WAC 220-415-050 2024-2026 Elk general seasons and definitions.

It is unlawful to fail to comply with bag, possession, and season limits described below. A violation of this section is punishable under RCW 77.15.410 Unlawful hunting of big game—Penalty.

Bag Limit: One elk per hunter during the license year, except where otherwise permitted by department rule. Any combination of seasons, tags, and permits set by the department will not exceed a maximum of two elk per hunter during the license year.

Hunting Method: Elk hunters must select only one of the hunting methods: Modern firearm, archery, or muzzleloader.

Elk Tag Areas: Elk hunters must choose either Eastern or Western Washington to hunt in and buy the appropriate tag for that area.

Any Bull Elk Seasons: Open only to the taking of elk with visible antlers; bull calves are illegal.

Antler Point: To qualify as an antler point, the point must be at least one inch long, measured on the longest side.

Branch: A branch is defined as any projection off the main antler beam that is at least one inch long, measured on the longest side, and longer than it is wide.

Spike Bull Antler Restrictions: Bull elk taken in spike-only game management units (GMUs) must have at least one antler with no branches originating more than four inches from where the antler attaches to the skull.

True Spike Bull Antler Restrictions: Neither antler of bull elk taken can have branching originating more than four inches from where the antlers attach to the skull. Under the true-spike restriction, taking an elk that has two points on one side or antler points within one inch of the definitions regarding length of point, or point of origination, is an infraction under RCW 77.15.160. All other types of violations of the true-spike restriction are subject to current penalties and assessments under RCW 77.15.410 and 77.15.420.

3-point Antler Restrictions: Legal bull elk must have at least three antler points on one side. Eye guards are antler points when they are at least one inch long. Antler restrictions apply to all hunters during any open season.

Permit-only Units: The following GMUs are closed to elk hunting during general elk seasons: 157, 418, 437, 485, 522, 556, 621, 636, and 653.

WAC 220-415-060 2025 Elk special permits. It is unlawful to fail to comply with the bag, possession, and season limits described below. A violation of this section is punishable under RCW 77.15.410 Unlawful hunting of big game—Penalty.

Special Elk Permit Hunting Seasons (Open to Permit Holders Only)

Hunters must purchase an elk hunting license prior to purchasing a permit application. Hunters may only apply for permits consistent with the tag required for the hunt choice; however, Multiple Season Permit

holders may apply for Eastern or Western Washington archery, muzzle-loader, or modern firearm permit hunts. Applicants must have purchased the proper tag for these hunts. The elk tag prefixes required to apply for each hunt are shown in the following table. Hunters drawn for a special permit hunt must comply with weapon restrictions, dates, and other conditions listed for the hunt. Hunters drawn for a special permit designated **"Any tag"** under the **"Weapon/Tag"** restriction must use equipment consistent with the requirements of their transport tag and license.

Bag Limit: One (1) elk per hunter during the license year except where otherwise permitted by department rule, even if permits are drawn for more than one elk hunt category. Any combination of seasons, tags, and permits set by the department will not exceed a maximum of two (2) elk per hunter during the license year.

WAC 220-415-100 Cougar hunting seasons and regulations. It is unlawful to fail to comply with the provisions below. A violation of this section is punishable under RCW 77.15.410, 77.15.245, or 77.15.280.

(1) As used in this section and in the context of general cougar hunting seasons, "cap" is based on the best available estimate of independent-aged cougar density and growth rate. Cougar mortalities that count towards the cap include independent-aged harvested cougars and cougars killed in response to conflict.

(2) General cougar season is September 1st to March 31st. Hunters can use any legal weapon to hunt cougars.

(3) If a cougar data analysis unit's (CDAU) three-year average during the three-year season setting process is greater than 16 percent mortality, then the cougar hunt management units (CHMU) that were over 16 percent within that CDAU will receive a 10 percent cap, while the remaining CHMUs in that CDAU will receive a 16 percent cap. If a CDAU's three-year average during the three-year season setting process is less than 16 percent mortality, then the CHMUs within that CDAU will receive a 16 percent cap.

