Background:

This analysis was prepared by non-partisan legislative staff for the use of legislative members in their deliberations. This analysis is not a part of the legislation nor does it constitute a statement of legislative intent.
Washington operates on a biennial budget cycle. The Legislature authorizes expenditures for capital needs in the omnibus capital appropriations act (capital budget) for a two-year period, and authorizes bond sales through passage of a bond bill associated with the capital budget to fund a portion of these expenditures. Historically, approximately half of the capital budget is financed by these state-issued general obligation bonds, and the balance is funded by dedicated accounts, trust revenue, and federal funding sources. The primary two-year budget is passed in the odd-numbered years, and a supplemental budget making adjustments to the two-year budget is often passed during the even-numbered years. The current capital budget covers the period from July 1, 2013, through June 30, 2015.

The capital budget includes appropriations for the acquisition, construction, and repair of capital assets such as state office buildings, prisons, juvenile rehabilitation centers, residential habilitation centers, mental health facilities, military readiness centers, and higher education facilities. The capital budget also funds a variety of environmental and natural resource projects, parks and recreational facilities, public K-12 school construction, and grant and loan programs that support housing, public infrastructure, community service facilities, and art and historical projects.

**Summary of Engrossed Bill:**

The amended bill includes the 2015-17 Capital Budget and the 2015 Supplemental Capital Budget. It authorizes new capital projects for 2015-17 totaling $3.77 billion, of which $2.16 billion is financed from state general obligation bonds and $1.6 billion is financed from other funds. Included are authorizations for state agencies to enter into alternative financing contracts totaling $313 million. The amended bill also reappropriates $2.87 billion for uncompleted projects approved in prior biennia.

In addition, the amended bill makes adjustments to the 2013-15 Capital Budget, including appropriation increases of $16.7 million and appropriation decreases of $130.3 million, for a net decrease of $113.6 million. Reappropriations are also decreased by a net of $3.5 million.

**EFFECT OF SENATE AMENDMENT(S):**

The Senate amendment: (1) authorizes $3.9 billion in new capital projects for the 2015-17 fiscal biennium, of which $2.38 billion are financed with state general obligation bonds; (2) includes $137.3 million in authorizations for agencies to enter into alternative financing contracts; (3) reappropriates $2.87 billion for uncompleted projects approved in prior biennia; and (4) adjusts the 2013-15 Capital Budget by a net decrease of $113.6 million.

**Appropriation:** For the 2015-17 biennium, the sum of $3.77 billion in new appropriations and $2.87 billion in reappropriations. For the 2013-15 biennium, the net sum of ($113.6 million) in new appropriations and the net sum of ($3.5 million) in reappropriations.

**Fiscal Note:** Not requested.

**Effective Date:** The bill contains an emergency clause and takes effect immediately.
