- WAC 388-470-0075 How is my vehicle counted for the Washington Basic Food program? This rule applies to the Washington Basic Food program only.
- (1) A vehicle is a motorized device that the client can use as a regular means of transportation.
- (2) If you own a licensed vehicle we (the department) do not count its entire value if the vehicle:
- (a) Has an equity value (fair market value (FMV) minus what you owe on the vehicle) of 1,500 dollars or less.
- (b) Is used over 50 percent of the time to make income. This includes vehicles such as a taxi, truck, or fishing boat. If you are a self-employed farmer or fisher and your self-employment ends, we still exclude your vehicle for one year from the date you end your self-employment.
- (c) Is used to make income each year that is consistent with its FMV, even if used on a seasonal basis.
- (d) Is needed for long-distance travel, other than daily commuting, for the employment of an assistance unit (AU).
 - (e) Is used as your AU's home.
- (f) Is used to carry fuel for heating or water for home use when this is the primary source of fuel or water for your AU.
- (g) Is needed to transport a physically disabled AU member, no matter if the disability is permanent or temporary.
- (3) For licensed vehicles we did not exclude in subsection (2) above, we subtract 4,650 dollars from the vehicle's FMV and count the remaining amount toward the resource limit for:
- (a) One vehicle for each adult AU member no matter how it is used; and
- (b) Any vehicle an AU member under age 18 uses to drive to work, school, training, or to look for work.
- (4) If you have other licensed vehicles, we count the larger value of the following toward your AU's resource limit:
 - (a) FMV greater than 4,650 dollars; or
 - (b) Equity value (FMV minus what is owed on the vehicle).
- (5) If you are a tribal member and drive an unlicensed vehicle on a reservation that does not require vehicle licensing, we count or exclude your vehicle as if it was a licensed vehicle.
- (6) For all other unlicensed vehicles we count the equity value towards your AU's resource limit unless the vehicle is:
- (a) Used to make income each year that is consistent with its ${\sf FMV}$, even if used on a seasonal basis; or
- (b) Work-related equipment needed for employment or self-employment of a member of your AU.
- (7) We do not add the equity values of different vehicles together to perform the equity test. We look at each vehicle separately. If a vehicle passes the equity test, we do not count it towards the resource maximum.
- (8) After we determine the countable value of each vehicle, we add those values to your other countable resources to see if your resources are below your resource limit.
