Relating to prototypical school formulas for physical, social, and emotional support in schools

Major provisions of the substitute bill recommended by the House Education Committee:

- Requires each public school to have at least one school nurse and one counselor on site.
- Increases minimum staff allocations for nurses, social workers, psychologists, and counselors in the prototypical school funding model (model). Nurse staff allocation increases are phased in over 3 school years (2022-23 to 2024-25), while full staff allocation increases for social workers, psychologists, and counselors begin in 2022-23.
- Defines "physical, social, and emotional support staff" (PSES staff) to include nurses, social workers, psychologists, counselors, classified staff providing student and staff safety, parent involvement coordinators, and other school district employees and contractors who provide physical, social, and emotional support to students as defined by the Superintendent of Public Instruction (SPI).
- Specifies that the SPI may only allocate funding, up to the combined minimum allocations, for nurses, social workers, psychologists, counselors, classified staff providing student and staff safety, and parent involvement coordinators though the model to the extent of and proportionate to a school district's demonstrated actual ratios of PSES staff.
- Directs the SPI to adopt rules that require school districts to prioritize specified funding allocated through the model for PSES staff with a valid educational staff associate certificate.
- Requires the SPI to submit to the Legislature four biennial implementation reports.

The proposed substitute bill makes the following changes to the substitute bill recommended by the House Education Committee:

- Removes requirement that each public school have at least one school nurse and one counselor on site.
- Phases in increases to minimum staff allocations for social workers, psychologists, and counselors within the model over 3 school years (2022-23 to 2024-25), matching the schedule for nurse allocation increases.
- Changes other statutory references of "guidance counselors" to "counselors" to align with changes in the underlying substitute,

Proposed Second Substitute House Bill 1664

By Representative Stonier

AN ACT Relating to prototypical school formulas for physical, social, and emotional support in schools; amending RCW 28A.400.007, 28A.150.100, and 28A.150.410; reenacting and amending RCW 28A.150.260 and 28A.150.260; adding a new section to chapter 28A.300 RCW; providing effective dates; and providing expiration dates.

6 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

7 <u>NEW SECTION.</u> Sec. 1. A new section is added to chapter 28A.300
8 RCW to read as follows:

9 (1) By February 1, 2023, and by February 1st every odd-numbered 10 year thereafter, the office of the superintendent of public 11 instruction shall submit, in accordance with RCW 43.01.036, to the 12 appropriate committees of the legislature a report analyzing the 13 implementation of RCW 28A.150.260(5)(b), related to physical, social, 14 and emotional support staff.

(2) For the analysis, the office of the superintendent of public
 instruction must use personnel data reported on or around October 1st
 of the report year and the prior year, and any other relevant data.

18 (3) Except as provided in subsection (4) of this section, the 19 report must:

20 (a) Compare the staffing units provided for nurses, social 21 workers, psychologists, counselors, classified staff providing Code Rev/CC:lel 1 H-2463.2/22 2nd draft student and staff safety, and parent involvement coordinators under RCW 28A.150.260(5) to the actual school district staffing levels for physical, social, and emotional support staff, disaggregate by school district; and

5 (b) Analyze trends with respect to: (i) Employed staff and 6 contract staff; and (ii) the percentage of staff with a valid 7 educational staff associate certificate. These trends must be 8 disaggregated by assignment duty code, as well as analyzed year over 9 year and by school district size and geography.

10 (4) For the report due February 1, 2023, the office of the 11 superintendent of public instruction is required to complete the 12 analysis described in subsection (3) of this section only to the 13 extent that relevant data are available.

14 (5) For the purposes of this section, "physical, social, and 15 emotional support staff" or "staff" has the same meaning as in RCW 16 28A.150.260(5)(b).

17

(6) This section expires June 30, 2030.

18 Sec. 2. RCW 28A.150.260 and 2020 c 288 s 4 and 2020 c 61 s 4 are 19 each reenacted and amended to read as follows:

The purpose of this section is to provide for the allocation of state funding that the legislature deems necessary to support school districts in offering the minimum instructional program of basic education under RCW 28A.150.220. The allocation shall be determined as follows:

(1) The governor shall and the superintendent of public instruction may recommend to the legislature a formula for the distribution of a basic education instructional allocation for each common school district.

