RCW 28A.155.010 Purpose. It is the purpose of RCW 28A.155.010 through 28A.155.160, 28A.160.030, and 28A.150.390 to ensure that all children with disabilities as defined in RCW 28A.155.020 shall have the opportunity for an appropriate education at public expense as guaranteed to them by the Constitution of this state and applicable federal laws. [2007 c 115 s 1; 1995 c 77 s 7; 1990 c 33 s 120; 1971 ex.s. c 66 s 1. Formerly RCW 28A.13.005.]

Severability—1971 ex.s. c 66: "If any provision of this 1971 amendatory act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected." [1971 ex.s. c 66 s 13.]

Effective date—1971 ex.s. c 66: "This 1971 amendatory act will take effect July 1, 1973." [1971 ex.s. c 66 s 14.]

RCW 28A.155.020 Administration of program in the office of the superintendent of public instruction—Adoption of definitions by rule—Local school district powers not limited. There is established in the office of the superintendent of public instruction an administrative section or unit for the education of children with disabilities who require special education.

Students with disabilities are those children whether enrolled in school or not who through an evaluation process are determined eligible for special education due to a disability.

In accordance with part B of the federal individuals with disabilities education improvement act and any other federal or state laws relating to the provision of special education services, the superintendent of public instruction shall require each school district in the state to insure an appropriate educational opportunity for all children with disabilities between the ages of three and twenty-one, but when the twenty-first birthday occurs during the school year, the educational program may be continued until the end of that school year. The superintendent of public instruction, by rule, shall establish for the purpose of excess cost funding, as provided in RCW 28A.150.390, 28A.160.030, and 28A.155.010 through 28A.155.160, functional definitions of special education, the various types of disabling conditions, and eligibility criteria for special education programs for children with disabilities, including referral procedures, use of positive behavior interventions, the education curriculum and statewide or district-wide assessments, parent and district requests for special education due process hearings, and procedural safeguards. For the purposes of RCW 28A.155.010 through 28A.155.160, an appropriate education is defined as an education directed to the unique needs, abilities, and limitations of the children with disabilities who are enrolled either full time or part time in a school district. School districts are strongly encouraged to provide parental training in the care and education of the children and to involve parents in the classroom.

Nothing in this section shall prohibit the establishment or continuation of existing cooperative programs between school districts or contracts with other agencies approved by the superintendent of public instruction, which can meet the obligations of school districts to provide education for children with disabilities, or prohibit the

continuation of needed related services to school districts by the department of social and health services.

This section shall not be construed as in any way limiting the powers of local school districts set forth in RCW 28A.155.070. [2015 c 206 s 2; 2007 c 115 s 2; 1995 c 77 s 8; 1990 c 33 s 121; 1985 c 341 s 4; 1984 c 160 s 1; 1971 ex.s. c 66 s 2; 1969 ex.s. c 2 s 2; 1969 ex.s. c 223 s 28A.13.010. Finding—2015 c 206: "The legislature finds that there is no educational or therapeutic benefit to children from physically restraining or isolating them as part of their public school programs when not necessary for immediate safety. The use of seclusion or restraints in nonemergency situations poses significant physical and psychological danger to students and school staff. The legislature declares that it is the policy of the state of Washington to prohibit the planned use of aversive interventions, to promote positive interventions when a student with disabilities is determined to need specially designed instruction to address behavior, and to prohibit schools from physically restraining or isolating any student except when the student's behavior poses an imminent likelihood of serious harm to that student or another person." [2015 c 206 s 1.]

Effective date—1985 c 341 ss 4 and 13: "Sections 4 and 13 of this act shall take effect August 1, 1985." [1985 c 341 s 18.]

Severability—1984 c 160: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1984 c 160 s 6.]

(1) "Student" means a student who:

(a) Has a visual acuity of 20/200 or less in the better eye with conventional correction or having a limited field of vision such that the widest diameter of the visual field subtends an angular distance not greater than twenty degrees;

(b) Is unable to read printed material at a competitive rate with facility due to functional visual impairment or lack of visual acuity; or

(c) Has a physical condition with a medical prognosis of a significant visual deterioration to the extent that (a) or (b) of this subsection could apply.

(2) "Braille" means the system of reading and writing through touch commonly known as standard English Braille. [1996 c 135 s 2.]

Findings—1996 c 135: "It is the goal of the legislature to encourage persons who are blind or visually impaired to participate fully in the social and economic life of the state and to engage in remunerative employment. The legislature finds that literacy is essential to the achievement of this goal. Furthermore, the legislature finds that literacy for most persons who are blind or visually impaired means the ability to read and write Braille with proficiency. The legislature sets as a further goal that students who are legally blind or visually impaired shall be given the opportunity to learn Braille in order to communicate effectively and efficiently." [1996 c 135 s 1.]

