
HOUSE BILL 2617

State of Washington 54th Legislature 1996 Regular Session

By Representatives Cody, Murray, Conway and Dellwo

Read first time 01/15/96. Referred to Committee on Health Care.

1 AN ACT Relating to health plan utilization review processes; and
2 adding a new chapter to Title 48 RCW.

3 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

4 NEW SECTION. **Sec. 1.** These standards establish reasonable
5 criteria for the structure and operation of health plan utilization
6 review processes designed to facilitate ongoing assessment and
7 management of health care services.

8 NEW SECTION. **Sec. 2.** These standards apply to an entity that
9 provides or performs utilization review services.

10 NEW SECTION. **Sec. 3.** Unless the context clearly requires
11 otherwise, the definitions in this section apply throughout this
12 chapter.

13 (1) "Adverse determination" means a determination that an
14 admission, continued stay, or other health care service has been
15 reviewed and, based upon the information provided, does not meet the
16 clinical requirements for medical necessity, appropriateness, level of
17 care, or effectiveness.

1 (2) "Ambulatory review" means utilization review of health care
2 services performed or provided in an outpatient setting.

3 (3) "Appeals procedure" means a formal process whereby a covered
4 person, attending physician, facility, or applicable health care
5 provider can appeal an adverse utilization review decision rendered by
6 the health plan or its designee utilization review organization.

7 (4) "Case management" means a coordinated set of activities
8 conducted for individual patient management of serious, complicated,
9 protracted, or chronic health conditions that provides cost-effective
10 and benefit-maximizing treatments for extremely resource-intensive
11 conditions.

12 (5) "Certification" means a determination by a health plan or its
13 designee utilization review organization that an admission or continued
14 stay, or other covered health care service satisfies the health plan's
15 clinical requirements for appropriateness, necessity, health care
16 setting, and level of care.

17 (6) "Clinical peer" means a physician or other health care
18 professional who holds a nonrestricted license in a state of the United
19 States and in the same or similar specialty as typically manages the
20 medical condition, procedure, or treatment under review.

21 (7) "Clinical review criteria" means the written screening
22 procedures, decision abstracts clinical protocols, and practice
23 guidelines used by the health plan to determine necessity and
24 appropriateness of health care services.

25 (8) "Concurrent review" means utilization review conducted during
26 a patient's hospital stay or course of treatment.

27 (9) "Covered person" means a member, enrollee, subscriber, covered
28 life, patient, or other person eligible to receive benefits under a
29 health plan.

30 (10) "Discharge planning" means the formal process for determining,
31 coordinating, and managing the care a patient receives following
32 discharge from a facility.

33 (11) "Emergency" means medically necessary health care services
34 that are immediately required because of unforeseen illness or injury.

35 (12) "Facility" means an institution or health care setting
36 rendering the prescribed health care service under review. These
37 institutions include, but are not limited to, hospitals and other
38 licensed inpatient facilities, ambulatory surgical or treatment
39 centers, skilled nursing facilities, residential treatment centers,

1 diagnostic, laboratory and imaging centers, and rehabilitation and
2 other therapeutic health care settings.

3 (13) "Health plan" means any policy, contract, certificate, or
4 agreement entered into, offered, or issued by a health carrier to
5 provide, deliver, arrange for, pay for, or reimburse any of the costs
6 of health care services.

7 (14) "Prospective review" means utilization review conducted prior
8 to an admission or a course of treatment.

9 (15) "Provider" means physician, organized group of physicians,
10 facility, or other health care professional licensed or certified by
11 this state, where licensure or certification is required.

12 (16) "Retrospective review" means utilization review conducted
13 after services have been provided to a patient, but does not include
14 retrospective review of a claim that is limited to an evaluation of
15 reimbursement levels, veracity of documentation, accuracy of coding,
16 and adjudication for payment.

17 (17) "Second opinion" means an opportunity or requirement to obtain
18 a clinical evaluation by a provider other than the one originally
19 making a recommendation for a proposed health service to assess the
20 clinical necessity and appropriateness of the initial proposed health
21 service.

22 (18) "Utilization review" means a set of formal techniques designed
23 to monitor and evaluate the clinical necessity, appropriateness, and
24 efficiency of health care services, procedures, providers, and
25 facilities. Techniques may include ambulatory review, prospective
26 review, second opinion, certification, concurrent review, case
27 management, discharge planning, and retrospective review.

28 (19) "Utilization review organization" means an entity that
29 conducts utilization review.

30 NEW SECTION. **Sec. 4.** (1) The corporate board of a health plan, or
31 a committee or designated executive staff specifically appointed by the
32 board for this purpose, is responsible for the health plan utilization
33 review activities.