* A special permit to hunt deer or elk in GMU 485 is required to hunt cougar in GMU 485.

(a) The cougar hunting season shall close in one or more CHMUs if cougar mortality meets or exceeds the assigned cap. Additionally, if opened, the season shall close on the Thursday following the cap being reached.

(b) Cougar hunters may hunt cougar until the hunt area cap has been met, and the department has notified licensed cougar hunters by posting the hunt area closure on the department's website and on the toll-free cougar hunting hotline, or March 31st, whichever occurs first.

(4) Cap system:

(a) The cap includes all hunter harvest and known human conflict-related independent-aged cougar mortality. The counting of mortalities will commence on April 1st and conclude on March 31st of the following year.

(b) Agency authorized removals, including depredation permits, landowner kill permits, and WDFW depredation authority, will continue regardless of cap.

(c) It is each cougar hunter's responsibility to verify if the cougar hunting season is open or closed in hunt areas with a cap. Cougar hunters can verify if the season is open or closed by calling the toll-free cougar hunting hotline or visiting the department's website.

(d) The department may close hunting in any CHMU prior to the cap being reached, upon consideration of factors such as disease, suspected additional mortality, or any other issue affecting the cougar population.

(5) Cougar hunting season requirements and special restrictions:

(a) A valid big game hunting license which includes cougar as a species option is required to hunt cougar.

(b) The statewide bag limit is one cougar per license year state-wide; excluding removals authorized under WAC 220-440-030. One cougar transport tag is included with a big game hunting license that has cougar as a species option.

(c) It is unlawful to kill or possess spotted cougar kittens or adult cougars accompanied by spotted kittens.

(d) The use of dogs to hunt cougar is prohibited; except by a commission authorized permit (WAC 220-440-030 and 220-412-130).

(e) Any person who takes a cougar must comply with the notification and sealing requirements in WAC 220-400-050.

WAC 220-415-110 Bighorn sheep—Marking requirements. (1) For the purpose of this section, horns are defined as the hollow sheath of bighorn sheep ram. The horns do not have to be paired and may include one horn.

(2) It is unlawful for a person who kills a bighorn sheep ram taken in Washington to fail, within ten days after acquisition, to personally present the horns for inspection and permanent marking at a department office or location designated by a department representative. A department employee shall permanently mark one of the horns of each lawfully acquired bighorn sheep. A violation of this subsection is punishable under RCW 77.15.280 (1)(c).

(3) It is unlawful for any person to possess the horns of a bighorn sheep ram originating in Washington except as described in sub-

sections (2) and (4) of this section. Horns of bighorn sheep found dead in Washington must be left in the field. A violation of this subsection is punishable under RCW 77.15.410.

(4) It is unlawful to offer for sale, sell, purchase, or barter, bighorn sheep horns without a written permit authorized by the director. Permits will only be granted where such sale, purchase, or barter will specifically benefit bighorn sheep conservation or management. It is unlawful for any person who transfers ownership or possession of the horns of a bighorn sheep ram that have been permanently marked to fail to give written notice of the transfer to the department within thirty days after the transfer. In the case of horns originating from a bighorn sheep legally obtained prior to the initiation of permanent marking in the jurisdiction of its origin, the director is authorized to issue a permit for possession (but not for resale); such a permit must subsequently be retained with the horns. After such a permit is issued, the horns must be presented for permanent marking to a WDFW office within thirty days. A violation of this subsection is punishable under RCW 77.15.750, provided it does not involve trafficking of bighorn sheep or the parts thereof.

See subsection (3) of this section Bighorn Sheep Units for detailed legal descriptions of these hunt area boundaries.

^a A juvenile ram is defined as a male bighorn sheep having at least one "unbroomed" horn that does not extend past an imaginary line beginning at the point on the animal's forehead where the front of the horn base adjoins the skull, and continuing downwards and in a posterior direction through the posterior edge of the eye. All reference points are based on viewing the ram directly from a 90 degree angle from which the head is facing. A "broomed" horn is defined as a sheep horn that has been broken, splintered, frayed or rubbed in the wild, thus shortening its length and disrupting its natural taper.