RCW 28A.155.115 Braille instruction—Assessment—Provision in student's curriculum. (1) Each student shall be assessed individually to determine the appropriate learning media for the student including but not limited to Braille.

(2) No student may be denied the opportunity for instruction in Braille reading and writing solely because the student has some remaining vision.

(3) This section does not require the exclusive use of Braille if there are other special education services to meet the student's educational needs. The provision of special education or other services does not preclude Braille use or instruction.

(4) If a student's individualized learning media assessment indicates that Braille is an appropriate learning medium, instruction in Braille shall be provided as a part of such student's educational curriculum and if such student has an individualized education program, such instruction shall be provided as part of that program.

(5) If Braille will not be provided to a student, the reason for not incorporating it in the student's individualized education program shall be documented in writing and provided to the parent or guardian. If no individualized education program exists, such documentation, signed by the parent or guardian, shall be placed in the student's file. [2007 c 115 s 13; 1996 c 135 s 3.]

Findings—1996 c 135: See note following RCW 28A.155.105.

RCW 28A.155.140 Curriculum-based assessment procedures for early intervening services. School districts may use curriculum-based assessment procedures as measures for developing academic early intervening services, as defined under part B of the federal individuals with disabilities education improvement act, and curriculum planning: PROVIDED, That the use of curriculum-based assessment procedures shall not deny a student the right to use of other assessments to determine eligibility or participation in special education programs as provided by RCW 28A.155.010 through 28A.155.160. [2007 c 115 s 14; 1991 c 116 s 4; 1990 c 33 s 131; 1987 c 398 s 1. Formerly RCW 28A.03.367.]

RCW 28A.155.160 Assistive devices and services—Interagency cooperative agreements—Definitions. Notwithstanding any other provision of law, the office of the superintendent of public instruction, the department of children, youth, and families, the

Washington center for deaf and hard of hearing youth, the Washington state school for the blind, school districts, educational service districts, and all other state and local government educational agencies and the department of services for the blind, the department of social and health services, and all other state and local government agencies concerned with the care, education, or habilitation or rehabilitation of children with disabilities may enter into interagency cooperative agreements for the purpose of providing assistive technology devices and services to children with disabilities. Such arrangements may include but are not limited to interagency agreements for the acquisition, including joint funding, maintenance, loan, sale, lease, or transfer of assistive technology devices and for the provision of assistive technology services including but not limited to assistive technology assessments and training.

For the purposes of this section, "assistive device" means any item, piece of equipment, or product system, whether acquired commercially off-the-shelf, modified, or customized, that is used to increase, maintain, or improve functional capabilities of children with disabilities. The term "assistive technology service" means any service that directly assists a child with a disability in the selection, acquisition, or use of an assistive technology device. Assistive technology service includes:

(1) The evaluation of the needs of a child with a disability, including a functional evaluation of the child in the child's customary environment;

(2) Purchasing, leasing, or otherwise providing for the acquisition of assistive technology devices by children with disabilities;

(3) Selecting, designing, fitting, customizing, adapting, applying, retaining, repairing, or replacing of assistive technology devices;

(4) Coordinating and using other therapies, interventions, or services with assistive technology devices, such as those associated with existing education and rehabilitation plans and programs;

(6) Training or technical assistance for professionals, including individuals providing education and rehabilitation services, employers, or other individuals who provide services to, employ, or are otherwise substantially involved in the major life functions of children with disabilities. [2019 c 266 s 14; 2018 c 58 s 32; 2009 c 381 s 24; 2007 c 115 s 15; 1997 c 104 s 3.]

RCW 28A.155.170 Graduation ceremony. (1) Beginning July 1, 2007, each school district that operates a high school shall establish a policy and procedures that permit any student who is receiving special education or related services under an individualized education program pursuant to state and federal law and who will continue to receive such services between the ages of eighteen and twenty-one to participate in the graduation ceremony and activities

after four years of high school attendance with his or her age-appropriate peers and receive a certificate of attendance.

(2) Participation in a graduation ceremony and receipt of a certificate of attendance under this section does not preclude a student from continuing to receive special education and related services under an individualized education program beyond the graduation ceremony.

(3) A student's participation in a graduation ceremony and receipt of a certificate of attendance under this section shall not be construed as the student's receipt of a high school diploma pursuant to RCW 28A.230.120. [2019 c 252 s 106; 2007 c 318 s 2.]

Intent—2019 c 252: See note following RCW 28A.230.710.