(2) (a) The distribution formula under this section shall be for 29 30 allocation purposes only. Except as may be required under subsections (4) (b) and (c), (5) (b), and (9) of this section, chapter 28A.155, 31 28A.165, 28A.180, or 28A.185 RCW, or federal laws and regulations, 32 nothing in this section requires school districts to use basic 33 education instructional funds to implement a particular instructional 34 35 approach or service. Nothing in this section requires school districts to maintain a particular classroom teacher-to-student ratio 36 or other staff-to-student ratio or to use allocated funds to pay for 37 38 particular types or classifications of staff. Nothing in this section

1 entitles an individual teacher to a particular teacher planning
2 period.

(b) To promote transparency in state funding allocations, the 3 superintendent of public instruction must report state per-pupil 4 allocations for each school district for the general apportionment, 5 6 special education, learning assistance, transitional bilingual, highly capable, and career and technical education programs. The 7 superintendent must report this information in a user-friendly format 8 on the main page of the office's website. School districts must 9 include a link to the superintendent's per-pupil allocations report 10 11 on the main page of the school district's website. In addition, the 12 budget documents published by the legislature for the enacted omnibus operating appropriations act must report statewide average per-pupil 13 allocations for general apportionment and the categorical programs 14 listed in this subsection. 15

16 (3) (a) To the extent the technical details of the formula have 17 been adopted by the legislature and except when specifically provided as a school district allocation, the distribution formula for the 18 basic education instructional allocation shall be based on minimum 19 staffing and nonstaff costs the legislature deems necessary to 20 21 support instruction and operations in prototypical schools serving high, middle, and elementary school students as provided in this 22 section. The use of prototypical schools for the distribution formula 23 not constitute legislative intent that schools should be 24 does 25 operated or structured in a similar fashion as the prototypes. Prototypical schools illustrate the level of resources needed to 26 operate a school of a particular size with particular types and grade 27 levels of students using commonly understood terms and inputs, such 28 as class size, hours of instruction, and various categories of school 29 staff. It is the intent that the funding allocations to school 30 31 districts be adjusted from the school prototypes based on the actual 32 number of annual average full-time equivalent students in each grade level at each school in the district and not based on the grade-level 33 configuration of the school to the extent that data is available. The 34 allocations shall be further adjusted from the school prototypes with 35 minimum allocations for small schools and to reflect other factors 36 identified in the omnibus appropriations act. 37

38 (b) For the purposes of this section, prototypical schools are 39 defined as follows:

(i) A prototypical high school has six hundred average annual
 full-time equivalent students in grades nine through twelve;

3 (ii) A prototypical middle school has four hundred thirty-two 4 average annual full-time equivalent students in grades seven and 5 eight; and

6 (iii) A prototypical elementary school has four hundred average 7 annual full-time equivalent students in grades kindergarten through 8 six.

9 (4)(a)(i) The minimum allocation for each level of prototypical 10 school shall be based on the number of full-time equivalent classroom 11 teachers needed to provide instruction over the minimum required 12 annual instructional hours under RCW 28A.150.220 and provide at least 13 one teacher planning period per school day, and based on the 14 following general education average class size of full-time 15 equivalent students per teacher:

16	General edu	cation
17	average clas	s size
18	Grades K-3	17.00
19	Grade 4	27.00
20	Grades 5-6	27.00
21	Grades 7-8	28.53
22	Grades 9-12	28.74

(ii) The minimum class size allocation for each prototypical high 23 school shall also provide for enhanced funding for class size 24 25 reduction for two laboratory science classes within grades nine through twelve per full-time equivalent high 26 school student 27 multiplied by a laboratory science course factor of 0.0833, based on 28 the number of full-time equivalent classroom teachers needed to provide instruction over the minimum required annual instructional 29 hours in RCW 28A.150.220, and providing at least one teacher planning 30 period per school day: 31

35 (b)(i) Beginning September 1, 2019, funding for average K-3 class 36 sizes in this subsection (4) may be provided only to the extent of, 37 and proportionate to, the school district's demonstrated actual class 38 size in grades K-3, up to the funded class sizes.