34 (2) The corporate board of a health plan, or its designee appointed
35 under subsection (1) of this section, must approve the written
36 utilization review program, including functions delegated to a
37 utilization review organization, and must periodically review and
38 revise the program document to assure ongoing appropriateness. The

1 program must include a description of all utilization review activities
2 performed, as required by section 5 of this act.

3 (3) Periodically, but no less than semiannually, the corporate
4 board, or its designee appointed under subsection (1) of this section,
5 must review reports of utilization review activities, including
6 appeals.

7 NEW SECTION. **Sec. 5.** (1) The health plan must implement a written
8 utilization review program that describes all review activities, both
9 delegated and nondelegated, for covered services provided. The program
10 must include and the program document must describe, at a minimum:

11 (a) Procedures to evaluate clinical necessity, appropriateness, and
12 efficiency of health services, and processes to detect under as well as
13 over-utilization of services;

14 (b) Data sources and clinical review criteria used in decision
15 making;

16 (c) The process for conducting appeals of adverse utilization
17 review decisions;

18 (d) Mechanisms to ensure consistent application of review criteria
19 and compatible decisions;

20 (e) Data collection processes and analytical methods that may be
21 used in assessing utilization of health care services;

22 (f) Provisions for assuring confidentiality of clinical
23 information;

24 (g) The organizational structure, such as utilization review
25 committee, quality assurance, or other committee that periodically
26 assesses utilization review activities and reports to the governing
27 body, or its designee; and

28 (h) The staff position functionally responsible for day-to-day
29 program management.

30 (2) An annual summary report of utilization review program
31 activities must be filed with the appropriate regulatory agency or as
32 otherwise required by law. Must be aggregated and must preserve the
33 confidentiality of information pertaining to individual covered
34 persons. The insurance commissioner or other state official as
35 provided by law has the authority to request additional information.

1 NEW SECTION. **Sec. 6.** (1) The utilization review program must use
2 documented clinical review criteria that are based on sound clinical
3 evidence and are evaluated periodically to assure ongoing efficacy.

4 (a) The clinical review criteria used in conjunction with an
5 adverse determination must be made available, upon request, to affected
6 providers and covered persons.

7 (b) The clinical review criteria must be made available, upon
8 request, to authorized government agencies.

9 (c) The clinical review criteria must be developed with involvement
10 from the appropriate actively practicing physicians and other
11 appropriate actively practicing licensed health care providers.

12 (2) Qualified health care professionals must administer the
13 utilization review program and oversee review decisions. Board-
14 certified physicians must be utilized when appropriate. A licensed,
15 board-certified clinical practitioner must evaluate the clinical
16 appropriateness of adverse utilization review decisions.

17 (3) Utilization review decisions must be issued in a timely manner
18 under the requirements of section 7 of this act.

19 (a) All information required to make a utilization review decision
20 must be obtained, including pertinent clinical information and
21 consultation with the treating provider. Treating providers must
22 submit requested information in a timely manner to facilitate the
23 decision.

24 (b) There must be a process to assure that utilization reviewers
25 consistently apply clinical review criteria.

26 (c) Adverse determinations must satisfy the requirements of section
27 8 of this act.

28 (4) The health plan must routinely assess the effectiveness and
29 efficiency of the utilization review program.

30 (5) Data systems must be sufficient to support utilization review
31 program activities and to generate management reports to enable the
32 health plan to effectively monitor and manage health care services.

33 (6) If the health plan delegates utilization review activities to
34 a utilization review organization, adequate oversight must be
35 maintained, and must include:

36 (a) A written description of utilization review organization
37 activities and responsibilities, including reporting requirements;

38 (b) Evidence of formal approval of the utilization review
39 organization program by the health plan; and

1 (c) A process for evaluating the performance of the utilization
2 review organization.

3 (7) Utilization review program activities must be coordinated with
4 other medical management activity including, but not limited to,
5 quality assurance, credentialing, provider contracting, data reporting,
6 member satisfaction assessment processes, and risk management.

7 (8) The health plan or its designee utilization review organization
8 must provide access to its review staff by a toll-free number or
9 collect call phone line during normal business hours.

10 (9) When conducting utilization review, the health plan or its
11 designee utilization review organization must collect only the
12 information necessary to certify the admission, procedure or treatment,
13 length of stay, frequency, or duration of services.

14 NEW SECTION. **Sec. 7.** (1) Certification decisions regarding a
15 proposed admission, service, or procedure must be made within two
16 business days of obtaining all necessary information upon which to base
17 a decision. It is the responsibility of all parties involved in the
18 certification to facilitate this process.

19 For purposes of this section, "necessary information" includes the
20 results of any second opinion that may be required or receipt of other
21 factual or clinical information.

22 (2) Certification notices must be provided within twenty-four hours
23 by telephone or in writing to the provider or facility and to the
24 covered person. Written or electronic confirmation of telephone
25 certification must be transmitted within two business days of the
26 certification.