Findings—2007 c 318: "The legislature finds:

(1) There are students with disabilities throughout the state of Washington who have attended four years of high school, but whose individualized education programs prescribe the continuation of special education and related services beyond the fourth year of high school;

(2) Through their participation in the public schools and the community, students with disabilities have frequently become identified with and connected to a class of typically developing, age-appropriate peers who will graduate in four years and participate in a high school graduation ceremony;

(3) A high school graduation ceremony is an important rite of passage for students regardless of their abilities or limitations; and

(4) There is significant value in recognizing students' attendance and accomplishments in their individualized education programs and in allowing students with disabilities to participate in high school graduation ceremonies and activities with their age-appropriate peers without the forfeiture of their continuing special education and related services." [2007 c 318 s 1.]

Short title—2007 c 318: "This act may be known and cited as Kevin's law." [2007 c 318 s 3.]

Conflict with federal requirements—2011 c 45: See note following RCW 28A.330.250.

RCW 28A.155.210 Use of restraint or isolation—Requirement for procedures to notify parent or guardian—Additional procedures for compliance. A student's individualized education program must include procedures for notification of a parent or guardian regarding the use of restraint or isolation under RCW 28A.600.485. If a student is placed in an authorized entity under RCW 28A.155.060, the student's individualized education program must also specify any additional procedures required to ensure the authorized entity fully complies with RCW 28A.600.485. [2023 c 436 s 7; 2013 c 202 s 3.]

Finding—Intent—2023 c 436: See note following RCW 28A.300.690.

Findings—2013 c 202: See note following RCW 28A.600.485.

RCW 28A.155.220 High school transition services—Interagency agreements—Education data center to monitor certain outcomes—Annual report by superintendent of public instruction. (1) The office of the superintendent of public instruction must establish interagency agreements with the department of social and health services, the department of services for the blind, and any other state agency that provides high school transition services for special education students. Such interagency agreements shall not interfere with existing individualized education programs, nor override any individualized education program team's decision-making power. The purpose of the interagency agreements is to foster effective collaboration among the multiple agencies providing transition services for individualized education program-eligible special education students from the beginning of transition planning, as soon as educationally and developmentally appropriate, through age twenty-one, or through high school graduation, whichever occurs first. Interagency agreements are also intended to streamline services and programs, promote efficiencies, and establish a uniform focus on improved outcomes related to self-sufficiency.

(2) (a) When educationally and developmentally appropriate, the interagency responsibilities and linkages with transition services

under subsection (1) of this section must be addressed in a transition plan to a postsecondary setting in the individualized education program of a student with disabilities.

(b) Transition planning shall be based upon educationally and developmentally appropriate transition assessments that outline the student's individual needs, strengths, preferences, and interests. Transition assessments may include observations, interviews, inventories, situational assessments, formal and informal assessments, as well as academic assessments.

(c) The transition services that the transition plan must address include activities needed to assist the student in reaching postsecondary goals and courses of study to support postsecondary goals.

(d) Transition activities that the transition plan may address include instruction, related services, community experience, employment and other adult living objectives, daily living skills, and functional vocational evaluation.

(e) When educationally and developmentally appropriate, a discussion must take place with the student and parents, and others as needed, to determine the postsecondary goals or postschool vision for the student. This discussion may be included as part of an annual individualized education program review, high school and beyond plan meeting, or any other meeting that includes parents, students, and educators. The postsecondary goals included in the transition plan shall be goals that are measurable and must be based on appropriate transition assessments related to training, education, employment, and independent living skills, when necessary. The goals must also be based on the student's needs, while considering the strengths, preferences, and interests of the student.

(f) As the student gets older, changes in the transition plan may be noted in the annual update of the student's individualized education program.

(g) A transition plan required under this subsection (2) must be aligned with a student's high school and beyond plan.

(3) To the extent that data is available through data-sharing agreements established by the education data center under RCW 43.41.400, the education data center must monitor the following outcomes for individualized education program-eligible special education students after high school graduation:

(a) The number of students who, within one year of high school graduation:

(i) Enter integrated employment paid at the greater of minimum wage or competitive wage for the type of employment, with access to related employment and health benefits; or

(ii) Enter a postsecondary education or training program focused on leading to integrated employment;

(b) The wages and number of hours worked per pay period;

(c) The impact of employment on any state and federal benefits for individuals with disabilities;

(d) Indicators of the types of settings in which students who previously received transition services primarily reside;

(e) Indicators of improved economic status and self-sufficiency;

(f) Data on those students for whom a postsecondary or integrated employment outcome does not occur within one year of high school graduation, including:

(i) Information on the reasons that the desired outcome has not occurred;

(ii) The number of months the student has not achieved the desired outcome; and

(iii) The efforts made to ensure the student achieves the desired outcome.