1 (ii) The office of the superintendent of public instruction shall 2 develop rules to implement this subsection (4)(b). 3 (c) (i) The minimum allocation for each prototypical middle and high school shall also provide for full-time equivalent classroom 4 teachers based on the following number of full-time equivalent 5 6 students per teacher in career and technical education: 7 Career and technical 8 education average 9 class size Approved career and technical education offered at 10 the middle school and high school level. 11 23.00 12 Skill center programs meeting the standards established 13 by the office of the superintendent of public 14 15 (ii) Funding allocated under this subsection (4)(c) is subject to RCW 28A.150.265. 16 17 (d) In addition, the omnibus appropriations act shall at а 18 minimum specify: 19 (i) A high-poverty average class size in schools where more than 20 fifty percent of the students are eligible for free and reduced-price 21 meals; and 2.2 (ii) A specialty average class size for advanced placement and international baccalaureate courses. 23 24 (5) (a) The minimum allocation for each level of prototypical 25 school shall include allocations for the following types of staff in 26 addition to classroom teachers: 27 Elementary Middle High 28 School School School 29 Principals, assistant principals, and other certificated building-level 30 1.880 administrators..... 1.253 1.353 31 Teacher-librarians, a function that includes information literacy, technology, 32 and media to support school library media programs. 0.663 0.519 0.523 33 ((Health and social services: 34 School nurses..... 0.076 0.060 0.096 35 0.042 0.006 0.015 Social workers..... 36 0.002 0.007 Psychologists..... 0.017

immediately preceding the district's participation, in whole or part, 1 United States department of agriculture's 2 in the community eligibility provision, or the district percentage of students in 3 grades K-12 who were eligible for free or reduced-price meals in the 4 prior school year. The minimum allocation for the program shall 5 6 provide for each level of prototypical school resources to provide, on a statewide average, 2.3975 hours per week in extra instruction 7 with a class size of fifteen learning assistance program students per 8 teacher. 9

(ii) In addition to funding allocated under (a)(i) of this 10 11 subsection, to provide supplemental instruction and services for 12 students who are not meeting academic standards in qualifying schools. A qualifying school means a school in which the three-year 13 rolling average of the prior year total annual average enrollment 14 that qualifies for free or reduced-price meals equals or exceeds 15 16 fifty percent or more of its total annual average enrollment. A 17 school continues to meet the definition of a qualifying school if the 18 school: Participates in the United States department of agriculture's 19 community eligibility provision; and met the definition of a in the year immediately preceding their 20 qualifying school 21 participation. The minimum allocation for this additional high poverty-based allocation must provide for each level of prototypical 22 23 school resources to provide, on a statewide average, 1.1 hours per week in extra instruction with a class size of fifteen learning 24 25 assistance program students per teacher, under RCW 28A.165.055, school districts must distribute the high poverty-based allocation to 26 the schools that generated the funding allocation. 27

28 (b) (i) To provide supplemental instruction and services for students whose primary language is other than English, allocations 29 shall be based on the head count number of students in each school 30 31 who are eligible for and enrolled in the transitional bilingual 32 instruction program under RCW 28A.180.010 through 28A.180.080. The minimum allocation for each level of prototypical school shall 33 provide resources to provide, on a statewide average, 4.7780 hours 34 per week in extra instruction for students in grades kindergarten 35 through six and 6.7780 hours per week in extra instruction for 36 students in grades seven through twelve, with fifteen transitional 37 bilingual instruction program students per teacher. Notwithstanding 38 39 other provisions of this subsection (10), the actual per-student 40 allocation may be scaled to provide a larger allocation for students Code Rev/CC:lel 9 H-2463.2/22 2nd draft needing more intensive intervention and a commensurate reduced
 allocation for students needing less intensive intervention, as
 detailed in the omnibus appropriations act.

To provide supplemental instruction and services for 4 (ii) students who have exited the transitional bilingual program, 5 6 allocations shall be based on the head count number of students in each school who have exited the transitional bilingual program within 7 the previous two years based on their performance on the English 8 proficiency assessment and are eligible for and enrolled in the 9 transitional bilingual instruction program 10 under RCW 28A.180.040(1)(g). The minimum allocation for each prototypical 11 school shall provide resources to provide, on a statewide average, 12 3.0 hours per week in extra instruction with fifteen exited students 13 14 per teacher.

15 (c) To provide additional allocations to support programs for 16 highly capable students under RCW 28A.185.010 through 28A.185.030, 17 allocations shall be based on 5.0 percent of each school district's 18 full-time equivalent basic education enrollment. The minimum 19 allocation for the programs shall provide resources to provide, on a 20 statewide average, 2.1590 hours per week in extra instruction with 21 fifteen highly capable program students per teacher.

(11) The allocations under subsections (4)(a), (5), (6), and (8) of this section shall be enhanced as provided under RCW 28A.150.390 on an excess cost basis to provide supplemental instructional resources for students with disabilities.

(12) (a) For the purposes of allocations for prototypical high schools and middle schools under subsections (4) and (10) of this section that are based on the percent of students in the school who are eligible for free and reduced-price meals, the actual percent of such students in a school shall be adjusted by a factor identified in the omnibus appropriations act to reflect underreporting of free and reduced-price meal eligibility among middle and high school students.