27 (3) Concurrent review certifications of a continued stay in a
28 facility or additional health care services must be communicated via
29 telephone within twenty-four hours and written or electronic
30 confirmation must be sent within one business day to the provider or
31 facility. Extended stay certifications must identify the additional
32 approved number of days or additional services approved.

33 NEW SECTION. **Sec. 8.** (1) Adverse determinations or
34 noncertifications of admissions, continued stays, or services must be
35 clearly documented, including the specific clinical or other reason for
36 the adverse determination, and must be available to the covered person
37 and affected provider or facility. Notice to the provider or facility

1 must be issued by telephone within twenty-four hours of the adverse
2 determination. Written or electronic confirmation must be transmitted
3 to the provider or facility and the covered person within one business
4 day of the adverse determination.

5 (2) Retrospective review denials must be issued in writing within
6 five working days of obtaining all necessary information constituting
7 the adverse determination, and must include the reason for the
8 determination.

9 (3) Written notice of an adverse determination must include a
10 description of the appeal procedures, and instructions for initiating
11 an appeal.

12 NEW SECTION. **Sec. 9.** (1) The health plan must establish written
13 procedures for standard and expedited appeals of decisions not to
14 certify an admission, continued stay, procedure, or service. Appeal
15 procedures must be available to the covered person and to the attending
16 or ordering provider.

17 (2) Appeals must be evaluated by an appropriate clinical peer
18 professional in the same or similar specialty as would typically manage
19 the case being reviewed, or another licensed health care professional
20 as mutually agreed upon by the parties. The agreement is void if made
21 prior to the initial determination. The health care peer professional
22 must not have been involved in the initial adverse determination.

23 (3) For standard appeals, the health plan must notify in writing
24 the covered person, and the attending or ordering provider of the
25 decision on the appeal. Notice must be timely, but in no event more
26 than thirty days following the request for appeal.

27 (4) For emergency appeals, the health plan must make every
28 reasonable effort to process the request within seventy-two hours and
29 to issue a decision no later than one business day following receipt of
30 all necessary information. It is the responsibility of all parties
31 involved in the appeal to facilitate this process. An expedited appeal
32 is available only when the standard appeal process would cause a delay
33 in care that could be detrimental to the health of the covered person.

34 NEW SECTION. **Sec. 10.** (1) The health plan must establish and
35 implement written policies and procedures to assure that patient-
36 specific clinical information and provider-specific performance data
37 obtained as a result of utilization review activities are maintained in

1 a confidential manner. Policies and procedures must include, at a
2 minimum:

3 (a) Safeguards to protect against unauthorized use or disclosure;

4 (b) Guidelines for reporting and release of data to promote the
5 availability of useful, understandable, and accurate information;

6 (c) Mechanisms to assure that data reports related to utilization
7 patterns and quality of care have as their primary purpose to educate
8 and inform users of the data, including a corporate board or designee,
9 plan administrators, payers, consumers, and providers in order to make
10 meaningful selections and decisions regarding the provision of health
11 care services;

12 (d) Processes to assure data are statistically sound and collected,
13 analyzed, and reported according to methodologies that are deemed
14 accurate, reliable, meaningful, and valid;

15 (e) Reasonable opportunities for affected parties to review and
16 respond to data reports before their release;

17 (f) Mechanisms to assure data are severity-adjusted to account for
18 patient and outcome differences;

19 (g) Reports that are generated according to equitable selection
20 criteria so that no class of provider is held to a greater standard of
21 public accountability;

22 (h) Guidelines to prevent unauthorized release of patient-specific
23 data to the public; and

24 (i) Provisions that a party making reports available to the public
25 is held accountable for failure to comply with a standard of due care
26 or safeguards that incorporate criteria for proper release described in
27 these standards.

28 (2) Information pertaining to the diagnosis, treatment, or health
29 of a covered person may be disclosed only to authorized persons to
30 carry out the obligations of the health plan. Release of information
31 otherwise is only permitted with the express consent of the covered
32 person, or under court order for the production of evidence or
33 discovery, or as otherwise provided by law.

34 NEW SECTION. **Sec. 11.** (1) In materials intended for prospective
35 covered persons, the health plan must include a summary of its
36 utilization review procedures.

37 (2) In the certificate of coverage or member handbook provided to
38 newly enrolled covered persons, the health plan must include a clear

1 and comprehensive description of its utilization review procedures and
2 a statement of patient rights and responsibilities with respect to
3 those procedures.

4 (3) The health plan must disclose to the insurance commissioner or
5 other designated state official utilization review program policies,
6 procedures, reports, and data that are required by law.

7 (4) The health plan must state on its membership cards a toll-free
8 telephone number to call for precertification decisions.

9 NEW SECTION. **Sec. 12.** Sections 1 through 11 of this act shall
10 constitute a new chapter in Title 48 RCW.

--- END ---
