

WAC 296-870-30010 Initial installation and after major modification inspection and testing. (1) You must make sure a completed powered platform installation has been inspected and tested by the building owner:

(a) Before it was first placed into service; and

(b) Before it was returned to service after major modification was done.

(2) You must make sure the inspection and tests determined that:

(a) All parts of the installation met the applicable requirements of this chapter; and

(b) All safety and operating equipment functioned as required.