(b) Allocations or enhancements provided under subsections (4), (7), and (9) of this section for exploratory and preparatory career and technical education courses shall be provided only for courses approved by the office of the superintendent of public instruction under chapter 28A.700 RCW.

38 (13)(a) This formula for distribution of basic education funds 39 shall be reviewed biennially by the superintendent and governor. The

1 recommended formula shall be subject to approval, amendment or 2 rejection by the legislature.

3 (b) In the event the legislature rejects the distribution formula 4 recommended by the governor, without adopting a new distribution 5 formula, the distribution formula for the previous school year shall 6 remain in effect.

(c) The enrollment of any district shall be the annual average 7 number of full-time equivalent students and part-time students as 8 provided in RCW 28A.150.350, enrolled on the first school day of each 9 month, including students who are in attendance pursuant to RCW 10 28A.335.160 and 28A.225.250 who do not reside within the servicing 11 12 school district. The definition of full-time equivalent student shall be determined by rules of the superintendent of public instruction 13 and shall be included as part of the superintendent's biennial budget 14 request. The definition shall be based on the minimum instructional 15 16 hour offerings required under RCW 28A.150.220. Any revision of the 17 present definition shall not take effect until approved by the house ways and means committee and the senate ways and means committee. 18

19 (d) The office of financial management shall make a monthly 20 review of the superintendent's reported full-time equivalent students 21 in the common schools in conjunction with RCW 43.62.050.

22 Sec. 3. RCW 28A.150.260 and 2020 c 288 s 4 and 2020 c 61 s 4 are 23 each reenacted and amended to read as follows:

The purpose of this section is to provide for the allocation of state funding that the legislature deems necessary to support school districts in offering the minimum instructional program of basic education under RCW 28A.150.220. The allocation shall be determined as follows:

(1) The governor shall and the superintendent of public instruction may recommend to the legislature a formula for the distribution of a basic education instructional allocation for each common school district.

(2) (a) The distribution formula under this section shall be for 33 allocation purposes only. Except as may be required under subsections 34 (4) (b) and (c), (5) (b), and (9) of this section, chapter 28A.155, 35 28A.165, 28A.180, or 28A.185 RCW, or federal laws and regulations, 36 nothing in this section requires school districts to use basic 37 38 education instructional funds to implement a particular instructional approach or service. Nothing in this section requires school 39 Code Rev/CC:lel 11 H-2463.2/22 2nd draft districts to maintain a particular classroom teacher-to-student ratio or other staff-to-student ratio or to use allocated funds to pay for particular types or classifications of staff. Nothing in this section entitles an individual teacher to a particular teacher planning period.

6 (b) To promote transparency in state funding allocations, the superintendent of public instruction must report state per-pupil 7 allocations for each school district for the general apportionment, 8 special education, learning assistance, transitional bilingual, 9 highly capable, and career and technical education programs. The 10 11 superintendent must report this information in a user-friendly format on the main page of the office's website. School districts must 12 include a link to the superintendent's per-pupil allocations report 13 on the main page of the school district's website. In addition, the 14 budget documents published by the legislature for the enacted omnibus 15 16 operating appropriations act must report statewide average per-pupil allocations for general apportionment and the categorical programs 17 listed in this subsection. 18

(3) (a) To the extent the technical details of the formula have 19 been adopted by the legislature and except when specifically provided 20 21 as a school district allocation, the distribution formula for the basic education instructional allocation shall be based on minimum 22 staffing and nonstaff costs the legislature deems necessary to 23 support instruction and operations in prototypical schools serving 24 25 high, middle, and elementary school students as provided in this section. The use of prototypical schools for the distribution formula 26 does not constitute legislative intent that schools should be 27 28 operated or structured in a similar fashion as the prototypes. Prototypical schools illustrate the level of resources needed to 29 operate a school of a particular size with particular types and grade 30 31 levels of students using commonly understood terms and inputs, such 32 as class size, hours of instruction, and various categories of school staff. It is the intent that the funding allocations to school 33 districts be adjusted from the school prototypes based on the actual 34 number of annual average full-time equivalent students in each grade 35 level at each school in the district and not based on the grade-level 36 configuration of the school to the extent that data is available. The 37 allocations shall be further adjusted from the school prototypes with 38 39 minimum allocations for small schools and to reflect other factors 40 identified in the omnibus appropriations act.
