RCW 90.88.005 Findings—Intent. (1) The legislature finds that Hood Canal is a precious aquatic resource of our state. The legislature finds that Hood Canal is a rich source of recreation, fishing, aquaculture, and aesthetic enjoyment for the citizens of this state. The legislature also finds that Hood Canal has great cultural significance for the tribes in the Hood Canal area. The legislature therefore recognizes Hood Canal's substantial environmental, cultural, economic, recreational, and aesthetic importance in this state.

(2) The legislature finds that Hood Canal is a marine water of the state at significant risk. The legislature finds that Hood Canal has a "dead zone" related to low-dissolved oxygen concentrations, a condition that has recurred for many years. The legislature also finds that this problem and various contributors to the problem were documented in the May 2004 *Preliminary Assessment and Corrective Action Plan* published by the state agency known as the Puget Sound action team and the Hood Canal coordinating council.

(3) The legislature further finds that significant research, monitoring, and study efforts are currently occurring regarding Hood Canal's low-dissolved oxygen concentrations. The legislature also finds numerous public, private, and community organizations are working to provide public education and identify potential solutions. The legislature recognizes that, while some information and research is now available and some potential solutions have been identified, more research and analysis is needed to fully develop a program to address Hood Canal's low-dissolved oxygen concentrations.

(4) The legislature finds a need exists for the state to take action to address Hood Canal's low-dissolved oxygen concentrations. The legislature also finds establishing an aquatic rehabilitation zone for Hood Canal will serve as a statutory framework for future regulations and programs directed at recovery of this important aquatic resource.

(5) The legislature therefore intends to establish an aquatic rehabilitation zone for Hood Canal as the framework to address Hood Canal's low-dissolved oxygen concentrations. The legislature also intends to incorporate provisions in the new statutory chapter

creating the designation as solutions are identified regarding this problem. [2007 c 341 s 50; 2005 c 478 s 1.]

Effective date—2007 c 341: See RCW 90.71.907.

RCW 90.88.010 Designation by the legislature—Zone one established. (1) Aquatic rehabilitation zones may be designated by the legislature for areas whose surrounding marine water bodies pose serious environmental or public health concerns.

(2) Aquatic rehabilitation zone one is established. Aquatic rehabilitation zone one includes all watersheds that drain to Hood Canal south of a line projected from Tala Point in Jefferson county to Foulweather Bluff in Kitsap county. [2005 c 478 s 2.]

RCW 90.88.020 Hood Canal rehabilitation program—State lead agency—Local management board. (1) The development of a program for rehabilitation of Hood Canal is authorized in Jefferson, Kitsap, and Mason counties within the aquatic rehabilitation zone one.

(2) The Puget Sound partnership, created in RCW 90.71.210, is designated as the state lead agency for the rehabilitation program authorized in this section.

(3) The Hood Canal coordinating council is designated as the local management board for the rehabilitation program authorized in this section.

(4) The Puget Sound partnership and the Hood Canal coordinating council must each approve and must comanage projects under the rehabilitation program authorized in this section. [2007 c 341 s 51; 2005 c 479 s 2.]

Effective date—2007 c 341: See RCW 90.71.907.

(2) The legislature finds that Hood Canal is a marine water of the state at significant risk. The legislature finds that Hood Canal has a "dead zone" related to low-dissolved oxygen concentrations, a condition that has recurred for many years. The legislature also finds this problem and various contributors to the problem were documented in the May 2004 *Preliminary Assessment and Corrective Action Plan* published by the state Puget Sound action team and the Hood Canal coordinating council.

(3) The legislature further finds that significant research, monitoring, and study efforts are currently occurring regarding Hood Canal's low-dissolved oxygen concentrations. The legislature recognizes that federal, state, tribal, and local governments and other organizations and entities are coordinating research, monitoring, and modeling efforts through the Hood Canal low-dissolved oxygen program. The legislature also recognizes that these entities

and others are continuing individual efforts to study and identify potential solutions for Hood Canal's low-dissolved oxygen concentrations. The legislature also recognizes numerous public, private, and community organizations are working to provide public education regarding Hood Canal's low-dissolved oxygen concentrations. The legislature recognizes and encourages the continuation of these efforts.

(4) The legislature finds a need exists for the state to provide additional resources to address Hood Canal's low-dissolved oxygen concentrations. The legislature also finds a need exists to designate the state and local entities to develop, coordinate, and administer a Hood Canal rehabilitation program and funding." [2005 c 479 s 1.]

Forest practices—Nonapplicability of act—2005 c 479: "This act does not apply to forest practices regulated under chapter 76.09 RCW." [2005 c 479 s 4.]