(4) To the extent that the data elements in subsection (3) of this section are available to the education data center through data-sharing agreements, the office of the superintendent of public instruction must prepare an annual report using existing resources and submit the report to the legislature.

(5) To minimize gaps in services through the transition process, no later than three years before students receiving special education services leave the school system, the office of the superintendent of public instruction shall transmit a list of potentially eligible students to the department of social and health services, the counties, the department of services for the blind, and any other state agency working with individuals with intellectual and developmental disabilities. The office of the superintendent of public instruction shall ensure that consent be obtained prior to the release of this information as required in accordance with state and federal requirements. [2022 c 167 s 7; 2015 c 217 s 2; 2014 c 47 s 1.]

Findings—Intent—2015 c 217: "The legislature finds that research continues to suggest that high expectations for students with disabilities is paramount to improving student outcomes. The legislature further finds that to increase the number of students with disabilities who are prepared for higher education, teachers and administrators in K-12 education should continue to improve their acceptance of students with disabilities as full-fledged learners for whom there are high expectations. The legislature also encourages continuous development in transition services to higher education opportunities for these students. The legislature recognizes that other states have authorized transition planning to postsecondary settings for students with disabilities as early as the age of fourteen. To remove barriers and obstacles for students with disabilities to access to postsecondary settings including higher education, the legislature intends to authorize transition planning for students with disabilities as soon as practicable when educationally and developmentally appropriate." [2015 c 217 s 1.]

RCW 28A.155.225 Review of data for disproportionate student identification—Technical assistance. (1) The superintendent of public instruction shall annually review data from local education agencies, including the percentage of students receiving special education services, to ensure there is not a disproportionate identification of students, as defined by the superintendent of public instruction in accordance with federal requirements of the individuals with disabilities education act, 20 U.S.C. Sec. 1400.

(2) The office of the superintendent of public instruction shall provide technical assistance to school districts experiencing issues related to disproportionality and will make available professional development opportunities statewide to support local education agencies, schools, and community partners in promoting inclusionary teaching practices within a multitiered system of supports framework to help safeguard against over-identification and other issues related to disproportionality. [2023 c 417 s 1.]

RCW 28A.155.240 Noncompliance—Complaint process—Major program changes—Corrective action. (1) On its webpage related to special education, the office of the superintendent of public instruction must develop and publish a complaint process for individuals to report noncompliance with local, state, or federal laws or violation of students rights by authorized entities. The webpage may include additional instructions for submitting complaints to the resident school district and for using the special education community complaint processes, when applicable.

(2) When an authorized entity notifies the office of the superintendent of public instruction about major program changes, the office shall review the changes with affected school districts to determine whether the entity remains authorized to provide contracted services.

(3) The office of the superintendent of public instruction must monitor and investigate authorized entities and contracting school districts to ensure compliance with the requirements of RCW 28A.155.060 and 28A.300.690. In completing this duty, the office of the superintendent of public instruction must use information and data gathered during on-site visits, submitted through the complaint processes, and provided by authorized entities and school districts. The office of the superintendent of public instruction must use this process to identify and address patterns of misconduct, including issuing corrective action or revoking an entity's authorization under RCW 28A.300.690 to contract with school districts.

(4) The office of the superintendent of public instruction may suspend, revoke, or refuse to renew the authorization of an entity under RCW 28A.300.690 if the entity:

(a) Fails to maintain authorization standards under RCW 28A.300.690;

(b) Violates the rights of students placed in the authorized entity by a school district;

(c) Fails to adhere to applicable local, state, and federal laws, including health, safety, and civil rights laws;

(d) Fails to comply with contract requirements under RCW 28A.155.060; or

(e) Refuses to implement any corrective actions ordered by the office of the superintendent of public instruction.

(5) As used in this section, "authorized entity" and "entity" has the same meaning as in RCW 28A.300.690. [2023 c 436 s 4.]

Finding—Intent—2023 c 436: See note following RCW 28A.300.690.

RCW 28A.155.245 Notification of noncompliance. (1) The office of the superintendent of public instruction shall notify the state board of education if any private school authorized by the office of the superintendent of public instruction under RCW 28A.300.690 that is also approved by the state board of education under chapter 28A.195 RCW is investigated for noncompliance, is directed to complete corrective action, or fails to maintain authorization.

(2) The data published under subsection (1) of this section must be disaggregated by each authorized entity when it is possible to do so without disclosing, directly or indirectly, a student's personally identifiable information as protected under the federal family educational rights and privacy act (Title 20 U.S.C. Sec. 1232g).

(3) As used in this section, "authorized entity" has the same meaning as in RCW 28A.300.690. [2023 c 436 s 8.]
