

2151-S AMH APP JOND 347

By Representative Senn

SHB 2151 - H COMM AMD

By Committee on Appropriations

1 On page 2, line 21, after "fees" strike all material through
 2 "~~costs.~~)" on line 31 and insert "sufficient to cover the direct and
 3 indirect costs of implementing a state cannabis product testing
 4 laboratory accreditation program and laboratory quality standards
 5 program, except for the initial program development costs. The
 6 department of ((~~ecology~~)) agriculture must develop a fee schedule
 7 allocating the costs of the accreditation program and the laboratory
 8 quality standards program among its accredited cannabis product
 9 testing laboratories. The department of ((~~ecology~~)) agriculture may
 10 establish a payment schedule requiring periodic installments of the
 11 annual fee. The fee schedule must be established in amounts to fully
 12 cover, but not exceed, the administrative and oversight costs."
 13

EFFECT: Restores language that would require the Department of
 Agriculture to charge a fee that fully covers, rather than
 "supports," the administrative and oversight costs of a cannabis
 laboratory accreditation program and cannabis laboratory quality
 standards program.
