration:

(a) After hearing before the secretary of transportation or his designee, as required by chapter 34.05 RCW (Administrative Procedure Act) and the rules and regulations of the department adopted pursuant thereto, any motorist information sign permit may be revoked by the secretary or the secretary's designee who has conducted the hearing for any of the following reasons:

(i) For the making of any false or misleading statements in the application for any permit, whether or not the same is material to or relied upon by the department in the issuance of such permit when such false or misleading statement or information shall remain uncorrected after the expiration of thirty days following written notification thereof.

(ii) For allowing or suffering any on-premise sign to remain that exceeds the height requirements set forth in this chapter.

(iii) For failure to provide the services and/or facilities required by WAC 468-70-050 and this section.

(b) If a motorist information sign permit is revoked or is allowed to expire, a new application may be accepted by the department and the motorist service activity must meet the requirements of any other applying motorist service activity.
